American Kinship David M. Schneider,2014-06-01 American Kinship is the first attempt to deal systematically with kinship as a system of symbols and meanings and not simply as a network of functionally interrelated familial roles Schneider argues that the study of a highly differentiated society such as our own may be more revealing of the nature of kinship than the study of anthropologically more familiar but less differentiated societies He goes to the heart of the ideology of relations among relatives in America by locating the underlying features of the definition of kinship nature vs law substance vs code One of the most significant features of American Kinship then is the explicit development of a theory of culture on which the analysis is based a theory that has since proved valuable in the analysis of other cultures For this Phoenix edition Schneider has written a substantial new chapter responding to his critics and recounting the charges in his thought since the book was first published in 1968

"Remember You're A Jones" Lessons That My Father Taught Me Brian Jones Jr,2019-03 According to the U S Census Bureau 19 7 million children more than 1 in 4 live without a father in the home Consequently this has caused a father absence crisis in America Every day little boys and girls are growing up going through each stage without that important role a man ultimately plays in a child s life My father was one of those little boys and through that experience found his purpose to be the best father to his children that he could be and he was On October 31 2016 I lost the greatest man I ve known but the lessons he has taught me will live on forever **Essays on Social Psychology** George Mead,2017-09-08 George Herbert Mead 1863 1931 is a central founding figure of modern sociology comparable to Karl Marx and Max Weber Mead s early work prior to his posthumous publications that appeared after 1932 is believed to be a series of articles contemporary scholarship defines as disconnected A previously unknown never published set of galleys for a book of essays by Mead written between 1892 and 1910 unites these articles into a logical perspective Essays on Social Psychology Mead s first book clearly locates him within a significantly different tradition and network than documented in his posthumous volumes The

discovery of this work is a major scholarly event. Instead of being abstract and unemotional as some scholars argue, Mead's early scholarship focused on the significance of emotions, instincts, and childhood, as well as political issues underlying political problems in Chicago. During these early years, he was involved with the emerging Laboratory Schools at the University of Chicago, which was then the center of progressive education. These early topics, interpretations, and scholarly networks are dramatically different in these writings from those of Mead as a mature scholar. They demonstrate that he was clearly making a transition from psychology to social psychology at a time when the latter was in its infancy.

Mary Jo Deegan, a world-renowned Meadian scholar, has comprehensively edited this volume, footnoting now obscure references and authors. Her introduction explains how this previously lost manuscript affects contemporary Meadian scholarship and how it reflects the city and times in which he lived. Unlike the posthumous volumes assembled from lecture notes, *Essays in Social Psychology* is the only book actually written by Mead and challenges most current scholarship on him. The selections are highly readable, surprisingly timely, yet historically significant. Psychologists, sociologists, and educators will find it immensely important.

George Herbert Mead (1863-1931) taught at the University of Chicago from 1894 to 1931. His posthumous volumes are *The Philosophy of the Present Mind: Self and Society* and *The Philosophy of the Act*. Mary Jo Deegan is professor of sociology at the University of Nebraska-Lincoln. She is the author of *Jane Addams and the Men of the Chicago School, 1892-1918*, named by *Choice* as among the outstanding academic books of 1989.

Gospel-Centered Mom Brooke McGlothlin, 2017-08-01 It's time to stop trying to be the perfect mom. You long to be the mom your kids need, but often you're convinced you come up short. The label "not enough" seems to be stamped across everything you do, and yet parenting is the one thing you want most to get right. What if the solution is simply to embrace the truth that you are not enough, but God is? In *Gospel-Centered Mom*, Brooke McGlothlin reveals how our entire approach to motherhood shifts when we stop chasing our vision of a perfect family and start fully pursuing God. With refreshing candor, Brooke examines the daunting task of raising children in the light of God's Word and challenges you to embrace your moment-by-moment need for Jesus, release the stress of believing everything is your responsibility, learn to fight for rather than against your child, believe that the story God is writing with your life is worth the sacrifice, practice the daily disciplines that lead to Gospel-centered parenting. As you learn to anchor your life in the Gospel, you'll find increased freedom, purpose, and joy in motherhood. And you'll discover that Jesus is more than capable of meeting every need for your children and for you.

Aeneidea James Henry, 2013-10-03 This monumental multi-volume commentary on the *Aeneid*, published between 1873 and 1892, remains a landmark in Virgilian scholarship.

The Idiot Fyodor Dostoyevsky, 2015-10-11 *The Idiot* is a novel written by the 19th-century Russian author Fyodor Dostoyevsky. It was first published serially in *The Russian Messenger* between 1868 and 1869. *The Idiot*, alongside some of Dostoyevsky's other works, is often considered one of the most brilliant literary achievements of the Golden Age of Russian literature.

Book Of Fire Marjorie B. Kellogg, 2000-07-01 Follow the adventures of the four elemental dragons

and their human guides in the third book of the history spanning Dragon Quartet fantasy series A desperate call had united the dragons Earth and Water with their dragon guides the girl named Erde who had discovered Earth in the war ravaged principalities of 913 AD Germany and the boy N Doch who found Water on the African coast in the year 2013 Together they braved the dangers of both their times only to find themselves drawn to a future beyond even N Doch's own to a devastated America where the dragon Fire reigned in all his terrifying magnificence with his dragon guide Paia transformed into his high priestess her true destiny concealed from her Yet it was not Fire who had summoned his brother and sister dragons The Call had come from another and the reason for the summons was all too clear Fire had chosen to become a god instead of a guardian And the dragon Air was nowhere to be found Could Earth and Water with Erde and N Doch force Fire and Paia back on the path they were fated to follow Could they find and rescue Air Or would Fire's rebellion doom both the dragons and the world they guarded
