Bureau of Light-Houses,1933 Hitler's Nordic Ally? Claes Johansen,2016-02-28 Finland was the only nation with an elected and democratic government to fight on the German side in WWII Despite being small poorly armed and made up of conscripts the Finnish army was probably the most effective fighting force at the time managing with practically no outside help to keep the mighty Red Army at bay for more than three months during the Winter War of 1939 40 In 1944 the devastating Soviet mass attack against the Finnish Army involved the largest artillery assault of the entire WWII theater of operations up until this point Nevertheless the Finns eventually managed to halt the attack Most English books on Finland in WWII concentrate on the brief Winter War and make very little mention of the country s involvement in the remainder of the war where it fought for more than three years alongside the Germans against the Soviet Union and later against Germany in the Lapland War

This book examines this extremely important highly dramatic and often overlooked and misunderstood chapter of WWII to a broad English reading audience Building on the latest historical research Claes Johansens ground breaking work explains how the Finnish war effort was planned and executed how it was connected to the overall events of the era and how the waging of a total war can affect a modern democratic society militarily politically diplomatically and on various levels of civilian life **Light List, Atlantic Coast of the United States, Northern Part** United States.
