Proceed to Peshawar is a story of adventure in the Hindu Kush Mountains and of a previously untold military and naval intelligence mission during World War II by two American officers along 800 miles of the Durand Line the porous border between Afghanistan and Pakistan They passed through the tribal areas and the princely states of the North West Frontier Province and into Baluchistan This appears to be the first time that any American officials were permitted to travel for any distance along either side of the Durand Line Many British political and military officers believed that India would soon be free and that the Great Game between Russia and Britain in the nineteenth and early twentieth centuries would then come to an end Some of them thought that the United States should and would assume Britain s role in Central Asia and they wanted to introduce America to this ancient contest

W. Forbes, 1986-10-09 This book provides a detailed study of Sinkiang China's largest province and of great strategic importance on the Russian border during the Warlord and Kuomintang Eras It is an analysis of the internal warlord and Islamic politics of Sinkiang as well as to take account of great power interests in this region during a period in which it was essentially a Han Chinese colony in the heart of Central Asia The study is of relevance not only to the history of twentieth century China but also to the politics of Islamic reassertion in Central Asia to the development of the Soviet Union as an imperial power in the Tsarist Russian mould to an understanding of the cultural and political aspirations of China's national minorities and should serve in a world preoccupied with Western colonialism and imperialism as a reminder that colonial kin and imperialism was not and is not an exclusively European preserve Tournament of Shadows Karl E. Meyer, Shareen Blair Brysac, 2009-03-17 From the romantic conflicts of the Victorian Great Game to the war torn history of the region in recent decades Tournament of Shadows traces the struggle for control of Central Asia and Tibet from the 1830s to the present The original Great Game the clandestine struggle between Russia and Britain for mastery of Central Asia has long been regarded as one of the greatest geopolitical conflicts in history Many believed that control of the vast Eurasian heartland was the key to world dominion The original Great Game ended with the Russian Revolution but the geopolitical struggles in Central Asia continue to the present day In this updated edition the authors reflect on Central Asia's history since the end of the Russo Afghan war and particularly in the wake of 9 11 **Far Out** Mark Liechty, 2017-02-21 Westerners have long imagined the Himalayas as the

world's last untouched place and a repository of redemptive power and wisdom. Beatniks, hippie seekers, spiritual tourists, mountain climbers, diverse groups of people have traveled there over the years searching for their own personal Shangri La. In *Far Out*, Mark Liechty traces the Western fantasies that captured the imagination of tourists in the decades after World War II, asking how the idea of Nepal shaped the everyday cross-cultural interactions that it made possible. Emerging from centuries of political isolation but eager to engage the world, Nepalis struggled to make sense of the hordes of exotic, enthusiastic foreigners. They quickly embraced the phenomenon, however, and harnessed it to their own ends by building tourists' fantasies into their national image and crafting Nepal as a premier tourist destination. Liechty describes three distinct phases: the postwar era when the country provided a Raj-like throwback experience for rich Americans; Nepal's emergence as an exotic outpost of hippie counterculture in the 1960s; and its rebranding into a hip adventure destination, which began in the 1970s and continues today. He shows how Western projections of Nepal as an isolated place inspired creative enterprises and paradoxically allowed locals to participate in the global economy. Based on twenty-five years of research, *Far Out* blends ethnographic analysis, a lifelong passion for Nepal, and a touch of humor to produce the first comprehensive history of what tourists looked for and found on the road to Kathmandu. **Britain and Tibet 1765-1947**

Julie G. Marshall, 2005. This bibliography is a record of British relations with Tibet in the period 1765 to 1947. As such, it also involves British relations with Russia and China and with the Himalayan states of Ladakh, Lahul, and Spiti, Kumaon, and Garhwal, Nepal, Sikkim, Bhutan, and Assam, in so far as British policy towards these states was affected by her desire to establish relations with Tibet. It also covers a subject of some importance in contemporary diplomacy. It was the legacy of unresolved problems concerning Tibet and its borders bequeathed to India by Britain in 1947, which led to border disputes and ultimately to war between India and China in 1962. These borders are still in dispute today. It also provides background information to Tibet's claims to independence, an issue of current importance. The work is divided into a number of sections and subsections based on chronology, geography, and events. The introductions to each of the sections provide a condensed and informative history of the period and place the books and articles in their historical context. Most entries are also annotated. This work is therefore both a history and a bibliography of the subject and provides a rapid entry into a complex area for scholars in the fields of international relations and military history, as well as Asian history.
