However, crucial questions about how global networks of production and circulation alter the identity of an East Asian film as mainstream or as exploitation have yet to be addressed in a comprehensive way. *Exploiting East Asian Cinemas* serves as the first authoritative guide to the various ways in which contemporary cinema from and about East Asia has trafficked across the somewhat elusive line between mainstream and exploitation. Focusing on networks of circulation, distribution and reception, this collection treats the exploitation cinemas of East Asia as mobile texts produced, consumed and in many ways re-appropriated across national and hemispheric boundaries. As the processes of globalization have decoupled products from their nations of origin, transnational taste cultures have declared certain works as art or trash regardless of how those works are received within their native locales. By charting the routes of circulation of notable films from Japan, China and South Korea, this anthology contributes to transnationally accepted formulations of what constitutes East Asian exploitation cinema *Simon & Schuster Mega Crossword Puzzle Book #23* John M.
