by FDR created the Federal Writers Project under the New Deal as a make work program for artists and authors. A number of writers including Zora Neale Hurston, Eudora Welty, and Nelson Algren were dispatched all across America to chronicle the eating habits, traditions, and struggles of local people. The project called *America Eats* was abandoned in the early 1940s because of the World War and never completed. *The Food of a Younger Land* unearths this forgotten literary and historical treasure and brings it to exuberant life. Mark Kurlansky's brilliant book captures these remarkable stories and combined with authentic recipes, anecdotes, photos, and his own musings and analysis evokes a bygone era when Americans had never heard of fast food and the grocery superstore was a thing of the future. Kurlansky serves as a guide to this hearty and poignant look at the country's roots. From New York automats to Georgia Coca Cola parties, from Arkansas possum eating clubs to Puget Sound salmon feasts, from Choctaw funerals to South Carolina barbecues, the WPA writers found Americans in their regional niches and eating an enormous diversity of meals. From Mississippi chittlins to Indiana persimmon puddings, Maine lobsters, and Montana beavertails, they recorded the curiosities, commonalities, and communities of American food.

Histories of French Sexuality Nina Kushner, Andrew Israel Ross, 2023. *Histories of French Sexuality* contends that the history of sexuality is at a crossroads. Decades of scholarship have shown that sexuality is implicated in a wide range of topics such as studies of reproduction, the body, sexual knowledge, gender identity, marriage, and sexual citizenship. These studies have broadened historical narratives and interpretations of areas such as urbanization, the family, work, class, empire, the military, and war, and the nation. Yet while the field has evolved, not everyone has caught on, especially scholars of French history. Covering the early eighteenth century through the present, the essays in *Histories of French Sexuality* show how attention to the history of sexuality deepens, changes, challenges, supports, or otherwise complicates the major narratives of French history. This volume makes a set of historical arguments about the nature of the past and a larger historiographical claim about the value and place of the field of the history of sexuality within the broader discipline of history. The topics include early empire, building, religion, the Enlightenment, feminism, socialism, formation of the modern self, medicine, urbanization, decolonization, the social world of postwar France, and the rise of modern and social media.
