Grab Roots And Cadre In The Protest Movement:

The New NDP David McGrane, 2019-05-15 The New NDP is the definitive account of the evolution of the New Democratic Party's political marketing strategy in the early twenty first century In 2011 the federal NDP achieved its greatest electoral success becoming the official opposition under Jack Layton's leadership David McGrane argues that the key to the party's electoral success of 2011 lies in the moderation of its ideology and modernization of its campaign structures Those changes brought the party closer to governing than ever before but ultimately not into power McGrane then poses a difficult question Was remaking the NDP message and revitalizing its campaign model the right choice after all considering it fell to its perennial third party spot in 2015 The New NDP examines Canada's NDP at a pivotal time in its history and provides lessons for progressive parties on how to win elections in the age of the internet big data and social media

Special Relations Howard Malchow, 2011-02-18 A study of Anglo American cultural and countercultural exchange from the mid Fifties to the mid Seventies Special Relations explores aspects of London modernism the anti war movement student rebellion black power the second wave feminist and gay liberation movements and transatlantic nostalgia

The European Radical Left Giorgos Charalambous, 2021-12-20 Is today's left really new How has the European radical left evolved Giorgos Charalambous answers these questions by looking at three moments of rapid political change the late 1960s to late 1970s the turn of the millennium and post 2008 He challenges the conventional understanding of a new left drawing out continuities with earlier movements and parties Charalambous examines the Long 68 symbolised by the May uprisings in France which saw the rise of new left forces and the widespread criticism by younger radical activists of traditional communist and socialist parties He puts this side by side with the turn of the millennium when the Global Justice Movement rose to prominence and changed the face of the international left and also the period after the financial crash of 2008 and the rise of anti austerity politics which initiated the most recent wave of new left parties such as Podemos in Spain and Syriza in Greece With a unique two level perspective Charalambous approaches the left through both social movements and party politics looking at identities rhetoric and organisation and bringing a fresh new approach to radical history as well as assessing challenges for both activists and scholars

Organizing Against Democracy Antonis A. Ellinas, 2020-01-30 Organizing Against Democracy investigates some of the most important challenges modern democracies face filling a distinctive gap in the literature both empirically and theoretically Ellinas examines the attempts of three of the most extreme European far right parties to establish roots in local societies and the responses of democratic actors He offers a theory of local party development to analyze the many factors affecting the evolution of far right parties at the subnational level Using extraordinarily rich data the author examines the lives of local far right party organizations in Greece Germany and Slovakia studying thousands of party activities and interviewing dozens of party leaders and functionaries and antifascists He goes on to explore how and why extreme parties succeed in some local settings while in others they fail This book broadens our

understanding of right wing extremism illuminating the factors limiting its corrosiveness **This Light of Ours** Leslie G. Kelen,2023-08-16 This Light of Ours Activist Photographers of the Civil Rights Movement is a paradigm shifting publication that presents the Civil Rights Movement through the work of nine photographers who participated in the movement as activists with SNCC SCLC and CORE Unlike images produced by photojournalists who covered breaking news events these photographers lived within the movement primarily within the Student Nonviolent Coordinating Committee SNCC framework and documented its activities by focusing on the student activists and local people who together made it happen The core of the book is a selection of 150 black and white photographs representing the work of photographers Bob Adelman George Ballis Bob Fitch Bob Fletcher Matt Herron David Prince Herbert Randall Maria Varela and Tamio Wakayama Images are grouped around four movement themes and convey SNCC s organizing strategies resolve in the face of violence impact on local and national politics and influence on the nation s consciousness The photographs and texts of This Light of Ours remind us that the movement was a battleground that the battle was successfully fought by thousands of ordinary Americans among whom were the nation s courageous youth and that the movement s moral vision and impact continue to shape our lives *State Responses to Human Security* Courtney Hillebrecht,Tyler R. White,Patrice C. McMahon,2013-11-07 The aim of this book is to analyse why and how states respond to human security both at home and abroad Although states still define security as the defense of territory from military attack increasingly security pertains to the protection of human beings from violence This violence can emerge from rebels drug traffickers terrorism and even environmental and demographic changes While previous literature in this field has provided rich empirical detail about human security crises it is generally quiet about how states respond to these crises State Responses to Human Security fills this lacuna by bringing in concepts from international security studies and focusing on states perceptions of power and the changing nature of human security Instead of debating whether or not human security exists the authors in this volume agree that human security has been redefined to include policies associated with violence toward individuals and groups and draw on recent events in the Middle East China and Mexico to understand how and when human security issues prompt state responses and affect international relations The case studies analysed in this book suggest that states respond to human security threats differently but in both the domestic context and abroad power and perceptions matter greatly in shaping states reactions to human security concerns This book will be of much interest to students of human security foreign policy international relations and security studies in general

The Gender/sexuality Reader Roger N. Lancaster,Micaela Di Leonardo,1997 Textbook on gender **Disappearing the President** Lee Smith,2024-10-15 Target Trump Even before a would be killer tried to murder President Trump in Butler Pennsylvania a clique of political assassins set about eliminating him from public life entirely In Disappearing the President New York Times bestselling author Lee Smith exposes how a shadow network of powerful partisan activists has waged a years long scorched earth war to eradicate President Trump and any vestige of his influence Resorting to an unprecedented

campaign of domestic spying election rigging brute force censorship and political violence anti Trump zealots have undermined the federal government and sabotaged countless other vital institutions in their relentless quest to crush the former president In this alarming book Lee Smith reveals How U S intelligence services trained to sabotage foreign governments and leaders have turned their expertise against Americans How the Shadow Network exploited Covid to censor dissidents and rig the 2020 election Why Big Tech firms hired hundreds of former intelligence officials after 2018 How Barack Obama widely viewed as a benign elder statesman created and leads the anti Trump operation Finally Smith shows how censorship of Trump supporters has provoked a free speech backlash The hour is late and the stakes are high Including exclusive interviews with President Trump Devin Nunes Dan Bongino and many others Disappearing the President is an unsettling expose of a rogue cabal that will pay any price to annihilate the one man who threatens their agenda

Democratic Phoenix Pippa Norris, 2002-09-02 Conventional wisdom suggests that citizens in many countries have become disengaged from the traditional channels of political participation Commentators highlight warning signs including sagging electoral turnout rising anti party sentiment and the decay of civic organizations But are these concerns justified This book compares systematic evidence for electoral turnout party membership and civic activism in countries around the world and suggests good reasons to question assumptions of decline Not only is the obituary for older forms of political activism premature but new forms of civic engagement may have emerged in modern societies to supplement traditional modes The process of societal modernization and rising levels of human capital are primarily responsible although participation is also explained by the structure of the state the role of agencies and social inequalities **Bulletin of the Atomic Scientists**

, 1969-02 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world **The Nation** , 2010 *Bulletin of the Atomic Scientists* , 1966-06 The Bulletin of the Atomic Scientists is the premier public resource on scientific and technological developments that impact global security Founded by Manhattan Project Scientists the Bulletin s iconic Doomsday Clock stimulates solutions for a safer world *Newsweek* , 1988

Chronicles , 1993 **Economic and Political Weekly** , 1986 **The Economist** , 1963 **Asia and Africa Today** , 1990 □□□□□□□□□□ , 1990 **From Outrage to Action** Laura R. Woliver, 1993 From Outrage to Action examines the rise and fall of grass roots interest groups through in depth analyses of four incidents that mobilized citizens around local injustices In one case a local judge declared a five year old sexual assault victim a particularly promiscuous young lady In another an innocent black man died in police custody In the third a man with a criminal record was charged with murdering a ten year old girl and in the last a judge commented during a juvenile sentencing that rape is a normal reaction to the way women dress Through in depth interviews with activists Laura Woliver examines these community actions studying the groups involved and linking her conclusions to larger questions of political power and the impact of social movements Group

successes and failures are explained through analysis of fluid social movements and the role of religion class gender and race Woliver found that activists unprepared for the ostracism and conflict resulting from their dissent retreated from public life while those who identified with alternative communities avoided self blame and maintained their political commitments She relates the community responses in these cases to those in the case of confessed mass murderer Jeffrey Dahmer and in the beating by Los Angeles police officers of Rodney King Her findings will make fascinating reading for those interested in the rise and fall of grass roots interest groups the nature of dissent and the reasons why people volunteer countless hours sometimes in the face of community opposition and isolation to dedicate themselves to a cause The four ad hoc interest groups studied are the Committee to Recall Judge Archie Simonson Madison the Coalition for Justice for Ernest Lacy Milwaukee Concerned Citizens for Children Grant County Wisconsin and Citizens Taking Action Madison
