Lutyens, Maconchy, Williams and Twentieth-Century British Music Rhiannon Mathias, 2016-05-13 Elisabeth Lutyens 1906 1983 Elizabeth Maconchy 1907 1994 and Grace Williams 1906 1977 were contemporaries at the Royal College of Music The three composers careers were launched with performances in the Macnaghten Lemare Concerts in the 1930s a time when in Britain as Williams noted a woman composer was considered very odd indeed Even so by the early 1940s all three had made remarkable advances in their work Lutyens had become the first British composer to use 12 note technique in her Chamber Concerto No 1 1939 40 Maconchy had composed four string quartets of outstanding quality and was busy rethinking the genre and Williams had won recognition as a composer with great flair for orchestral writing with her Fantasia on Welsh Nursery Tunes 1940 and Sea Sketches 1944 In the following years Lutyens Maconchy and Williams went on to compose music of striking quality and to attain prominent positions within the British music scene Their respective achievements broke through the sound ceiling challenging many of the traditional assumptions which accompanied music by female composers Rhiannon Mathias traces the development of these three important composers through analysis of selected works The book draws upon previously unexplored material as well as radio and television interviews with the composers themselves and with their contemporaries The musical analysis and contextual material lead to a re evaluation of the composers positions in the context of twentieth century British music history

The Woman Composer Jill Halstead, 2017-07-05 Unlike previous anthologizing examinations of women and musical composition this book concentrates on the reasons why there have been and continue to be so few women composers Jill Halstead focuses on the experiences of nine composers born in the twentieth century Avril Coleridge Taylor Grace Williams Elizabeth Maconchy Minna Keal Ruth Gipps Antoinette Kirkwood Enid Luff Judith Bailey and Bryony Jagger to explore the physiological social and political factors that have inhibited women from pursuing careers as composers Is there a biological argument for inferior female creativity Do social structures such as marriage serve to restrict potential women composers Is the gender of a composer reflected in the music they write If so how would this manifest itself The conclusions that are reached are as complex and challenging as the questions that are raised This powerful and provocative book aims to open up debate on these issues which have all too often been avoided by critics and musicologists whose writings have perpetuated arguments that denigrate women's ability to compose By confronting these arguments this study will hopefully begin a reassessment of attitudes towards women and music so that women composers are less of a rarity by the end of the next century

Roger Williams: The Church and the State Edmund S. Morgan, 2007-07-17 An illuminating portrait of the nation's earliest and most passionate advocate for the total separation of church and state A classic of its kind Edmund S. Morgan's Roger Williams skillfully depicts the intellectual life of the man who after his expulsion in 1635 from the Massachusetts Bay Colony founded what would become Rhode Island As Morgan re-creates the evolution of Williams's thoughts on the nature of the church and the state he captures with characteristic economy and precision the institutions that informed Williams's worldview from the Protestant church in England to the Massachusetts government in the seventeenth century In doing so Morgan reveals the origins of a perennial and heated American debate told through the ideas of one of the most brilliant polemicists on the subject a man whose mind as Morgan describes drove him to examine accepted ideas and carry them to unacceptable conclusions Forty years after its first publication Roger Williams remains essential reading for anyone interested in the church the state and the right relation of the two
