Melosi, 2020-01-28 Fresh Kills a monumental 2 200 acre site on Staten Island was once the world's largest landfill From 1948 to 2001 it was the main receptacle for New York City's refuse After the 9 11 attacks it reopened briefly to receive human remains and rubble from the destroyed Twin Towers turning a notorious disposal site into a cemetery Today a mammoth reclamation project is transforming the landfill site constructing an expansive park three times the size of Central Park Martin V Melosi provides a comprehensive chronicle of Fresh Kills that offers new insights into the growth and development of New York City and the relationship among consumption waste and disposal He traces the metamorphoses of the landscape following it from salt marsh to landfill to cemetery and looks ahead to the future park By centering the problem of solid waste disposal Melosi highlights the unwanted consequences of mass consumption He presents the Fresh Kills space as an embodiment of massive waste linking consumption to the continuing presence of its discards Melosi also uses the landfill as a lens for understanding Staten Island's history and its relationship with greater New York City The first book on the history of the iconic landfill Fresh Kills unites environmental political and cultural history to offer a reflection on material culture consumer practices and perceptions of value and worthlessness *Global Ideologies and Urban Landscapes* Manfred Steger, Anne McNevin, 2013-09-13 How do political ideologies and

urban landscapes intersect in the context of globalization This volume illuminates the production of ideologies as both discursive and spatial phenomena in distinct contributions that ground their analysis in cities of the Global North and South From Sydney to Singapore Hong Kong to Hanoi Las Vegas to Macau conventional public spaces are in decline as sites of ideological dissent Instead we are witnessing the colonisation of urban space by market globalism today s dominant global ideology and securitised surveillance regimes Against this backdrop how should we interpret the proliferation of metaphors that claim to communicate the essence of global transformation In what ways do space and language work together to normalise the truth claims of powerful ideological players What kinds of social forces mobilise to contest the cooptation of language and space and to pose alternative local and global futures This volume poses these questions against the collapse of old geographical scales and cartographic techniques for identifying the contours of civil society The city acts as an entry point to a new spatial analytics of contemporary ideological forces This book was published as a special issue of
