Helping People Change:

Helping People Change Richard Boyatzis, Melvin L. Smith, Ellen Van Oosten, 2019-08-20 You're trying to help but is it working? Helping others is a good thing. Often as a leader, manager, doctor, teacher, or coach, it's central to your job. But even the most well-intentioned efforts to help others can be undermined by a simple truth: We almost always focus on trying to fix people, correcting problems or filling the gaps between where they are and where we think they should be. Unfortunately, this doesn't work well, if at all, to inspire sustained learning or positive change. There's a better way. In this powerful practical book, emotional intelligence expert Richard Boyatzis and Weatherhead School of Management colleagues Melvin Smith and Ellen Van Oosten present a clear and hopeful message: The way to help someone learn and change, they say, cannot be focused primarily on fixing problems but instead must connect to that person's positive vision of themselves or an inspiring dream or goal they've long held. This is what great coaches do: they know that people draw energy from their visions and dreams and that same energy sustains their efforts to change even through difficult times. In contrast, problem-centered approaches trigger physiological responses that make a person defensive and less open to new ideas. The authors use rich and moving real-life stories as well as decades of original research to show how this distinctively positive mode of coaching, what they call coaching with compassion, opens people up to thinking creatively and helps them to learn and grow in meaningful and sustainable ways. Filled with probing questions and exercises that encourage self-reflection, *Helping People Change* will forever alter the way all of us think about and practice what we do when we try to help. *How to Help People Change* Jay E. Adams, 2010-08-10 Change is the essential goal of the counseling process. How can a Christian counselor facilitate such change? The answer, of course, may be found in Scripture, specifically in 2 Timothy 3:14-17. Professor, pastor, and well-known counselor Jay E. Adams bases his whole approach on Scripture. This book provides an unparalleled opportunity to see how he discovers and applies biblical principles as well as the way in which Scripture functions as the basis for his counseling approach. In *How to Help People Change*, this book answers two questions: How does a counselor help people change? How does Scripture provide the source of a counselor's method? This book has much to say about the ongoing discussion of the relationship between theology and psychology in the enterprise of Christian counseling. Jay presents a fresh perspective not only on how to counsel but also on what measures to take at what stages of counseling. While touching on many aspects of counseling, *How to Help People Change* is specifically designed to elucidate the process of counseling. *How People Change Facilitator's Guide* Timothy S. Lane, Paul David Tripp, David Powlison, 2010-10-31 The *How People Change Facilitator's Guide* challenges and equips participants to live out the gospel in their everyday lives. This course helps people to understand the underlying motivations for their actions and gives them specific practical help in changing long-standing patterns of behavior so they grow in love for God and others.
