**Helping Children Cope with Disasters and Terrorism** ,2009 School shootings Devastating earthquakes Severe floods Deadly motor vehicle crashes Terrorist attacks Many communities and individuals endure these and other extraordinary experiences so horrifying in their effects that we call them disasters Furthermore the events of September 11 2001 highlighted the realities of terrorism for most Americans and underscored the importance of understanding how children and adolescents react to disasters and terrorism The publication of this volume is especially timely given that the tragedies of September 2001 and subsequent events are still too recent to have yielded an empirical perspective on their impact on children adolescents and families This volume reviews the current state of knowledge regarding children s reactions to disaster and terrorism and provides the background and conceptualization needed for framing mental health interventions and future research efforts This volume has two purposes The first is to provide a systematic review of children s and adolescents reactions to specific disasters and the factors that contribute to those reactions The second is to review the current state of interventions that have been developed to address children s and adolescents mental health needs following disasters PsycINFO Database Record c 2004 APA all rights reserved [Handbook of Evidence-Based Therapies for Children and Adolescents](#) Ric G. Steele,T. David Elkin,Michael C. Roberts,2007-12-03 Growing numbers of young people some 10% to 20% of school age populations have mental health problems requiring intervention and current policy initiatives identify evidence based therapies as the most effective and relevant forms of treatment By reviewing evidence based treatments EBTs across a wide spectrum of conditions the Handbook of Evidence Based Therapies for Children and Adolescents Bridging Science and Practice closes the gaps between children s needs and services as well as those between research training and practice Several EBT options both proved and promising are offered for each covered disorder and are bolstered by case examples tables and reference lists Features include chapters on implementation issues such as diversity family treatment assessment strategies and community settings and step by step guidance for the researcher looking to gather empirical support for therapies With comprehensive coverage provided by numerous leading experts in the field this volume covers the broadest range of disorders over the widest pediatric adolescent age range including Behavioral disorders ADHD aggression bullying Phobias panic disorders school refusal and anxiety Autism and pervasive developmental disorders Depression mood disorders and suicidal behavior Alcohol and drug abuse Eating disorders and obesity PTSD With its emphasis on flexibility and attention to emerging issues the Handbook of Evidence Based Therapies for Children and Adolescents is essential reading for anyone who works to address the mental health needs of children including clinical child school and counseling psychologists clinical social workers and child psychiatrists as well as advanced graduate level studentsin these and other related fields , *Children, Law, and Disasters* ,2009 *Methods for Disaster Mental Health Research* Fran H.
