Henry Adams George Hochfield, 1958 **Performing Identities and Utopias of Belonging** Teresa Botelho, Iolanda Ramos, 2014-07-08 Performing Identities and Utopias of Belonging consists of sixteen essays reflecting the current conflicted debate on the ontology constructiveness and affect of categories of ascribed social identity such as gender ethnicity race and nation in the context of British Irish and North American cultural landscapes They address the many ways in which these communities of belonging are imagined iterated performed questioned and deconstructed in literature cinema and visual culture they also support or counter claims about the enhanced value of social identity in the expression of the self in the light of the present debates that surround the contested post identity turn in cultural studies Significantly they also address the role of social identity in the field of utopian and dystopian thought focusing on the projection of imagined futures where alternative means of conceiving ascribed identity are conceptualized The contributions are shaped by a plurality of approaches and theoretical discourses and come from both established and emerging scholars and researchers from Europe and beyond The collection is structured in three sections the politics of un belonging deconstructing utopian and cultural paradigms and performing identities in the visual arts which organize the multidisciplinary discussions around specific nuclei of interrogations *Memory and Myth* David B. Kittrell Rushing, Roy Morris, 2007 Ain t nobody clean Glory and the politics of black agency W Scott Poole Alex Haley s Roots the fiction of fact William E Huntzicker A voice of the south the transformation of Shelby Foote David W Bulla **Encyclopedia of the American Novel** Abby H. Werlock, 2015-04-22 Praise for the print edition no other reference work on American fiction brings together such an array of authors and texts as this *Reader's Guide to American History* Peter J. Callow, Robert J. Reilly, 1977 *The Lost Soul of American Politics* John P.

Diggins,1986-08-15 The Lost Soul of American Politics is a provocative new interpretation of American political thought from the Founding Fathers to the Neo Conservatives Reassessing the motives and intentions of such great political thinkers as Madison Thoreau Lincoln and Emerson John P Diggins shows how these men struggled to create an alliance between the politics of self interest and a religious sense of moral responsibility a tension that still troubles us today Sacred Estrangement Peter A. Dorsey,1993-07-12 Sacred Estrangement analyzes certain works by important American writers and thinkers in the context of the rhetoric of conversion Such analysis is especially valuable because it provides a reliable index of the relationship between the self and larger communities Traditionally conversion has served a socializing function signifying that one has come into alignment with certain linguistic behavioral and cultural expectations The socialization process is particularly apparent in the Christian conversion narratives of the seventeenth through nineteenth centuries by publicly testifying to a conversion experience believers became empowered members not only of God s elect community but also of a local population As modern autobiography developed in the eighteenth and nineteenth centuries the Christian pattern was secularized and individualized Conversion became a model for many kinds of psychological change With the coming of the twentieth century however the authors upon whom Peter Dorsey focuses including William and Henry James Henry Adams Edith Wharton Ellen Glasgow Zora Neale Hurston and Richard Wright radically revised conversion rhetoric If conversion had traditionally linked the search for illumination with the search for a defined social role these writers increasingly used conversion as an index of estrangement from mainstream America Dorsey documents this profound change in the way American intellectuals defined the self not in terms of personal orientation toward or away from a given community but as a resistance to such an orientation altogether as if social forces by their nature were a threat to personal identity

Concise Anthology of American Literature George L. McMichael,Frederick C. Crews,1993 This book contains selections from Volumes I and II of the Anthology of American Literature Seventh Edition Carefully selected works introduce readers to America s literary heritage from the colonial times of William Bradford and Anne Bradstreet to the contemporary era of Saul Bellow and Toni Morrison It provides a wealth of additional contextual information surrounding the readings as well as the authors themselves An expanded chronological chart and interaction time line help readers associate literary works with historical political technological and cultural developments Other coverage includes a continued emphasis on cultural plurality including the contributions to the American literary canon made by women and minority authors and a reflection of the changing nature of the canon of American Literature For anyone who likes to read the writings of American Literature and wants to understand the connection between those words and their place in American history

The Promise of Pragmatism John Patrick Diggins,1995-05-15 For much of our century pragmatism has enjoyed a charmed life holding the dominant point of view in American politics law education and social thought in general After suffering a brief eclipse in the post World War II period pragmatism has enjoyed a revival especially in literary theory and such areas as

poststructuralism and deconstruction In this sweeping critique of pragmatism and neopragmatism one of our leading intellectual historians traces the attempts of thinkers from William James to Richard Rorty to find a response to the crisis of modernism John Patrick Diggins analyzes the limitations of pragmatism from a historical perspective and dares to ask whether America's one original contribution to the world of philosophy has actually fulfilled its promise In the late nineteenth century intellectuals felt themselves in the grips of a spiritual crisis This confrontation with the acids of modernity eroded older faiths and led to a sense that life would continue in the awareness of absences knowledge without truth power without authority society without spirit self without identity politics without virtue existence without purpose history without meaning In Europe Friedrich Nietzsche and Max Weber faced a world in which God was dead and society was succumbing to structures of power and domination In America Henry Adams resigned from Harvard when he realized there were no truths to be taught and when he could only conclude Experience ceases to educate To the American philosophers of pragmatism it was experience that provided the basis on which new methods of knowing could replace older ideas of truth Diggins examines how in different ways William James Charles Peirce John Dewey George H Mead and Oliver Wendell Holmes Jr demonstrated that modernism posed no obstacle in fields such as science education religion law politics and diplomacy Diggins also examines the work of the neopragmatists Jurgen Habermas and Richard Rorty and their attempt to resolve the crisis of postmodernism Using one author to interrogate another Diggins brilliantly allows the ideas to speak to our conditions as well as theirs Did the older philosophers succeed in fulfilling the promises of pragmatism Can the neopragmatists write their way out of what they have thought themselves into And does America need philosophers to tell us that we do not need foundational truths when the Founders already told us that the Constitution would be a machine that would depend more upon the counterpoise of power than on the claims of knowledge Diggins addresses these and other essential questions in this magisterial account of twentieth century intellectual life It should be read by everyone concerned about the roots of postmodernism and its links to pragmatism and about the forms of thought and action available for confronting a world after postmodernism
