Skywoman Falling

A Closer Look into Kimmerer's Skywoman Falling

Skywoman Falling, a story from the book "Braiding Sweetgrass", by Robin Kimmerer, details the fall of a woman as she plummets down from what is known as the "Skyworld" into Earth's atmosphere, and eventually, the water. In this part of the text, the surrounding animals had tried to swim down to the bottom of the water to bring up mud which would be the basis of the "land" they would make across the large turtles back. However, only the small muskrat was able to obtain mud, but in doing so, he drowned and sacrificed his life for the Skywoman.

"He had given his life to aid this helpless human. But then the others noticed that his paw was tightly clenched and, when they opened it, there was a small handful of mud. Turtle said, "Here, put it on my back and I will hold it."

Skywoman bent and spread the mud with her hands across the shell of the turtle. Moved by the extraordinary gifts of the animals, she sang in thanksgiving and then began to dance, her feet caressing the earth. The land grew and grew as she danced her thanks, from the dab of mud on Turtle's back until the whole earth was made. Not by Skywoman alone, but from the alchemy of all the animals' gifts coupled with her deep gratitude. Together they formed what we know today as Turtle Island, our home" (Kimmerer, 4).

Notable Features

- From this passage, the first thing I noticed was the author's immense use of imagery as she describes the process of the animals building the land across the turtle's shell. From the beginning, as the author describes the muskrats "tightly clenched paw" it aids the reader in picturing the lifeless animal as it floats up to the top of the water. Despite the fact that bigger, stronger, more skilled animals had dove down before the muskrat and failed, he still attempted, and his contribution catapulted the beginning of the build across the shell.
- The other feature I noticed the author used throughout the whole story was the use of personification to personify the animal, and make the audience read the story as if every animal almost had a personality. When she described the muskrat after he drowned, and the turtle accepted his contribution, every character in the story was saddened by the loss

Williams, 2003 A compelling study of a best seller from the Middle Ages *The Mountainous West* William Wyckoff, Lary M. Dilsaver, 1995-01-01 Traditional interpretations of the American West have concentrated on the importance

of its aridity to the region's cultural evolution and development. But the West is marked by a second fact of physical geography that distinguished it from the experiences of settlers from the east. As pioneers struggled with the climate west of the hundredth meridian they were also confronted by mountains strewn across the region and offering their own set of limitations and opportunities. This volume focuses on these green islands of the Mountainous West that have witnessed patterns of settlement and development distinct from their lowland neighbors. In thirteen essays the contributors address the mountains by means of five themes: the mountains as barriers to movement; islands of moisture; a zone of concentrated resources; an area of government control; and a restorative sanctuary. The focus ranges from California's Sierra Nevada to the Rocky Mountains of Colorado, Utah, and Montana. William K. Wyckoff is an associate professor, Department of Earth Sciences, Montana State University. He is the author of *The Developer's Frontier: The Making of the Western New York Landscape* and of articles in many journals including *The California Geographer*, *Social Science Journal*, *Geographical Review*, and *Journal of Historical Geography*. Lary M. Dilsaver is a professor in the Department of Geology and Geography, University of South Alabama. The author, with William Tweed, of *Challenge of the Big Trees: A Resource History of Sequoia and Kings Canyon National Parks*, he has also written articles in journals such as *Geographical Review*, *Annals of Tourism Research*, and *Yearbook of the Association of Pacific Coast Geographers*.

Heidegger and Kabbalah Elliot R. Wolfson, 2019-10-01 While many scholars have noted Martin Heidegger's indebtedness to Christian mystical sources as well as his affinity with Taoism and Buddhism, Elliot R. Wolfson expands connections between Heidegger's thought and kabbalistic material. By arguing that the Jewish esoteric tradition impacted Heidegger, Wolfson presents an alternative way of understanding the history of Western philosophy. Wolfson's comparison between Heidegger and kabbalah sheds light on key concepts such as hermeneutics, temporality, language, and being, and nothingness, while yielding surprising reflections on their common philosophical ground. Given Heidegger's involvement with National Socialism and his use of antisemitic language, these innovative readings are all the more remarkable for their juxtaposition of incongruent fields of discourse. Wolfson's entanglement with Heidegger and kabbalah not only enhances understandings of both but more profoundly serves as an ethical corrective to their respective ethnocentrism and essentialism. Wolfson masterfully illustrates the redemptive capacity of thought to illuminate common ground in seemingly disparate philosophical traditions.

A Companion to Shakespeare's Sonnets Michael Schoenfeldt, 2010-03-08 This Companion represents the myriad ways of thinking about the remarkable achievement of Shakespeare's sonnets. An authoritative reference guide and extended introduction to Shakespeare's sonnets. Contains more than 20 newly commissioned essays by both established and younger scholars. Considers the form, sequence, content, literary context, editing, and printing of the sonnets. Shows how the sonnets provide a mirror in which cultures can read their own critical biases. Informed by the latest theoretical, cultural, and archival work.
