Interpreting Heritage Steve Slack, 2020-11-29 *Interpreting Heritage* is a practical book about the planning and delivery of interpretation that will give anyone working in the heritage sector the confidence and tools they need to undertake interpretation. Steve Slack suggests a broad formula for how interpretation can be planned and executed and describes some of the most popular and potentially challenging or provocative forms of interpretation. Slack also provides practical guidance about how to deliver different forms of interpretation while avoiding potential pitfalls. Exploring some of the ethical questions that arise when presenting information to the public and offering a grounding in some of the theory that underpins interpretive work, the book will be suitable for those who are completely new to interpretation. Those who already have some experience will benefit from tools, advice, and ideas to help build on their existing practice. Drawing upon the author's professional experiences of working within and for the heritage sector, *Interpreting Heritage* provides advice and suggestions that will be essential for practitioners working in museums, art galleries, libraries, archives, outdoor sites, science centres, castles, stately homes, and other heritage venues around the world. It will also be of interest to students of museum and heritage studies who want to know more about how heritage interpretation works in practice.

Tourism, Heritage and National Culture in Java Heidi Dahles, 2013-10-11 Based on anthropological fieldwork in the 1990s, this book provides an ethnographic perspective in its examination of the politics and policies of cultural tourism as they were played out under the Indonesian New Order regime. The successful New Order tourism policy ensured that tourism development both contributed to and benefited from increasing economic prosperity and a long stretch of political stability. However, that success has come at a price: the policy to encourage mainly high quality tourism revolved around carefully constructed and controlled tourist experiences that have led to local inequalities. The failure of this policy is analysed in a detailed case study of the city of Yogyakarta.
