Catalog of Copyright Entries. Third Series Library of Congress. Copyright Office, 1974 **Books and Pamphlets, Including Serials and Contributions to Periodicals** Library of Congress. Copyright Office, 1974 *Reinterpreting the Political* Lenore Langsdorf, Stephen H. Watson, Karen A. Smith, 1998-07-10 The task of reinterpretation arises from recognition within continental philosophy of a certain abandonment of political philosophy for historicism or a scientistic search for laws Contemporary debate over the death of the possibility of the subject now focuses on the links among knowledge virtue and power As a result the ancient problem of the institution of the form of the political becomes linked with struggles intrinsic to the task of representation and recognition The problem now becomes one of understanding the meaning of judgment autonomy and consensus in the midst of the fragmentation of the hierarchies that structure the political and have structured the thinking from Plato to Hegel that we identify as metaphysical Such fragmentation doubtless is the ancient inheritance of democracy but now without the metaphysical assurance of a transcendental authority whether resident in nature community or the monarch as embodiment of the sacred Perhaps it is in Foucault's work more than anywhere else that the investigation of the complicated modern interface between truth and power and institution and liberation occurs In reinterpreting the political recognition of ideological forces in the legacy of modernity in its theoretical and institutional forms cannot be escaped particularly in recognizing the underdetermined character of the subject matter This collection represents rich examples of such reinterpretations It begins with rereading the classical figures in continental thought and then takes up current topics in the legacy of political theory The final section provides analyses and evaluations of Foucault's work *Library of Congress Catalogs* Library of Congress, 1983 **Catalogue of Title-entries of Books and Other Articles Entered in the Office of the Librarian of Congress, at Washington, Under the Copyright Law ... Hermes II Michel Serres, 2025-05-13 Unveiling the hidden connections in the network of knowledge *Hermes II* Interference is the second in a series of works by philosopher Michel Serres using Hermes god of communication as an archetypal symbolic figure for reflecting on philosophy and the arts and sciences Serres delves into the concept of interreferentiality proposing that every node whether it be knowledge objects or people exists within a network where it both receives and transmits information He argues against the existence of a dominant center or pole within these networks emphasizing that each node can temporarily serve as a focal point depending on context Serres presents unique insights into topics such as the nature of knowledge the world of objects intersubjectivity the origins of geometry the interplay of music and background noise and empiricism By identifying parallel structures across these areas Serres unifies them into a comprehensive theoretical framework revealing hidden connections and potential future influences Additionally this work

includes a critique of Gaston Bachelard's *The Formation of the Scientific Mind* and concludes with an analysis of communication in Herg's *The Castafiore Emerald*. *Hermes II* is a unique blend of ancient and modern perspectives combining rigorous analysis with an optimistic outlook. It will appeal to anyone interested in the interconnectedness of knowledge and its implications for fostering peaceful relations within the network of life.
