Himalayas to the Scottish Highlands from Ikere in Nigeria to Devil's Tower in the United States from Uluru in Australia to the most northern mountain of the Arctic the shapes of the world speak the same language and tell the world its own story This interdisciplinary book weaving together mountaineering literature philosophy painting cinema ecology history palaeontology geography geopolitics toponymy law religion and myth invites people to an innovative reading of mountains it reveals the close relationship existing between the shapes of the world and all forms of writing and at the same time it shows how the representations of the imagination may be instrumental in protecting the natural world The story told by the landscape inscribes a broken line in the shapes of the world tearing the landscape like a fragile page whenever historical and political events wars mining or deforestation leave scars in the landscape but writers and artists representations of mountains constitute a path to awareness as they are not only a painting of beauty but an image of our link to nature and a warning as well For centuries the image of the mountain has conveyed a symbolism telling the story of human thought and this book shows to what extent literature and art play an essential part in our awareness of nature *Speak Ericksonian*

Robert Eidelberg, 2021-05-25 The information about the book is not available as of this time **The Persian Alexander**, 2017-10-27 Alexander the Great 356-333 BC was to capture the imagination of his contemporaries and future generations His image abounds in various cultures and literatures Eastern and Western and spread around the globe through oral and literary media at an astonishing rate during late antiquity and the early Islamic period The first Iskandarnama or The Book of Alexander now held in a private collection in Tehran is the oldest prose version of the Alexander romance in the Persian tradition Thought to have been written at some point between the eleventh and fourteenth centuries by an unknown author the lively narrative recasts Alexander as Iskandar a Muslim champion a king and prophet albeit flawed but heroic and remarkably appropriated to Islam though the historic Alexander lived and died some 1 000 years before the birth of the faith This new English translation of the under studied text is the first to be presented unabridged and sheds fresh light onto the shape and structure of this vital document In so doing it invites a reconsideration of the transformation of a Western historical figure and one time mortal enemy of Persia into a legendary hero adopted by Iranian historiographic myth making Evangelos Venetis the translator also offers a textual analysis providing much needed context and explanations on both

content and subsequent reception This landmark publication will be invaluable to students and scholars of classical Persian literature ancient and medieval history and Middle East studies as well as to anyone studying the Alexander tradition
