The Hero's Quest and the Cycles of Nature Rachel S. McCoppin, 2016-10-25 This examination of the heroic journey in world mythology casts the protagonist as a personification of nature, a botanical hero, one might say, who begins the quest in a metaphorical seed-like state, then sprouts into a period of verdant strength. But the hero must face a mythic underworld where he or she contends with mortality and sacrifice, embracing death as a part of life. For centuries, humans have sought superiority over nature, yet the botanical hero finds nothing is lost by recognizing that one is merely a part of nature. Instead, a cyclical promise of continuous life is realized in which no element fully disappears, and the hero's message is not to dwell on death.
