Heroin In Australia:

Shooting Up Simon Davies, 1986 Shooting Up is the most comprehensive book yet written on heroin use in Australia It traces the history of heroin and carefully analyses its present use From synopsis Epidemiologic Trends in Drug Abuse National Institute on Drug Abuse. Community Epidemiology Work Group, 1997 *Epidemiologic Trends in Drug Abuse* National Institute on Drug Abuse. International Epidemiology Work Group on Drug Abuse, 1998 *Proceedings* International Epidemiology Work Group on Drug Abuse. Meeting, 1997 **Drug Abuse: Prevention and Treatment** Mangai Natarajan, 2017-05-15 Ever since the Shanghai convention in 1909 the threat posed to human well being by drug abuse has led countries around the world to take action to deal with their drug problems There are wide variations in the policies pursued but most countries try to reduce both the supply of and the demand for drugs Unfortunately there is little research consensus on the respective merits of these two approaches or about the best ways to pursue them Consequently control and prevention policies are mostly driven by political considerations economic realities and cultural expectations though research has played an important part in formulating and evaluating treatments for drug addiction This volume reviews studies on drug abuse prevention and treatment strategies under five main areas 1 Reducing supply strategies to control the flow of drugs from production to retail distribution 2 Reducing demand prevention of drug use at all stages of involvement and consumption levels 3 Reducing harm promoting situational risk reduction practices for regular users addicts and recreational users 4 Reducing addiction drug treatment options for various groups in various settings and 5 Drug policies and prescriptions focused on debates about prohibition and legalization Organized Crime Frank Shanty, Patit Paban Mishra, 2007-09-24 This fascinating work is a two volume guide to the shadow world the critical issues and the global reach of organized crime Despite its impact on international security and the world economy organized crime is an unusual topic for a reference book Difficult to research the high profit high risk subculture of drug lords diamond smugglers and sex slavers is rarely investigated by scholars Organized Crime An International Encyclopedia ventures behind the scenes into this hazardous territory In the first volume expert contributors offer a global perspective on issues such as weapons and arms trafficking high tech and cyber crimes the future of organized crime and the connection between organized crime and armed conflicts The second volume consists entirely of primary documents national and international laws and treaties that reflect the international community's many attempts largely ineffective to combat organized crime Together the two volumes provide students and general readers with a road map to a shadow world with far reaching impact on the world we know *Epidemiologic Trends in Drug Abuse* National Institute on Drug Abuse. Community Epidemiology Work Group. Meeting, 1996 Mortality amongst Illicit Drug Users Shane Darke, Louisa Degenhardt, Richard Mattick, 2006-09-21 Over the past 40 years the rate of illicit drug use worldwide has risen dramatically and with it the number of deaths reported among drug using populations What are the clinical ethical and psychopathological implications of these deaths In this book Shane

Darke and his team provide the first full synthetic review of the epidemiology causes prevalence demography and associated risk factors of illicit drug related mortality In addition they examine and evaluate interventions to reduce these deaths The major causes of death among illicit drug users are overdose disease suicide and trauma Each is independently examined This is an important book for all clinicians and policy makers involved in issues relating to illicit drug use *The Medical Journal of Australia* ,1956 **International Narcotics Control Strategy Report** ,2000 Illicit Drug Policies, Trafficking, and Use the World Over Caterina Gouvis Roman,Heather Ahn-Redding,Rita J. Community Epidemiology Work Group. Meeting,1997 *Drugs And Democracy* Geoffrey Stokes,Peter Chalk,Karen Gillen,2016-10-18 In 1988 the United States Congress passed laws declaring improbably that the USA would be drug free by 1995 In 1998 the United Nations General Assembly Special Session on Drugs committed itself to the implausible goal of eradicating the trade in heroin and cocaine within a decade at a time when global heroin production had trebled and global cocaine production had doubled Somewhere in Australia almost every year for the past quarter century there has been a royal commission or other major official inquiry into the illicit drug industry The Australian government spends millions of dollars on attempting to control the illicit drug trade Almost 85 per cent of these funds are allocated to law enforcement 5 per cent goes to treatment

and 10 per cent to prevention and research Meanwhile the drug industry in Australia grows bigger and richer every year and as a result our rates of addiction crime and death continue to rise *Drugs and Democracy* examines Australia's unsuccessful attempts to control the illicit drug industry and discusses how within the confines of our liberal democratic values and culture we could improve our strategies

Law and Order in Australia Donald James Weatherburn, 2004 How much crime is committed in Australia What sort of crime where and by whom What can we do to stop it This book deals in facts and dispels myths Don Weatherburn Director of the NSW Bureau of Crime Statistics and Research shows how policies are driven by the political need to manage public reactions not to control and prevent crime *Law and Order in Australia* informs public debate about crime in Australia by contrasting popular assumptions about crime and crime control with what is actually known to be true The opening chapter sets the scene by asking how serious Australia's crime problems are Weatherburn then offers a critique of the way Australian governments attempt to deal with Australia's crime problems This is followed by the foundations for a discussion of what actually works in crime prevention and control by highlighting some basic facts about crime and offenders The final chapters discuss what the evidence reveals about crime prevention and control and the key issues in crime prevention and control in Australia Weatherburn clearly provides numerous ideas for better policies ones that will actually work

The NNICC Report, 1987 *Chinese Criminal Entrepreneurs in Canada, Volume II* Alex Chung, 2019-03-09 This book explores how the new Asian criminal entrepreneurs in Canada known as The Big Circle Boys BCB competitively dominated the Canadian heroin market in the 1990s without a formal organisation or explicit hierarchical structure Drawing on the market resilience framework it examines how the BCB smuggled drugs by using social capital shared resources and trust effectively through their ethnicity How did they counter external security challenges and promote internal competitive cooperation Were they able to resolve disputes peacefully by managing internal relations These questions are answered through an analysis of their networking processes and illustrated in the structural properties and dynamics of their mono ethnic criminal network For the first time the BCB players that contributed to the 2001 Canadian and Australian heroin droughts are revealed through intercepted telephone calls and court testimonies It shows how the BCB collectively switched from heroin to ecstasy since the year 2000 The operation logistics of drug importation and local trafficking are scrutinised This book speaks to those interested in how a collective of ethnic Chinese career criminals succeeded and failed in the international drugs trade particularly for scholars and students of social sciences disciplines
