Scully, 2015-03-10 I designed this series of books to address some of the problems that our children face in today s difficult world after finding a lack of books while raising my son that taught any lessons or dealt with any of the pertinent issues that our children deal with growing up My hope is that this series will teach kids values and lessons in a way that they can relate to with a bit of humor and a good scary story This first book touches on a number of subjects including as the title suggests first impressions or judging people by their looks as well as teasing name calling friendship and the consequences of not following the rules Parents may wish to discuss these issues more in depth with your children perhaps including some of your own ideas or

morals in the conversation Hopefully by the end of each book the reader will walk away with the subtle teachings in mind to help see them through some of the difficult times faced by today's generation or at least give them something to think about that relates to their own individual lives *Toybox* Thirteen O'Clock Press,2015-08-26 The toybox awaits full of delights a variety of toys which in reality are killing machines Indulge in a gory read as Thirteen Press authors each choose one individual toy with which to cause mayhem and sometimes murder You won't look at toys the same way again *Live* Thomas DeLoach,2021-01-13 Complete and totally opposite strangers' paths collide and over the course of three months their lives are changed forever This is an entertaining and evolutionary book about a young male who purposely entraps himself into his schoolwork for fear of failure Efron is extremely intelligent but lacks people skills because he chooses not to use them Until his life suddenly collides with a bizarre character Jackson values relationships over success family over business and time over money Their story depicts how these things relationships family and time by default have lost their value in today's society without most realizing Jackson's goal is to awaken everyone he comes in contact with to the subtle changes that over time have caused significant impact to the community He does so in an unconventional way and believes with conviction within himself this is what he was born to do *Live* is full of comedy dance excitement romance and the greatest form of entertainment learning **Eyes Covered Up** Pamela Jane Strong,2009-11-21 An engrossing family saga that will take you on a nostalgic journey back to the not so distant past when family bonds and values are being challenged by the social problems and dilemmas common in the era Follow Bette and Theodore Hudson as they live out their lives portraying the strength and spirit of what a family is or should be Theirs is a life of love understanding and acceptance Enter the Morgans a family racked by storms and rifts in their personal lives They have learned to lean on each other but theirs is turbulent mixture of unsatisfied wants They are in for a turbulent ride when passionate desires and drugs enter the picture Would they end up as fulfilled as the Hudsons *A Girl Like Her* Bishop Bassey Effiong Orok,2012-01-12 Life is all about choices The ones you get to make and the ones you don't You can choose the friends you have and the people you want to employ You can choose your battles but you can't always choose your enemies You can choose your goals and your dreams although these things don't always choose you You can choose what you want to eat and where you want to shop There is however three choices you can't make You can't choose who you fall in love with or who falls in love with you You also can't choose your family How well do you know your closest friends or people you choose to have in your life Your lovers Your own family The people who claim to be your friends Even the people you've just met Would you do to them what they would try to do to you Would you try to take their boyfriends Or would you simply talk about them behind their back There's a token few who are loyal in that world What will your friends do for you when the chips are down This is where Lexi lives right in the middle of her chaotic events Everything that happens always begins with something she says knows or does often with disastrous results She sees everything through her purple tinted sunglasses What will happen when she loses the glasses and

starts seeing things for what they really are In a strangely humorous way live the ups and downs of her and her friends romances Will she choose the nice guy or the bad boy Will the nice guy become a jerk or will the bad boy become nice How do people react to situations they aren't used to being in Welcome to Lexis world Her life is sent through a wringer with Church Boy Blaine her rock star boyfriend Izzy a famous dad she didn't know she had and everyone else in her life People aren't ever what they seem to be Just look at the chapter titles That should be enough to want to know more I would call this tale a twisted dark romance with a keen sense of humor Something like a warped modern day Romeo and Juliet with all the modern problems Sorry no vampires here Once you start reading you probably won't even miss them There are plenty of bloodsuckers of a different kind Careful you might even learn something If nothing else you'll get sucked into these colorful and sometimes unlikable people's lives It's all about love and hate and the thin line in between If you're the least bit curious open it to any page and read You'll want to keep reading to find out what happens You'll get addicted you'll want more I hope
