Visual Communication Design Meredith Davis, Jamer Hunt, 2017-09-07 Where do design principles come from Are they abstract rules established by professionals or do they have roots in human experience And if we encounter these visual phenomena in our everyday lives how do designers use them to attract our attention orient our behavior and create compelling and memorable communication that stands out among the thousands of messages we confront each day Today's work in visual communication design shifts emphasis from simply designing objects to designing experiences to crafting form that
