most fundamental aspect of the development gap between the North and the South the technology gap As technological
innovation based on research and development is the engine which drives economic growth and most developing countries
are left out of research and development in high technology it is difficult to narrow the economic development gap thus
reducing poverty It is of paramount importance that this gap be narrowed if both environmental and international security is
to be increased This book emphasises the development of human resources in technology co development moving from
traditional to contemporary to futuristic concepts and makes a number of concrete recommendations which should be on the
