Due to its age, it may contain imperfections such as marks, notations, marginalia, and flawed pages. He draws on such sources as Civil War pension records to fashion a collective biography, a social history of both ordinary and notable lives, resurrecting the words and memories of many black veterans to provide an intimate view of their lives and struggles. BOOK JACKET Grand Army of the Republic, Department of Wisconsin Thomas J. McCrory, 2005 Lists posts, badges, and officers of Wisconsin Civil War veterans organizations. *Publications of the Illinois State Historical Library, Illinois State Historical Society*, 1900 **Five Black Preachers in Army Blue, 1884-1901** Alan K. Lamm, 1998 A study of African American chaplains from the end of the Civil War to the first decade of this century, focusing on five individual stories. Lamm's history, Mount Olive College, delineates the role of black chaplains within the institutional context of the US Army at a time he considers to be the nadir of the black experience in America when the hope engendered by the end of slavery had been dimmed with the introduction of rigorous segregation in the South and the legal recognition of the system by the Supreme Court in 1896. He begins with a chapter that explores the religious heritage of black Americans and African American Christianity before examining the five cases. Annotation copyrighted by Book News, Inc., Portland, OR. *The Fabric of Civil War Society* Shae Smith Cox, 2024-02-21 Military uniforms, badges, flags, and other material objects have been used to represent the identity of Americans throughout history. In *The Fabric of Civil War Society*, Shae Smith Cox examines the material culture of America's bloodiest conflict, offering a deeper understanding of the war and its commemoration. Cox's analysis traces the influence of sewn materials throughout the Civil War and Reconstruction as markers of power and authority for both the Union and the Confederacy. These textiles became cherished objects by the turn of the century, a transition seen in veterans replacing wartime uniforms with new commemorative attire and repatriating Confederate battle flags. Looking specifically at the creation of material culture by various commemoration groups, including the Grand Army of the Republic, the Woman's Relief Corps, the United Confederate Veterans, and the United Daughters of the Confederacy, Cox reveals the ways that American society largely accepted their messages, furthering the mission of their memory work. Through the lens of material culture, Cox sheds new

light on a variety of Civil War topics including preparation for war nuances in relationships between Native American and African American soldiers the roles of women and the rise of postwar memorial societies

Making and Remaking Pennsylvania's Civil War William Alan Blair, William Pencak, 2001

For many people Pennsylvania's contribution to the Civil War goes little beyond the battle of Gettysburg The North in general has received far less attention than the Confederacy in the historiography of the Civil War a weakness in the literature that this book will help to address The essays in this volume suggest a few ways to reconsider the impact of the Civil War on Pennsylvania and the way its memory remains alive even today Making and Remaking Pennsylvania's Civil War contains a wealth of new information about Pennsylvania during the war years For instance perhaps as many as 2 000 Pennsylvanians defected to the Confederacy to fight for the Southern cause And during the advance of Lee's army in 1863 residents of the Gettysburg area gained a reputation throughout North and South as a stingy people who wanted to make money from the war rather than sacrifice for the Union But the state displayed loyalty as well and commitment to the cause of freedom Pittsburgh served as the site for one of the first public monuments in the country dedicated to African Americans Women of the Commonwealth also contributed mightily through organizing sanitary fairs or helping in ways that belied their roles as keepers of the domestic world And readers will learn from an African American soldier's letters how blacks helped win their own liberation As a whole the ten essays contained in Making and Remaking Pennsylvania's Civil War include courage on the battlefield but reflect the current trends to understand the motivations of soldiers and the impact of war on civilians rather than focusing solely on battles or leadership The essays also employ interdisciplinary techniques as well as raise gender and racial questions They incorporate a more expansive time frame than the four years of the conflict by looking at not only the making of the war but also its remaking or how a public revisits the past to suit contemporary needs
