

HENRY VIII

ASCENSION

Henry VIII's ascension was the first peaceful one England had witnessed in many years. As the second son of Henry VII, Henry was educated for an important role in the Church, and he received a superior education from the most illustrious tutors of that time. Henry enjoyed a quiet childhood, what changed after his brother Arthur died in 1502, leaving the eighteen-year-old Henry as the heir to the throne. Because of his young age and, unlike his father, his lack of interest in policy, he preferred to leave government affairs in the hands of his ministers. This led to an increasing influence of Thomas Wolsey, who concentrated a great deal of the power delegated by the king.

PERSONAL CHARACTER

Henry VIII was very popular, and high expectancies were upon him. He was tall, athletic and regularly engaged in dancing, jousting and wrestling.

Due to an accident with a horse during a tournament, he was deprived of his ability to take exercise and he experienced a marked change in personality. The final years of his reign witnessed Henry VIII's physical decline and an increasing desire to appear all-powerful.

RELIGION

Henry VIII preferred to leave much of his responsibilities as a monarch, in the hand of his ministers. He particularly relied in **Thomas Wolsey** who managed most of the domestic affairs until 1529 when his fall as an influential person began. He ruled the Church of England in a despotic way, concentrating much of the power in his own hands, what prevented him from being an effective reformer. Wolsey's corrupt performance as a public man weakened the Roman Church in England, fact that helped develop the Protestantism.

The issue that dominated the central years of Henry VIII's reign and would become one of his most important legacies, started in 1525, with a young lady
