Henry Williamson The Man The Writings A Symposium:

The Cambridge Companion to Ted Hughes Terry Gifford, 2011-06-30 Explores the life work and literary significance of the late Poet Laureate **Henry Williamson** Henry Williamson, 1980 *In Praise of Devon* John Lane, 1998 In Praise of Devon is an evocation of the unique character of the county and its people John Lane eloquently describes Devon s rivers coastline and moors its towns villages and buildings its beautiful images and objects traditions and occupations from Dartmoor to Devonshire dialect Church Bells to Cream Teas Honiton Lace to Holy Wells and gives intimate sketches of the lives and values of twenty Devonians including farmers a trawlerman a doctor a cook the sculptor Peter Randall Page potter Clive Bowen and scientist James Lovelock The text is complemented by 140 colour plates photographs engravings and old master paintings of the Devon countryside **In the Highest Degree Odious** Alfred William Brian Simpson, 1994 During the Second World War just under 2000 British citizens were detained without charge trial or term set under Regulation 18B of the wartime Defence Regulations This book provides a comprehensive study of Regulation 18B and its precursor in the First World War Regulation 14B Modernity and the English Rural Novel Dominic Head, 2017-04-07 This book examines the persistence of the rural tradition in the English novel into the twentieth century In the shadow of metropolitan literary culture rural writing can seem to strive for a fantasy version of England with no compelling social or historical relevance Dominic Head argues that the apparent disconnection is in itself a response to modernity rather than a refusal to engage with it and that the important writers in this tradition have had a significant bearing on the trajectory of English cultural life through the twentieth century At the heart of the discussion is the English rural regional novel of the 1920s and 1930s which reveals significant points of overlap with mainstream literary culture and the legacies of modernism Rural writers refashioned the conventions of the tradition and the effects of literary nostalgia to produce the swansong of a fading genre with resonances that are still relevant today *The Durham University Journal* University of Durham, 1986 **The Art of Travel** Philip Dodds, 2013-08-21 First published in 1982 The Art of Travel is the first collection of critical essays to be devoted to British travel writing It attempts to give a sense of the wealth of such writing to map some of its forms and conventions and implicitly to claim a place for travel writing in any revised definition of literature For this collection travel includes sea voyages European tours commissioned enquiries into social conditions and urban writing travel writing ranges from works such as *Sea and Sardinia* by D H Lawrence whose status as a novelist guarantees his travel books some attention through the essays and books of Victorian middle class travellers into working class London to the work of V S Naipaul a contemporary writer who has increasingly preferred the travel book to the novel **On a Farther Shore** William Souder, 2013-09-03 A New York Times Notable Book of 2012 Rachel Carson loved the ocean and wrote three books about its mysteries But it was with her fourth book *Silent Spring* that this unassuming biologist transformed our relationship with the natural world *Silent Spring* was a chilling indictment of DDT and other pesticides that until then had been hailed as safe and

wondrously effective It was Carson who sifted through all the evidence documenting with alarming clarity the collateral damage to fish birds and other wildlife revealing the effects of these new chemicals to be lasting widespread and lethal Silent Spring shocked the public and forced the government to take action despite a withering attack on Carson from the chemicals industry It awakened the world to the heedless contamination of the environment and eventually led to the establishment of the EPA and to the banning of DDT By drawing frightening parallels between dangerous chemicals and the then pervasive fallout from nuclear testing Carson opened a fault line between the gentle ideal of conservation and the more urgent new concept of environmentalism Elegantly written and meticulously researched On a Farther Shore reveals a shy yet passionate woman more at home in the natural world than in the literary one that embraced her William Souder also writes sensitively of Carson's romantic friendship with Dorothy Freeman and of Carson's death from cancer in 1964 This extraordinary new biography captures the essence of one of the great reformers of the twentieth century

Anthropocene Poetry Yvonne Reddick, 2023-11-03 Anthropocene Poetry Place Environment and Planet argues that the idea of the Anthropocene is inspiring new possibilities for poetry It can also change the way we read and interpret poems If environmental poetry was once viewed as linked to place this book shows how poets are now grappling with environmental issues from the local to the planetary climate change and the extinction crisis nuclear weapons and waste plastic pollution and the petroleum industry This book intervenes in debates about culture and science traditional poetic form and experimental ecopoetics to show how poets are collaborating with environmental scientists and joining environmental activist movements to respond to this time of crisis From the canonical work of Ted Hughes and Seamus Heaney to award winning poets Alice Oswald Pascale Petit Kei Miller and Karen McCarthy Woolf this book explores major figures from the past alongside acclaimed contemporary voices It reveals Seamus Heaney's support for conservation causes and Ted Hughes's astonishingly forward thinking research on climate change it discusses how Pascale Petit has given poetry to Extinction Rebellion and how Karen McCarthy Woolf set sail with scientists to write about plastic pollution This book deploys research on five poetry archives in the UK USA and Ireland and the author's insider insights into the commissioning processes and collaborative methods that shaped important contemporary poetry publications Anthropocene Poetry finds that environmental poetry is flourishing in the face of ecological devastation Such poetry speaks of the anxieties and dilemmas of our age and searches for paths towards resilience and resistance

Misreading England Raphaël Ingelbien, 2021-11-01 In *Misreading England* Poetry and Nationhood Since the Second World War Raphaël Ingelbien examines how issues of nationhood have affected the works and the reception of several English and Irish poets Philip Larkin Ted Hughes Geoffrey Hill and Seamus Heaney This study explores the interactions between post war English poets and the ways in which they transformed or misread earlier poetic visions of England Romantic Georgian Modernist It also traces often neglected but crucial links between their troubled poetics of Englishness and Seamus Heaney's poetry of Irish nationhood This radically intertextual approach takes issue with influential accounts of

post war poetry that have drawn on postcolonialism Instead of being made to reflect contemporary agendas the poetics of nationhood are here considered in all their textual and ideological complexity and restored to the historical intellectual and literary contexts which postcolonial emphases on identity often play down or simplify Whereas critics in post devolution Britain increasingly use texts to debunk or promote specific versions of national identity this study interrogates the very terms in which the debate has been conducted Its metacritical analyses expose the contradictions of identity politics and its intertextual readings help re draw the map of post war poetry in Britain and Ireland
