Chiappetta Jr., 2012-11-27 The corrections employee who inspired me to design this book knew what most of you reading this already know that the only hope that more than 90 percent of incarcerated inmates nationwide have for not returning to prison is steady employment There are numerous books on this subject already and most of them say the same things It's also fair to say that most are accurate This course doesn't try to reinvent the wheel so to speak but instead gives a step by step guide for preparing and facilitating a prerelease employability class in a corrections environment Prison inmates are for the most part challenged with a wide variety of social dysfunctions Educational backgrounds vary as well It is critical to make the prerelease employability class both user friendly and student specific for the challenges presented by the prison itself Ultimately it's up to an individual whether or not he or she chooses to succeed or improve the quality of their life The key is to make this goal in life attainable and realistic to the students thus encouraging them to make that choice Remember that even the best plans in the world are nothing without good people to carry them out If you're planning to teach or assist in a corrections prerelease employability course you must understand and believe in its benefits Not only believe but also participate by sharing your own personal experiences and opinions to the extent that policy allows Only by interacting with the class on a more personal level will you get the respect and trust of your students By operating in this capacity you

become as important an asset to the course as the written material itself The results of your efforts will be reflected in the future success stories from your students

Library of Congress Subject Headings Library of Congress, Library of Congress. Subject Cataloging Division, Library of Congress. Office for Subject Cataloging Policy, 2013 Lost in the Here Melinda Dame Wilferth, 2008-05-21 On Easter Sunday 2003 John Wilferth a dynamic thirty seven year old financial advisor experienced a devastating status epilepticus seizure for over five hours Two days later he woke to find himself with a rare cognitive disorder partial long term memory loss combined with severe impairment of his short term memory function Not only had much of John's past disappeared the way in which he experienced the present had changed radically What is it like when you cannot remember what happened an hour or even five minutes ago How do you work How do you plan your life How do you even go shopping hold a conversation or take a simple walk without getting lost John's seizure left him able to function intelligently in the moment with his personality intact But his inability to remember made it extremely difficult to perform countless ordinary tasks His condition

also profoundly challenged his sense of identity as it left him feeling stranded in the moment lost in the here with only weak and perpetually disappearing ties to the immediate past Lost in the Here by John's wife Melinda chronicles the Wilferth's life for two years following the status seizure as they face a multitude of extraordinary trials Readers first meet John and Melinda within a gripping account of the status episode After learning important details about the couple's prior life together they accompany the Wilferth's through many remarkable incidents variously horrifying uplifting or humorous as the family deals with the ramifications of John's condition and he courageously attempts to re-enter mainstream society In time readers follow John to Germany where he steps dangerously far out on one of medicine's sharpest and most controversial cutting edges by undergoing stem cell injections to treat both his epilepsy and his memory dysfunction Afterward they return home with him to witness increasingly telling occurrences that strongly suggest improvement in his memory function These incidents culminate with John working through the night to perform an exceptional cognitive feat composing an important letter embodying a complex legal argument that requires both long and short term memory The next morning in a jubilant scene John makes copies of the letter and staples them on doors and walls of the Wilferth's home out of pride for his achievement and to insure that he does not forget what he accomplished the night before Though this event marks the limit of John's physiological recovery to date he has recently developed new methods to compensate for his cognitive impairment thereby achieving much greater autonomy These methods and how they help him to achieve greater autonomy are explained in the final chapter where his new found independence is reflected by several heartening incidents in which he ventures out into the wider world on his own The book ends triumphantly in a funny and wonderful occurrence that demonstrates how unstoppable John is and enables the reader to more fully understand how the Wilferth's love faith and moxie will continue to sustain them

Downhill from Here Katherine S. Newman, 2025-06-25 A sharp examination of the looming financial catastrophe of retirement in America As millions of Baby Boomers reach their golden years the state of retirement in America is little short of a disaster Nearly half the households with people aged 55 and older have no retirement savings at all The real estate crash wiped out much of the home equity that millions were counting on to

support their retirement And the typical Social Security check covers less than 40% of pre retirement wages a number projected to drop to under 28% within two decades Old age poverty a problem we thought was solved by the New Deal is poised for a resurgence With dramatic statistics and vivid portraits acclaimed sociologist Katherine S Newman shows that the American retirement crisis touches us all cutting across class lines and generational divides White collar managers have seen retirement benefits vanish Teamsters have had their pensions cut in half bankrupt cities like Detroit have walked away from their commitments to municipal workers And for Generation X the prospects are even worse a fifth of them expect to never be able to retire Only the vaunted one percent can face retirement without fear Other countries are confronting similar demographic challenges yet they have not abandoned their social contract with seniors Downhill From Here makes it clear that America too can and must do better
