## Herodotean Narrative And Discourse:

**Herodotean Narrative and Discourse** Mabel L. Lang, 1984 Mabel Lang offers a new interpretation of Herodotus Her reading of the Father of History pinpoints the aspects of his style that clearly derive from oral composition Lang examines oral techniques in storytelling known from folktales and other oral literature as well as from Homer She shows how the dramatic use of speeches so characteristic of folk literature played an important part in Herodotus development of history out of the chronologies and geographies that he knew Story form and speeches attributed to historical persons she demonstrates follow traditional formulas She also studies in detail Herodotus distinctive use of proverbs and rhetorical questions Throughout Lang draws on a variety of materials and offers particularly revealing comparisons of Homeric and Herodotean styles This analysis of the evidence for oral composition in Herodotus Histories opens a new perspective for students and scholars of Greek history Greek Historians John Marincola, 2001-12-13 This survey of more recent work on Herodotus Thucydides and Polybius synthesises some of the most important research from the last few decades *Greek Literature in the Classical Period: The Prose of Historiography and Oratory* Gregory Nagy, 2014-07-16 This volume is available on its own or as part of the seven volume set Greek Literature This collection reprints in facsimile the most influential scholarship published in this field during the twentieth century For a complete list of the volume titles in this set see the listing for Greek Literature ISBN 0 8153 3681 0 A full table of contents can be obtained by email reference routledge ny com *Time in Ancient Greek Literature* Irene J. F. De Jong, René Nünlist, 2007 This is the second volume of a new narratological history of Ancient Greek literature which deals with aspects of time the order in which events are narrated the amount of time devoted to the narration and the number of times they are presented **Kinesis** Christina Clark, Edith Foster, Judith P. Hallett, 2015-08-20 Kinesis The Ancient Depiction of Gesture Motion and Emotion analyzes the depiction of emotions gestures and nonverbal behaviors in ancient Greek and Roman texts and considers the precise language depicting them Individual contributors examine genres ranging from historiography and epic to tragedy philosophy and vase decoration They explore evidence as disparate as Pliny's depiction of animal emotions Plato's presentation of Aristophanes' hiccups and Thucydides' use of verb tenses Sophocles' deployment of silence is considered as are Lucan's depiction of death and the speaking objects of the medieval Alexander Romance Ancient authors' depictions of emotion gesture and nonverbal behavior are intrinsically relevant to psychological social and anthropological studies of the ancient world and are perhaps even more important to those who study the texts themselves and try to understand them The volume will be relevant to scholars studying Greek and Roman society and literature as well as to those who study the imitation of ancient literature in later societies Since jargon is avoided and all passages in ancient languages are translated the volume will be suitable for students from the upper undergraduate level Contributors in addition to the volume editors include Jeffrey Rusten Rosaria Vignolo Munson Hans Peter Stahl Carolyn Dewald Rachel Kitzinger Deborah Boedeker Daniel P. Tompkins John Marincola

**Herodotus: Histories Book IX** Herodotus, 2002-12-05 Book IX of Herodotus Histories provides the conclusion and climax to his work as the victories at Plataea and Mycale complete the improbable Greek victory over Persia. The major themes of the work are all here echoed, modified and revisited and Book IX is thus essential for exploring its meaning or range of possible meanings. This commentary, the first in English devoted solely to Book IX in over a century, treats Herodotus' work as both an historical narrative and a work of literature incorporating the results of recent scholarly work in the fields of Greek history and historiography. It contains a Greek text together with detailed philological, literary and historical notes designed to assist the intermediate and advanced Greek student. It will also be of use to graduate students and scholars.

**Digressions in Classical Historiography** Mario Baumann, Vasileios Liotsakis, 2024-04-01 Although digressive discourse constitutes a key feature of Greco-Roman historiography, we possess no collective volume on the matter. The chapters of this book fill this gap by offering an overall view of the use of digressions in Greco-Roman historical prose from its beginning in the 5th century BCE up to the Imperial Era. Ancient historiographers traditionally took as digressions the cases in which they interrupted their focused chronological narration. Such cases include lengthy geographical descriptions, prolepses or analepses and authorial comments. Ancient historiographers rarely deign to interrupt their narration's main storyline with excursuses which are flagrantly disconnected from it. Instead, they often coat their digressions with distinctive patterns of their own thinking, thus rendering them ideological and thematic milestones within an entire work. Furthermore, digressions may constitute pivotal points in the very structure of ancient historical narratives while ancient historians also use excursuses to establish a dialogue with their readers and to activate them in various ways. All these aspects of digressions in Greco-Roman historiography are studied in detail in the chapters of this volume.

**Thucydides Between History and Literature** Antonis Tsakmakis, Melina Tamiolaki, 2013-03-01 This volume brings together scholars from various areas: history, philology, linguistics, history of political ideas and attempts a fresh survey of current trends in the analysis of Thucydides' historical narrative. Individual contributions range from a general outlook of Thucydides' historical and historiographical concepts to detailed analysis of narrative strategies, linguistic features and stylistic devices. Special attention is given to questions such as the representation of character, the role of individuals, the interaction between leaders and masses in Athenian democracy, the construction of speeches in Thucydides' work etc. The analysis of language style and narrative properties is related to the construction of meaning according to current standards of textual analysis and interpretation.

**Rhetoric in Classical Historiography** A.J. Woodman, 2003-09-02 Professor Woodman's radical study argues against the view that the historian's craft has remained largely unchanged since classical times. A thought provoking discussion of ancient historiographical theory
