Hesitant Heroes Theodore Ziolkowski, 2018-05-31 Why Theodore Ziolkowski wonders does Western literature abound with figures who experience a crucial moment of uncertainty in their actions In this highly original and engaging work he explores the significance of these unlikely heroes for literature and history From Aeneas who wavered momentarily before plunging his sword into Turnus's chest to Hamlet Orestes Parzival Wallenstein and others including Kafka's Josef K Ziolkowski demonstrates that characters' private uncertainty reveals a classic opposition of binary forces He describes how Aeneas for example was forced to choose between the ancient code of blood vengeance and the new civic virtues of law and justice Ziolkowski asserts that the indecision of the characters reflects the tensions that authors observed in their own societies Drawing on the insights of Hegel and Freud he analyzes the ways in which these tensions represent turning points in cultural history In stark contrast to Aeneas Josef K temporized for a year before his executioners thrust a knife into his heart For Ziolkowski the centuries separating Virgil and Kafka are ones in which the notion of the hero was transformed almost to the point of total inversion He sheds light on this transformation and a corresponding change in literary form

Heroes James Baddock, 2014-06-19 THE DUTCH CAPER First in the Cormack and Woodward series it involves a dangerous mission into wartime Europe in order to try and find vital information about the Liechtenstein onboard radar system that Luftwaffe night fighters are using to shoot down RAF bombers in ever increasing numbers The only way to do this is to steal a night fighter from a securely guarded Luftwaffe air base Based on a true story EMERALD Sequel to The Dutch Caper where Cormack and Woodward have to fly into Berlin during the last days of the War in order to bring out Emerald a highly placed British agent who is being hunted not just by the Gestapo but by Soviet Intelligence as well The action takes place against a background of a Berlin that is being systematically destroyed by the attacking Red Army BERLIN ENDGAME The third book

in the series set during the Berlin Blockade of 1948 Cormack and Woodward uncover an assassination plot that if successful could spark armed conflict in Berlin that almost inevitably will lead to World War Three Bad enough that they don't know when or where the killing is to take place but even worse is the suspicion that their own superiors could be involved

Military Heroism in a Post-Heroic Era Uzi Ben-Shalom, René Moelker, Nehemia Stern, Eyal Ben-Ari, 2024-04-11 This book explores the variety of forms that individual heroism and sacrifice can take in the context of contemporary military conflicts It addresses three key questions How has an enduring ideal of heroism been transformed by the nature of modern warfare Are we now witnessing the emergence of new forms of exemplary military behavior And have new ideals of heroism and by association sacrifice or bravery been added to older forms in the recent past The book advocates viewing the concept of military heroism as a moral category in which its theoretical definition and empirical practice reflect those factors that are seen as being vital for society itself The key theoretical and topical challenges addressed in the respective chapters focus on how ideas of heroism become entwined with issues of individualization bolstered by the cultural assumptions of neo Liberalism the spread of the human rights discourse and the judicialization marketization and mediatization of armed forces The book was written by experts on military studies including many who are currently active military personnel It includes contributions from a variety of disciplines e.g. anthropology sociology psychology and political science **Socialist Realism**

in Central and Eastern European Literatures under Stalin Evgeny Dobrenko, Natalia Jonsson-Skradol, 2018-02-15 *Socialist Realism in Central and Eastern European Literatures* is the first published work to offer a variety of alternative perspectives on the literary and cultural Sovietization of Central and Eastern Europe after World War II and emphasize the dialogic relationship between the centre and the satellites instead of the traditional top down approach The introduction of the Soviet cultural model was not quite the smooth endeavour that it was made to look in retrospect rather it was always a work in progress often born out of a give and take with the local authorities intellectuals and interest groups Relying on archival resources the authors examine one of the most controversial attempts at a cultural unification in Europe by providing an overview with a focus on specific case studies an analysis of distinct particularities with attention to the patterns of negotiation and adaptation that were being developed in the process *Our America* José Martí, 1977 Presents

the celebrated Cuban revolutionary's thoughts on Nuestra America the Latin America Martí fought to make free *Juno's Aeneid* Joseph Farrell, 2023-12-05 This book based on the prestigious Martin Lectures given annually at Oberlin College offers a major new interpretation of Vergil's Aeneid Scholars have tended to view Vergil's poem as an attempt to combine aspects of Homer's Iliad and Odyssey into a single epic Joseph Farrell argues by contrast that Vergil's aim is not to combine them but instead to stage a contest to decide which Homeric hero the Aeneid will most resemble The goddess Juno works in the poem to make it another Iliad a tragedy of death and destruction against the narrator's apparent intention to make it another Odyssey a comedy of homecoming and marriage Farrell begins by illustrating his method of interpretation and its

advantages over previous treatments of Vergil and Homer. He then turns to what he regards as the most fruitful of interpretative possibilities. Ancient ethical philosophy treated Homer's principal heroes Achilles in the *Iliad* and Odysseus in the *Odyssey* as key examples of heroic or kingly behaviour but also stressed their fundamental differences from one another. Achilles is an intransigent solipsistic man of violence. Odysseus, one of intelligence, perspicacity, flexibility and self control. Many ancient thinkers contrast the heroes in these terms with none imagining a stable combination of the two. Farrell argues that this supports his contention that Vergil does not aim to combine them but to stage a Homeric contest for the soul of his hero and his poem. The final chapter considers the political relevance of this contest to Rome's leader Caesar Augustus who counted Aeneas as the mythical founder of his own family. An ultimately *Iliadic* or an *Odyssean* *Aeneid* would reflect in very different ways upon the ethical legitimacy of Augustus' regime.

Global Failure and World Literature Karen Borg Cardona, 2023-10-24 While the contemporary era has witnessed a series of spectacular failures with severe and widespread global consequences, failure is still broadly understood on an individual level while its broader causes and consequences receive little attention. This book reconceptualises failure as a method for characterising and critiquing systems and institutions on both a global and a local level. It defines global failure as comprising global inequality, economic crisis and ecological disaster and as a condition which informs and is informed by localised failure. It examines the negotiation between global and local failure in narratives of failed quests by four contemporary authors: Cormac McCarthy, Julia Kristeva, Michael Ondaatje and Basma Abdel Aziz. As a genre, the quest narrative is associated with the idea of hard won success. The failed quest narrative or the narrative of the failed quest is therefore the ideal vehicle through which to examine the socio-political and institutional conditions of failure. Primarily a contribution to the field of world literature, this book is also relevant to those with an interest in the contemporary novel, failure studies and the quest narrative.

First Pages Giancarlo Maiorino, 2010-11 *Titology*, a term first coined in 1977 by literary critic Harry Levin, is the field of literary studies that focuses on the significance of a title in establishing the thematic developments of the pages that follow. While the term has been used in the literary community for thirty years, this book presents for the first time a thoroughly developed theoretical discussion on the significance of the title as a foundation

for scholarly criticism Though Maiorino acknowledges that many titles are superficial and indexical there exists a separate and more complex class of titles that do much more than simply decorate a book's spine To prove this argument Maiorino analyzes a wide range of examples from the modern era through high modernism to postmodernism with writings spanning the globe from Spain and France to Germany and America By examining works such as *Essais* *The Waste Land* *Ulysses* and *Don Quixote* First Pages proves the power of the title to connect the reader to the thematic cultural and literary context of the writing as a whole Much like a facade to a building the title page serves as the frontispiece of literature a sign that offers perspective and demands interpretation

Claude Jutra Jim Leach,1999-09-01 Through close readings of Jutra's major films Jim Leach analyses their distinctive cinematic qualities and discusses the responses they have received from reviewers and critics He focuses both on the films and the historical and cultural contexts in which they were made arguing that critics have frequently used inappropriate criteria to judge them and that these misunderstandings reveal much about attitudes to Canadian cinema in general Jutra's films are shown to reflect the instability of their cinematic and cultural contexts and raise important questions about nationhood Jutra always identified himself as a separatist and his films were shaped by the rapid changes in Quebec society during the Quiet Revolution and by the political tensions of the sixties and seventies At the same time his work was often appreciated by English Canadian critics and audiences and was affected by federal film policy and institutions Although Jutra died in 1986 his films and career still have much to tell us about Canadian cinema and media production and about the complex cultural contexts that underlie the ongoing debates on Canadian and Quebec nationhood

Deconstructing Reaganism Douglas E. Forster,2014-06-02 As in so many other areas of American society the political legacy of Ronald Reagan had an imposing presence in many contemporary American films particularly between 1980 and 2000 Six films which collectively represent the spectrum of Reaganism's most popular tropes demonstrate quite compellingly that in celebrating nostalgically the blissful pleasantries of family stability and social order so essential to Reagan's political philosophy an unsettling and unsatisfying mythology has been created about a period in which many Americans were acutely aware that something was missing even if they could not pinpoint it at the time This leads the critical viewer to largely unacknowledged subtexts in all six films that begin to reveal the contradictions incoherencies and paradoxes rooted in popular Reaganesque portrayals Utilising a detailed qualitative case study methodology this book incorporates theoretical foundations that expand upon Fairclough's path breaking research on media discourse and Todorov's broadly articulated framework of fantasy in order to explore 1 Which elements of Fairclough's framework for critical discourse analysis can be applied to explore the discursive structures within these American fantasy films 2 How far do the films follow Reaganist concepts of a new American society 3 How far do notions of the fantastic and postmodern concepts break with common patterns of Reaganism reflected in these films While many critics rightly cite the numerous elements in these films that appear to reinforce fundamental message points underlying Reaganism this study demonstrates how the films characters and

plot lines also serve to reveal the inherent and irreconcilable incoherence of the sociopolitical and sociocultural tenets of Reaganism

Lure of the Arcane Theodore Ziolkowski, 2013-08-31 A study of the depiction of cults conspiracies and secret societies in literature from ancient Greek and Roman mysteries to the 21st century thriller *Fascination with the arcane* is a driving force in this comprehensive survey of conspiracy fiction Theodore Ziolkowski traces the evolution of cults orders lodges secret societies and conspiracies through various literary manifestations drama romance epic novel opera down to the thrillers of the twenty first century *Lure of the Arcane* considers Euripides's *Bacchae* Andreae's *Chymical Wedding* Mozart's *The Magic Flute* and Eco's *Foucault's Pendulum* among other seminal works Mimicking the genre's quest driven narrative arc the reader searches for the significance of conspiracy fiction and is rewarded with the author's cogent reflections in the final chapter After much investigation Ziolkowski reinforces Umberto Eco's notion that the most powerful secret the magnetic center of conspiracy fiction is in fact a secret without content Conspiracies whether attributed to mystery cults Freemasons Socialists or Rosicrucians pervade literature from Euripides to Umberto Eco as Theodore Ziolkowski shows in *Lure of the Arcane* Ziolkowski has read everything taking even a 3 000 page German novel in his stride and summarizes and analyses his material fascinatingly for lesser mortals *Times Literary Supplement* UK Ziolkowski is excellently placed to attempt the construction of a genre history As such his treatment of the literature and the array of texts included is predictably masterful moving with ease from Greek and Roman mysteries in antiquity to the Medieval representations of the Knights Templar through the Rosicrucian manifestoes and the German Enlightenment lodge novels to the literary depictions of secret societies of Romantic Socialism *Nova Religio*

Book Review Digest, 1922 **Mad Minutes and Vietnam Months** Micheal Clodfelter, 2016-05-13 This thoughtful memoir recounts one man's transformation from a glory seeking gung ho Kansas teenager to a weary twice wounded grunt who had volunteered for a second tour of duty Enlisting in the Army in June 1964 at age 17 Micheal Clodfelter was assigned to an artillery battalion of the 101st Airborne Division and

arrived at Cam Ranh Bay on July 29 1965 on August 9 1966 after having requested a transfer to the infantry he was assigned to Charlie Company 2 502nd Airborne serving in Phu Yen and Kontum provinces A second injury resulted in his medical evacuation from Vietnam on January 8 1967 Describing the intensity of mad minutes the general discharge of all weapons along a defense perimeter to discourage a potential enemy attack amid the monotony exhaustion and horror of war Clodfelter writes of entering a territory from which none of us ever really returned *Exit* Stefan Helgesson,2011 Preliminary Material Some Thoughts on the Idea of Exit in Recent African Narratives of Childhood Richard K Priebe Generation and Complicity in Zo Wicomb s Playing in the Light Maria Olausson Let Me Tell You About Bekolo s Latest Film Les Saignantes But First Kenneth W Harrow Tradition and Creativity in Zakes Mda s Cion David Bell Paton s Discovery Soyinka s Invention Bernth Lindfors Writing Out Imperialism A Note on Nationalism and Political Identity in the African Owned Newspapers of Colonial Ghana Stephanie Newell After Exit Exile Creativity and the Risk of Translation Stefan Helgesson African Presences and Representations in the Principality Markgrafschaft of Bayreuth Eckhard Breitingen Taking Flight and the Libertarian Crow Scarer Gerald Porter In my end is my beginning The Death of Virginia Woolf Catherine Sandbach Dahlstr m Following the Race Track Swedish Chinese Scottish Irish Canadian in Diamond Grill by Fred Wah Elisabeth M rald Literature and Scripture An Impossible Filiation J Hillis Miller Gazing into the future Beginnings Endings and Midpoints in Paul Muldoon s Why Brownlee Left Lars H kan Svensson Exiting the Environmental Trap Knowledge Regimes and the Third Phase of Environmental Policy Sverker S rlin The End of the Earth Willy Bach Myself as a Puff of Dust A Ghost Story Jane Bryce TIXE YLNO or Redefining Identities Janice Kulyk Keefer Contributors **Clio the Romantic Muse** Theodore Ziolkowski,2004 It is not sufficiently appreciated I believe how profoundly Clio the muse of history permeated every aspect of thought during the Romantic era philosophy theology law natural science medicine and all other fields of intellectual endeavor Thoughtful students of the period well understand that Romanticism is not merely a literary or aesthetic movement but rather a general climate of opinion from the IntroductionIn a book certain to be of interest to readers in many disciplines the distinguished scholar Theodore Ziolkowski shows how a strong impulse toward historical concerns was formalized in the four German academic faculties philosophy theology law and medicine biology In Clio the Romantic Muse he focuses on representative figures in whose early work the sense of history was first manifested G W F Hegel Barthold Georg Niebuhr Friedrich Karl von Savigny Friedrich Wilhelm Joseph von Schelling and Friedrich Schleiermacher Through biographical treatments of these and other leading German scholars Ziolkowski traces how the disciplines became historicized in the period 1790 1810 He goes on to suggest how powerfully the Romantic thinkers influenced their disciples in the twentieth century Stages of European Romanticism Theodore Ziolkowski,2018 Employs an innovative approach by stages to offer a unified vision of European Romanticism over the half century of its growth and decline Romanticism was a truly European phenomenon extending roughly from the French Revolution to the 1848 revolutions and embracing not only literature and drama but also music and

visual arts Because of Romanticism's vast scope most treatments have restricted themselves to single countries or to specific forms notably literature art or music This book takes a wider view by considering in each of six chapters representative examples of works from across Europe and across a range of the arts that were created in a single year For instance in the first chapter focusing on the year 1798 Beethoven's Pathétique sonata Wordsworth and Coleridge's Lyrical Ballads Tieck's novel Franz Sternbald's Wanderungen and Goya's painting El sueño de la raza n The following chapters treat works from the years 1808 1818 1828 1838 and 1848 This approach by stages makes it possible to determine characteristics of six stages of Romanticism in its historical and intellectual context and to note the conspicuous differences between these stages as European Romanticism developed for example the waxing and waning of religious themes the shifting visions of landscape the gradual ironic detachment from early Romanticism In sum the volume offers a unified vision of European Romanticism in all its aesthetic forms over the half century of its growth and decline Theodore Ziolkowski is Professor Emeritus of German and Comparative Literature Princeton University
