## **Hesperides Tree:**

**The Sacred Tree** diego Alonso Kurilo, 2015-01-19 Prologue In Indo European antiquity much of the religious and cultural imaginary of all these peoples saw in the symbol of the tree and its fruit the arcane of knowledge starting from the Sycamore Tree 1 in Egypt associated with the Goddess Isis wife and mother of the pharaoh always ready to offer the hidden knowledge of things giving the pharaoh the sap of knowledge to drink even the Acacia Tree revered throughout the Mediterranean world for being a symbol central resistance even with the absence of rain the Acacia grows The Ark of the Covenant or Ark of the Covenant chest that served to house the tables of the law was built in Acacia wood The Tree also evokes the image of the savior Jesus the Christ who was crucified in lumber in the shape of the letter T 3 as described in the Epistle of Barnabas 4 written at the beginning of the 2nd century it describes the cross as similar to the letter T it had to have grace in the figure of T And he says that Moses made a figure of the cross and of the one who was to suffer on it by extending his arms to save the people from defeat cf Exodus 17 8 13 In the Work of Justin the Martyr AD 100 165 the cross is described as composed of a wood in vertical position embedded by another horizontal while another stands out in the middle in which the crucified sit the Christ and his cross become an emblem of the paschal rabbit to which the Messiah He had to submit to be roasted he was arranged in the shape of the cross This was erected in the fields with crossed timbers as symbols of victory over the enemy allegory of the victory of the Greco Latin world associated with victory in war but in this case that of the Christ represents the spiritual victory of man Trees occupy a prominent place both in the Bible and in the Koran both ancient religions share trees in their respective sacred books such as date palm olive and tamarisk Acacia also used its wood in North Africa for being a sacred tree for its permanence There are in the religious literature of the Indo European world Infernal trees such as the zaqqm o Tree of Hell Tree belonging to the Islamic world As Saffat 37 65 Ad Dukhn 44 49 Al Waqi a 56 51 Is it not better received than the zaqqm tree We have made this tree a scourge for the unjust It grows in the depths of Hell bearing fruits like the heads of demons with it they will feed and fill their bellies along with gulps of boiling water Then they will return to Hell Also the Tree of Yours possibly a dark wood conifer mentioned only in Revelation 18 12 The Apple tree that for much of the Greco Latin world represented the achievement of immortality was introduced to Europe by the Romans and Greeks from the Middle East its main symbolism is that of the mystical fruit remembering that God prohibited man from eating the forbidden fruit of the apple tree in the Eden s garden Greek hero Heracles 7 como parte de sus Doce Trabajos estaba obligado a viajar al Jard n de las Hesp rides y recoger las manzanas de gold from the tree of life at its center The Pomun or apple tree in ancient Greece was consecrated to Aphrodite and an apple was thrown at someone to symbolically declare their love and in the same way to catch it was to symbolically show the acceptance of that love The first Christians who arrived in northern Europe discovered that near the date of the celebrity of the Nativity of the Lord the peoples of the north celebrated the birth of Freyr the Sun God by decorating evergreen trees This tree is in the center of the universe and It is called

Yggdrasil in whose cup Asgard was the city of the gods After the evangelization of the Nordic world the meaning was changed for the birth of Christ it is believed that it was Saint Boniface 680 754 the evangelizer of Germany the first to change the symbolic tree of the Yggdrasil and give an all Christian meaning to the pine tree with this new archetype candles and apples were added giving birth to the Christmas tree more or less as we know it today later gifts were added at the base of the European custom tree associated with Saint Nicholas of Bari Much of the Indo European imaginary revolves in the cultural reason of the fundamental post or sacred Tree From the ceremony of the elevation of the stability pole or Djedi pillar in Egypt a festival related to the god Ptah Osiris or the festival of the myth staircase whose cultural base was in the city of Panopolis linked to the god Min one of the oldest deities in the world that with its fundamental post preserved the universe Many of these fundamental symbols of erection and stability as well as the symbology associated with the sacred tree as the central symbol of the universal Tree that was found in most of the ancestral religions in the center of the heavenly city and that was replaced in Christianity during the Romanesque period by the Lamb of God alludes to the fertility of the light of God and this fertility will be seen reflected in the tree crowns or diadems of the Greco Latin world with which the initiates in the mysteries were dressed in the light of their patron trees as is the case of the initiates in the religion of Apollo who were crowned in the light with a headband bay leaves Diadems were originally made from tree branches and flowers and it was an attribute of the gods Bacchus according to Pliny was the first to use it after his conquest of the Indies The symbolic thought of the first Indo European peoples saw in many deities the manifestation of primal fires and the spring of the symbolic a certain union where the opposites stop showing through the theater of demonstrations to lose themselves in unity Man needs to understand what symbolism is because without this understanding he cannot delve into himself and look at himself being himself a central symbol of the earthly in a universe without scale and without time It is our duty to discover our symbolic interiority the purpose of this book is to bring to the reader different interpretations of logos deities and religions whose symbolic expression had its genesis in architecture and in the Tree or fundamental post Many of the Indo European deities at their core were portrayed as abstract forms and numbers in a quest to learn mathematics and geometries associated with the universal An example of this is the cult of Apollo that was worshiped at Delphi as a cube or the God Min in Egypt one of the oldest deities in the world which represented for that ideology not only numbers but also the first bricklayer rule center of religions strongly rooted in architecture On his arm was represented the Egyptian elbow ruler or modulator on which the space to be made sacred was organized The Universe for these peoples personified a fundamental hill surrounded by a mass of salty water crowned by a wheel shaped symbol Of potter or tree and on whose crest was a philosopher s cube the most sacred space or house of Horus For many world cultures like Hindu or Cherokee in North America the world was supported by a turtle whose shell had drawings of hexagonal sides like many of the trees of life in the Indo European world such as the Fu sang tree in China This book covers a series of events and mythologies associated with the art of construction from the

universal symbolism of the cardinal points and the circle of the earth to the temple of Jerusalem and its creator King Solomon passing through numerical symbolism symbolism from the palm tree in Sumer or the fundamental post of creation in Egypt

What is Hecuba to Hamlet? Is the mechanicals staging of the Pyramus and Thisbe story funny or sad? This dictionary elucidates Shakespeare's use of mythological references in an early modern context while bringing them to life for today's audiences and readers at a time of renewed critical interest in the reception of the classics and fascination with classical mythology in popular culture. It is also a precious tool for practitioners who may not always know quite what to make of mythological references. Mythological figures, creatures, places, and stories crowd Shakespeare's plays and poems, featuring as allusions, poetic analogies, inset scenes, settings, and characters or plots in their own right. Most of these references were familiar to Shakespeare's spectators and readers who knew them from the writings of Ovid, Virgil, and other classical authors or indirectly through translations, commentaries, ballads, and iconography. This dictionary illustrates how far from being isolated, a mythological reference may resonate with the poetics of the text and its structure, cast light on characters and contexts, and may therefore be worth exploring onstage in a variety of ways. The 200 headings correspond to words and names actually used by Shakespeare: individual figures (Dido, Venus, Hercules), categories (Amazons, Centaurs, nymphs, satyrs), places (Colchus, Troy), and longer entries also cover early modern usage and critical analysis in a cross-disciplinary approach that includes reception, textual performance, gender, and political studies. **The Living Wisdom of Trees** Fred Hageneder, 2020-02-11 A definitive guide to the sacred place trees hold for cultures around the world, exploring the natural history, folklore, and symbolism that give each genus of tree its unique character and fascination. Throughout time, trees have stood as sentinels, wise yet silent, patiently accumulating their rings while the storms of history have raged around them. Trees and humankind have always had a symbiotic relationship. Throughout the centuries, trees have offered us shelter from the cold and the heat. They have provided us with a multitude of nutritious fruits, leaves, flowers, and roots for food and medicine. They have given us wood with which to make our tools, weapons, and toys, not to mention timber for houses, fences, boats, and bridges. But perhaps most significant of all, trees have provided us with fuel for fire, which once it was tamed, hundreds of thousands of years ago became the engine of civilization. Trees are our strongest allies. *The Living Wisdom of Trees* is a richly illustrated guide to the cultural significance of 55 trees, from Acacia to Yew, looking in particular at their botanical characteristics, their place in world myth, magic, and folklore, their healing properties, and their practical contribution to society. Featuring beautiful hand-drawn evocative illustrations, *The Living Wisdom of Trees* is for all who seek acquaintance with the fascinating lore and the profound spiritual wisdom of trees. **Adonis** Carlo Caruso, 2013-12-05 In this detailed

treatment of the myth of Adonis in post Classical times Carlo Caruso provides an overview of the main texts both literary and scholarly in Latin and in the vernacular which secured for the Adonis myth a unique place in the Early Modern revival of Classical mythology While aiming to provide this general outline of the myth's fortunes in the Early Modern age the book also addresses three points of primary interest on which most of the original research included in the work has been conducted First the myth's earliest significant revival in the age of Italian Humanism and particularly in the poetry of the great Latin poet and humanist Giovanni Pontano Secondly the diffusion of syncretistic interpretations of the Adonis myth by means of authoritative sixteenth century mythological encyclopaedias Thirdly the allegorical political use of the Adonis myth in G B Marino's 1569 1625 *Adone* published in Paris in 1623 to celebrate the Bourbon dynasty and to support their legitimacy with regard to the throne of France

entheogenically induced visions to commune with the divine and liberate the gods within Supported by an impressive array of historical research and scientific analysis The Venus Blueprint offers compelling evidence of an ancient lost culture that was both spiritually and scientifically advanced     Indian Renaissance Hermionede Almeida,2017-07-05 Indian Renaissance British Romantic Art and the Prospect of India is the first comprehensive examination of British artists whose first hand impressions and prospects of the Indian subcontinent became a stimulus for the Romantic Movement in England it is also a survey of the transformation of the images brought home by these artists into the cultural imperatives of imperial Victorian Britain The book proposes a second Indian Renaissance for British and European art and culture and an undeniable connection between English Romanticism and British Imperialism Artists treated in depth include James Forbes James Wales Tilly Kettle William Hodges Johann Zoffany Francesco Renaldi Thomas and William Daniell Robert Home Thomas Hickey Arthur William Devis R H Colebrooke Alexander Allan Henry Salt James Baillie Fraser Charles Gold James Moffat Charles D Olyly William Blake J M W Turner and George Chinnery     The Pillars of Hercules; Or, A Narrative of Travels in Spain and Morocco in 1848 David Urquhart,1850     Drakon Daniel Ogden,2013-02-28 This volume explores the dragon or the supernatural serpent in Graeco Roman myth and religion It incorporates analyses with comprehensive accounts of the rich literary and iconographic sources for the principal dragons of myth and discusses matters of cult and the paradoxical association of dragons and serpents with the most benign of deities     **Heroes and Heroines of Greece and Rome** Brian Kinsey,2012-01-15 Explores well known heroic figures as well as the demigods nymphs sorceresses and other creatures that inhabited the mortal world and figured prominently in the myths of the heroes and heroines of Greece and Rome
