Measurement and Modeling of Silicon Heterostructure Devices John D. Cressler, 2018-10-03 When you see a nicely presented set of data the natural response is How did they do that what tricks did they use and how can I do that for myself Alas usually you must simply keep wondering since such tricks of the trade are usually held close to the vest and rarely divulged Shamefully ignored in the technical literature measurement and modeling of high speed semiconductor devices is a fine art Robust measuring and modeling at the levels of performance found in modern SiGe devices requires extreme dexterity in the laboratory to obtain reliable data and then a valid model to fit that data Drawn from the comprehensive and well reviewed Silicon Heterostructure Handbook this volume focuses on measurement and modeling of high speed silicon
