Histories of the Hidden God April D DeConick, Grant Adamson, 2016-04-08 In Western religious traditions God is conventionally conceived as a humanlike creator lawgiver and king a being both accessible and actively present in history Yet there is a concurrent and strong tradition of a God who actively hides The two traditions have led to a tension between a God who is simultaneously accessible to humanity and yet inaccessible a God who is both immanent and transcendent present and absent Western Gnostic esoteric and mystical thinking capitalizes on the hidden and hiding God He becomes the hallmark of the mystics Gnostics sages and artists who attempt to make accessible to humans the God who is secreted away *Histories of the Hidden God* explores this tradition from antiquity to today The essays focus on three essential themes the concealment of the hidden God the human quest for the hidden God and revelations of the hidden God

Untold Stories: The Last of the Hitler's Allied Descendants Pasquale De Marco, 2025-04-27 In a world overshadowed by the atrocities of Adolf Hitler a remarkable story of defiance and redemption unfolds *Untold Stories: The Last of the Hitler's Allied Descendants* unveils the hidden history of Hitler's relatives who chose a different path aligning themselves with the Allied forces against Nazi Germany At the center of this extraordinary narrative is William Patrick Hitler Adolf Hitler's British born nephew Raised in a household steeped in Nazi ideology William rejected his

uncle's beliefs and fought against the Nazi regime during World War II. His courageous decision to join the Allied forces defied his family's legacy and risked his own life. But William was not alone. His brothers Heinz and Alexander also distanced themselves from their uncle's ideology and pursued lives far removed from the world of politics. Heinz became a successful businessman while Alexander opted for a quiet life as a farmer. Through extensive research and interviews, this book delves into the lives of Adolf Hitler's allied descendants, exploring their motivations, their struggles, and their ultimate decision to break free from the shadow of their infamous relative. Their stories shed light on the complex dynamics of loyalty, identity, and the human capacity for change. This book challenges our assumptions about family loyalty and the nature of evil. It is a story that reminds us that even in the darkest of times, individuals have the power to choose their own destiny and stand up for what is right. It is a story that deserves to be told. Coventry: Medieval Art, Architecture and Archaeology in the City and its Vicinity Linda Monckton, 2017-07-05. The British Archaeological Association's 2007 conference celebrated the material culture of medieval Coventry, the fourth wealthiest English city of the later middle ages. The nineteen papers collected in this volume set out to remedy the relative neglect in modern scholarship of the city's art, architecture, and archaeology, as well as to encompass recent research on monuments in the vicinity. The scene is set by two papers on archaeological excavations in the historic city centre, especially since the 1970s, and a paper investigating the relationships between Coventry's building boom and economic conditions in the city in the later middle ages. Three papers on the Cathedral Priory of St Mary bring together new insights into the Romanesque cathedral church, the monastic buildings, and the post-Dissolution history of the precinct, derived mainly from the results of the Phoenix Initiative excavations, 1999-2003. Three more papers provide new architectural histories of the spectacular former parish church of St Michael, the fine Guildhall of St Mary, and the remarkable surviving west range of the Coventry Charterhouse. The high quality monumental art of the later medieval city is represented by papers on wall painting, featuring the recently conserved Doom in Holy Trinity church, on the little-known Crucifixion mural at the Charterhouse, and on a reassessment of the working practices of the famous master glazier John Thornton. Two papers on a guild seal and on the glazing at Stanford-on-Avon parish church consider the evidence for Coventry as a regional workshop centre for high quality metalwork and glass painting. Beyond the city, three papers deal with the development of Combe Abbey from Cistercian monastery to country house, with the Beauchamp family's hermitage at Guy's Cliffe, and with a newly identified stonemason's workshop in the barn at Kenilworth Abbey. Two further papers concern the architectural patronage of the earls and dukes of Lancaster in the 14th century at Kenilworth Castle and in the Newarke at Leicester Castle.

The Second Carol Anderson, 2021-06-01. From the New York

Times bestselling author of *White Rage* an unflinching critical new look at the Second Amendment and how it has been engineered to deny the rights of African Americans since its inception In *The Second* historian and award winning bestselling author of *White Rage* Carol Anderson powerfully illuminates the history and impact of the Second Amendment how it was designed and how it has consistently been constructed to keep African Americans powerless and vulnerable The Second is neither a pro gun nor an anti gun book the lens is the citizenship rights and human rights of African Americans From the seventeenth century when it was encoded into law that the enslaved could not own carry or use a firearm whatsoever until today with measures to expand and curtail gun ownership aimed disproportionately at the African American population the right to bear arms has been consistently used as a weapon to keep African Americans powerless revealing that armed or unarmed Blackness it would seem is the threat that must be neutralized and punished Throughout American history to the twenty first century regardless of the laws court decisions and changing political environment the Second has consistently meant this That the second a Black person exercises this right the second they pick up a gun to protect themselves or the second that they don't their life as surely as Philando Castile's Tamir Rice's Alton Sterling's may be snatched away in that single fatal second Through compelling historical narrative merging into the unfolding events of today Anderson's penetrating investigation shows that the Second Amendment is not about guns but about anti Blackness shedding shocking new light on another dimension of racism in America

Last Resort Beyond Last Resort Walter Herbst, 2025-04-29 John F Kennedy was an embattled president He was consistently at odds with the Joint Chiefs the CIA the radical right and Fascist groups in America and Western Europe who considered him too weak to contain the spread of communism After the Cuban Missile Crisis the animosity for the young President grew as JFK cracked down on right wing Cuban exile groups in America by preventing them from running sabotage raids against the Cuban mainland Confusion reigned for at the same time Robert Kennedy was putting together a coalition of left wing Cuban exiles to launch a second invasion of Cuba at the end of 1963 Meanwhile a right wing Cuban exile group operating independently of the Kennedys was looking to assassinate JFK which they believed would be a catalyst to compel the United States to invade Cuba with its military in retaliation The plan could have worked because of Lee Harvey Oswald He was a Marxist and Castro supporter who had defected to the Soviet Union in 1959 had renounced his citizenship and had revealed military secrets to the Russians He allegedly tried to shoot right wing General Edwin Walker was a member of the pro Castro Fair Play for Cuba Committee and in the summer of 1963 he was arrested in New Orleans for handing out pro Castro literature in public He traveled to Mexico City and tried to reach Havana two months before the JFK assassination He wrote a letter to the Russian Embassy in Washington D C upon his return saying he used an alias while he was in Mexico He was measured as 5'9" tall during his autopsy which was two inches shorter than when he left the Marines four years before All this made him the perfect patsy to be used to justify a second invasion of Cuba So why didn't the United States invade Cuba after the JFK assassination when they had the opportunity to do so once and for all The answer to that question is West Berlin the gateway to Western Europe and a city President Kennedy was determined to protect at all costs even if it meant sacrificing Cuba to the Communists And a second invasion of Cuba placed Berlin in jeopardy so it could not be allowed to happen Another group came together in the spring of 1963 made up of CIA right wing Cold War veterans like Allen Dulles James Angleton Henry Hecksher William Harvey and Tracy Barnes These men had fought the Nazis during World War but came to consider them the lesser of two evils compared to the Soviet Union when the war was over And they were hell bent on keeping communism out of Europe by any means possible For over a decade leading up to JFK's Presidency they had collaborated with ex Nazis European Monarchists and French military Fascists in the war against communism to keep Europe safe So it was not surprising that they all came together once again to assassinate President Kennedy not to justify an invasion of Cuba but to prevent that from occurring They knew that if a second invasion of Cuba were to happen the Soviets would take West Berlin which would almost certainly have led to World War III So as a Last Resort Beyond Last Resort this group inevitably concluded that the only choice they had was to remove JFK from power before it was too late And mixed up in the middle of it all was Lee Harvey Oswald
