Hidden Histories Of Science:

Hidden Histories of Science Robert B. Silvers, 1997 This volume examines the ways in which science is influenced by culture It highlights the misleading images that have distorted people's view of the history of life

Hidden Histories of Science Robert B. Silvers, 1995 We often think of science as continuously advancing In this collection of essays five world renowned writers explore obscure and neglected episodes in the history of science which suggest instead that the process of understanding the significance of scientific discoveries can be erratic contradictory even irrational Jonathan Miller Oliver Sacks and Daniel Kevles show how promising new ideas may at first fail to be noticed or accepted and then years after they have been dismissed or forgotten are recognized in a different form as important R C Lewontin and Stephen Jay Gould discuss the ways that words and images used by scientists and popularizers alike from the murals on the walls of natural history museums to such ubiquitous terms as adaptation and environment reflect serious and often unacknowledged distortions in the way we conceive of both individual organisms and the natural history of the world These essays demonstrate that science is in the words of Oliver Sacks a human enterprise through and through an organic evolving human growth with sudden spurts and arrests and strange deviations too It grows out of its past but never outgrows it any more than we outgrow our childhood

Hidden Histories: Unveiling Secrets from the Shadows Pasquale De Marco, 2025-08-11 Journey beyond the surface of history and uncover the hidden truths lurking in the shadows Hidden Histories Unveiling Secrets from the Shadows is an introspective exploration that sheds light on the untold stories marginalized voices and transformative forces that have shaped our collective past Delving into the very nature of history this book examines the origins of historical recording the biases and perspectives that influence our understanding of the past and the ethical considerations that guide historians in their work It explores the challenges of documenting and preserving the histories of marginalized groups highlighting the importance of oral histories and community archives in reclaiming diverse narratives In an era marked by technological advancements the book delves into the impact of the digital age on historical research It examines the opportunities and challenges posed by digital archives crowdsourcing and citizen history while also considering the ethical implications of preserving history in a digital realm Beyond traditional historical domains this book ventures into the histories of science technology art culture religion spirituality gender sexuality and the environment It uncovers the intricate connections between these realms and the historical forces that have shaped them revealing the profound impact they have had on human experience and the world around us Hidden Histories Unveiling Secrets from the Shadows is not merely a collection of facts and dates it is an invitation to engage critically with the past to challenge conventional narratives and to embrace a more inclusive and nuanced understanding of our shared history It is a powerful tool for researchers students and anyone seeking to uncover the hidden truths that have shaped our world If you like this book write a review

[The Hidden History of Earth Expansion](#) Stephen W. Hurrell, 2020-05-14 For more than half a

century the theory of continental drift was widely derided. Innovators developing the radical theory were labelled as unscientific by well known science authorities. But then in the space of a few years virtually all opposition dramatically collapsed. Continental drift transformed into plate tectonics and became widely acknowledged as one of the most profound scientific revolutions of the twentieth century. Yet a number of science innovators who had been closely involved with creating this new theory of the Earth continued to research an even more radical theory. They saw evidence that the new geological theory was incomplete, arguing that continental drift was caused by the Earth expanding in size. These science innovators give us a unique insight into their experiences. They relate their personal histories of Earth expansion in 14 original essays. *The Hidden History of Earth Expansion* presents the unique personal histories of British, American, Australian, German, Polish, Romanian, Indian, Albanian, and Jamaican science innovators as they strived to produce a modern theory of the Earth. It includes chapters expressly written for the book by some of the most well known researchers into Earth expansion: Hugh G. Owen, Cliff Ollier, Karl Heinz Jacob, James Maxlow, Jan Koziar, Stefan Cwojdzinski, Carl Strutinski, Stephen W. Hurrell, John B. Eichler, William C. Erickson, David Noel Zahid, A. Khan, Ram Chandra Tewari, Vedat Shehu, and Richard Guy. In addition to furnishing us with their personal histories of Earth expansion and the seemingly overwhelming evidence for its confirmation, the authors highlight areas where further research is required.

[Disinformation Guide to Ancient Aliens, Lost Civilizations, Astonishing Archaeology & Hidden History](#) Preston Peet, 2013-01-01. If you think the history you were taught in school was accurate, you're in for a big surprise. This group of researchers blows the lid off everything you thought you knew about the origins of the human race and the culture we live in. Cover p. 4.

Hidden Histories of the Dead Elizabeth T. Hurren, 2021-02-25. In this discipline redefining book, Elizabeth T. Hurren maps the post mortem journeys of bodies, body parts, organs, and brains inside the secretive culture of modern British medical research after WWII, as the bodies of the deceased were harvested as bio commons. Often the human stories behind these bodies were dissected, discarded, or destroyed in death. *Hidden Histories of the Dead* recovers human faces and supply lines in the archives that medical science neglected to acknowledge. It investigates the medical ethics of organ donation, the legal ambiguities of a lack of fully informed consent, and the shifting boundaries of life and redefining of medical death in a biotechnological era. Hurren reveals the implicit, explicit, and missed body disputes that took second place to the economics of the national and international commodification of human material in global medical sciences of the Genome era. This title is also available as Open Access.

The Human Odyssey: A Hidden History Krsanna Duran, 2012. *Departure from the Garden* represents the maiden flight of humanity from its earliest beginning with ancestors from the stars. The ancestor races evolved from the same universal code from which the oldest human species grew, many of whom have now left human evolution behind them to climb to even greater states within the

Molloy,2006-02-04

Challenging the received notions of International Relations theory about a central tradition Realism Molloy demonstrates how a belief in a mode of theorization has distorted Realism forcing the theory of power politics in IR into a paradigmatic strait jacket that is simply inadequate and inappropriate to the task of encompassing its diversity *Medical Mavericks: Uncovering the Hidden History of Alternative Therapies* Pasquale De Marco,2025-05-04

Medical Mavericks Uncovering the Hidden History of Alternative Therapies tells the stories of some of the most influential medical mavericks from the early pioneers who laid the foundation for alternative medicine to the modern day practitioners who are pushing the boundaries of medical knowledge These mavericks have often faced ridicule persecution and even imprisonment for their beliefs but their work has played a vital role in advancing our understanding of health and disease In this book you will learn about Andrew Ivy who championed the discredited anticancer drug Krebiozen Harry Hoxsey the herbalist who claimed to have cured cancer Gaston Naessens the Belgian doctor who developed a blood test for cancer Stanislaw Burzynski the Polish doctor who developed an experimental cancer treatment Linus Pauling the Nobel laureate who promoted the use of vitamin C for cancer prevention Royal Raymond Rife the inventor of a controversial cancer curing machine Wilhelm Reich the Austrian psychiatrist who developed orgone therapy Emanuel Revici the Romanian doctor who promoted the use of shark cartilage for cancer treatment These are just a few of the many medical mavericks whose stories are told in this book Their stories are inspiring infuriating and ultimately hopeful They remind us that the medical establishment is not always right and that there is always more to learn about the human body and how to heal it If you are interested in alternative medicine or if you are simply curious about the history of medicine then this book is for you It is a fascinating and informative look at the people who have dared to challenge the status quo and to explore new ways of healing If you like this book write a review on google books *Hidden Histories* Monique Moultrie,2023-02-03

In Hidden Histories Monique Moultrie collects oral histories of Black lesbian religious leaders in the United States to show how their authenticity social justice awareness spirituality and collaborative leadership make them models of womanist ethical leadership By examining their life histories Moultrie frames queer storytelling as an ethical act of resistance to the racism sexism and heterosexism these women experience She outlines

these women's collaborative intergenerational and leadership styles and their concerns for the greater good and holistic well being of humanity and the earth She also demonstrates how their ethos of social justice activism extends beyond LGBTQ and racialized communities and provides other models of religious and community leadership Addressing the invisibility of Black lesbian religious leaders in scholarship and public discourse Moultrie revises modern understandings of how race gender and sexual identities interact with religious practice and organization in the twenty first century

King Mob : A Critical Hidden History David Wise, 2014-08-07 I met a prostitute Angela W from the fishing port of Grimsby on the mouth of the Humber in the North of England I instantly fell in love with her in an all consuming way The pain inside my body so massively accumulated with the death of hopes for the social revolution was wrenched away from me as she slowly shambled towards me So begins Dave Wise's first hand account of King Mob the late 60s London based political grouping formed after core members were excluded from the Situationist International From a radical working class perspective Wise recounts their attempts to move from the Situationist salon to the street whilst frankly outlining identifying tactical strategic and theoretical holes in the groups day to day actions Plans to blow up waterfalls getting arrested on demos dressed as pantomime horses the back end got off in court on the grounds he didn't know what the front end was doing sharing oversized baked bean costumes with ultra Maoists on Vietnam marches Getting high and hungrily devouring Coleridge De Quincey Rimbaud Marx De Sade Breton Joyce and Hegel Urinating over the lectern whilst declaring the death of art at the 1968 English Surrealist convention being falsely put in the frame for the 1969 Newcastle School of Art firebombing perhaps most infamously dressing up as Santa Claus in Selfridges toy dept Xmas 69 and watching the chaos of consumerism unfold before them as crying children had the King Mob freely gifted toys wrenched from their arms by employees As the downturn of the early 1970s approached and

with it the apparent end of any hope for imminent social revolution some of King Mob drifted off into various strands of bourgeois counterculture whilst others faced up to the harsher realities of the capsized utopia Some didn't make it through as an at times unintentionally moving epilogue here recalls A Critical Hidden History is a living breathing account of a brief moment in time when the light got through the cracks in the wall and a new world felt possible As we career into the 21st century the relevance of the playful life affirming non hierarchical anti capitalists King Mob seems as great today as it ever did
