Tropical Time Machines Emily A. Maguire, 2024-06-18 How writers and artists use science fiction to speak to the current moment in the Caribbean Exploring the remarkable recent increase in works of science fiction originating in Spanish speaking parts of the Caribbean and their diasporas Tropical Time Machines shows how writers filmmakers musicians and artists are using the language of the genre

to comment on the region's history and present day realities. Discussing how previous Caribbean literature and film has characterized places including Cuba, Puerto Rico, and the Dominican Republic as out of sync with Western time, occupying a repeating or static space. Emily Maguire argues that science fiction breaks these cycles and resituates the region temporally and spatially. In chapters on cyberpunk, zombies, post-apocalyptic narratives, and the ab real, Maguire shows how recent cultural production analyzes and critiques the ways globalization and national leadership have reinforced the region's marginalization amid economic and climate crises. Art that employs the science-fictional mode makes room for a new vision of the Caribbean. Maguire demonstrates an alternate perspective in which the region has agency in shaping its own narratives and trajectories. The texts themselves are time machines enabling creators to protest inequalities of the present from the point of view of an imagined transformed future. A volume in the series *Reframing Media Technology and Culture in Latin America* edited by Hector Fernandez L. Hoeste and Juan Carlos Rodríguez. Publication of this work made possible by a Sustaining the Humanities through the American Rescue Plan grant from the National Endowment for the Humanities.

Transgression 2.0 Ted Gournelos, David J. Gunkel, 2011-11-24. One doesn't need to look far to find examples of contemporary locations of cultural opposition. Digital piracy, audio mashups, The Onion, and Wikipedia are all examples of transgression in our current mediascape. And as digital age transgression becomes increasingly essential, it also becomes more difficult to define and protect. The contributions in this collection are organized into six sections that address the use of new technologies to alter existing cultural messages, the incorporation of technology and alternative media in transformation of everyday cultural practices and institutions, and the reuse and repurposing of technology to focus active political engagement and innovative social change. Bringing together a variety of scholars and case studies, *Transgression 2.0* will be the first key resource for scholars and students interested in digital culture as a transformative intervention in the types, methods, and significance of cultural politics.

*The Columbia Guide to the Latin American Novel Since 1945* Raymond L. Williams, 2007. In this expertly crafted, richly detailed guide, Raymond Leslie Williams explores the cultural, political, and historical events that have shaped the Latin American and Caribbean novel since the end of World War II. In addition to works originally composed in English, Williams covers novels written in Spanish, Portuguese, French, Dutch, and Haitian Creole and traces the profound influence of modernization, revolution, and democratization on the writing of this era. Beginning in 1945, Williams introduces major trends by region, including the Caribbean and U.S. Latino novel, the Mexican and Central American novel, the Andean novel, the Southern Cone novel, and the novel of Brazil. He discusses the rise of the modernist novel in the 1940s led by Jorge Luis Borges's reaffirmation of the right of invention and covers the advent of the postmodern generation of the 1990s in Brazil, the Generation of the Crack in Mexico, and the McOndo generation in other parts of Latin America. An alphabetical guide offers biographies of authors, coverage of major topics, and brief introductions to individual novels. It also addresses such areas as women's writing, Afro-Latin American writing, and magic realism. The guide's final section includes an

annotated bibliography of introductory studies on the Latin American and Caribbean novel national literary traditions and the work of individual authors From early attempts to synthesize postcolonial concerns with modernist aesthetics to the current focus on urban violence and globalization The Columbia Guide to the Latin American Novel Since 1945 presents a comprehensive accessible portrait of a thoroughly diverse and complex branch of world literature Homenaje a Camilo José Cela Christoph Rodiek, 2004 **Cartas, sueños y otros textos** Remedios Varo, 1997 La pintura de Remedios Varo no dejar nunca de hechizarnos de asombrarnos con sus insólitas asociaciones entre los sueños los objetos y las personas Lo que se ignoraba era que la gran pintora también había escrito Este volumen organizado y prologado por Isabel Castells presenta una entrevista inédita las numerosas cartas muchas de ellas a personajes desconocidos y que la pintora jamás envi De Homo Rodans nico texto que Varo publicó en vida un Proyecto para una obra teatral textos de escritura automática surrealista sueños y apuntes fragmentos y proyectos que hacen de este libro un viaje por el universo tan mágico como humano de Remedios Varo Into the Mainstream Jorge M. Feblé, 2008 An outgrowth of the author's involvement with the annual conference of the American Culture Association and the Popular Culture Association It features a collection of essays that does not question barriers nor does it expound on the need to assign a discursive intellectual space to matters pertaining to popular culture
