Psychic and physical treatises; comprising the second and third Enneads** Plotinus, 1950 **The Ethical Treatises** Plotinus, 1926 Catalogus Translationum Et Commentariorum Virginia Brown, Paul Oskar Kristeller, Ferdinand Edward Cranz, 1992 At head of title Union academique internationale *Plotinus' Legacy* Stephen Gersh, 2019-04-25 Using a series of case studies from across European philosophical traditions this book traces the influence of Neoplatonism over the centuries **Plotinus** Plotinus, 1917 **The Library of Philosophical Translations. Plotinus: The ethical treatises with Porphyry's Life of Plotinus, and the Preller-Ritter Extracts forming a conspectus of the Plotinian system** Plotinus, 1917 *The Neoplatonists* John Gregory, 2014-05-01 This extensively revised and updated second edition of *The Neoplatonists* provides a valuable introduction to the thought of the four central Neoplatonist philosophers Plotinus Porphyry Proclus and Iamblichus *Quarterly Transactions of the British College of Psychic Science* British College of Psychic Science, 1928 **The Essence of Plotinus** Plotinus, Stephen Mackenna, 1976 **PLOTINUS Ennead V.1 On the Three Primary Levels of Reality** Eric D Perl, 2015-12-23 Plotinus Treatise V 1 comes closer than any other to providing an outline of his entire spiritual and metaphysical system and as such it may serve to some degree as an introduction to his philosophy It addresses in condensed form a great many topics to which Plotinus elsewhere devotes extended discussion including the problem of the multiple self eternity and time the unity in duality of intellect and the intelligible and the derivation of intelligible being from the One Above all it shows that the so called three hypostases soul intellect and the One are best understood not as a sequence of three things additional to one another but as three levels of possession of the same content so that each lower level soul in relation to intellect and intellect in relation to the One is an image and expression of its superior Plotinus exhorts the human soul to overcome its alienation from its own true nature and its divine origin by first recognizing itself as superior to the body and the same in kind as the animating principle of the entire cosmos and then discovering within itself the still higher levels of reality from which it derives intellect and ultimately the One or Good the supreme first principle of all things To do so the soul must redirect its attention inward and upward to become aware of the divinity which is always within it but from which it is distracted by the clamor of the senses **Proceedings of the Society**

for Psychical Research Society for Psychical Research (Great Britain),1928 List of members in v 1 19 21 24 *The Philosophy of the Few against the Christians* Pier Franco Beatrice,2023-11-13 This book gives us a new perspective on the Philosophy according to the Chaldean Oracles by Porphyry of Tyre ca 232 305 CE demonstrating that much of what we thought we knew about this work and its fragments is mistaken Here for the first time the attempt is made at reconstructing the original text by following the vicissitudes of its reception and transmission from Late Antiquity through the Middle Ages and the Renaissance up to modern scholarship The extensive and painstaking study of the surviving fragments leads to the radically innovative conclusion that this encyclopedic treatise written by Porphyry in the last decades of the 3rd century CE consisted of fifteen books organized in various sections After an initial discussion of the nature of theurgy and of its subordinate role with respect to philosophy Porphyry describes the entire history of Greek philosophy from Homer up to his own teacher Plotinus to then go on to present introductions to the seven encyclical disciplines whose study is required for the comprehension of theosophy that is the esoteric speculation on the three parts of philosophy anthropology ethics physics and metaphysics theology By harmonizing the teachings of Plato Aristotle Plotinus and the Chaldean Oracles Porphyry intends to present the complete and definitive philosophic system with the aim of showing the universal way for the liberation of the souls of initiates and of contextually fighting the final battle of the Greco Roman civilization against Christianity

PLOTINUS Ennead IV.3-4.29 John Blumenthal H.J. Dillon,2015-03-18 For Plotinus the nature and status of the human soul is one of the central problems of philosophy Ennead IV 3 4 29 constitutes his most penetrating enquiry into this topic addressing the issues of the relation of the individual soul to the World Soul the descent of the soul into body its relations with that body problems of personal identity and the nature of memory sense perception and the true seat of the emotions many of which still have a resonance today The treatise is an excellent example of Plotinus distinctive method of enquiry not dogmatic though he is no sceptic but worrying away at questions until he has uncovered their complexities to the best of his ability Such a work requires detailed commentary such as is provided here to tease out fully the fascinating convolutions of his thought Proceedings Society for Psychical Research,1928 Plato and Plotinus on Mysticism, Epistemology, and Ethics David J. Yount,2017-02-23 This book argues against the common view that there are no essential differences between Plato and the Neoplatonist philosopher Plotinus on the issues of mysticism epistemology and ethics Beginning by examining the ways in which Plato and Plotinus claim that it is possible to have an ultimate experience that answers the most significant philosophical questions David J Yount provides an extended analysis of why we should interpret both philosophers as mystics The book then moves on to demonstrate that both philosophers share a belief in non discursive knowledge and the methods to attain it including dialectic and recollection and shows that they do not essentially differ on any significant views on ethics Making extensive use of primary and secondary sources *Plato and Plotinus on Mysticism Epistemology and Ethics* shows the similarities between the thought of these two philosophers on a variety of philosophical questions such as meditation

divination wisdom knowledge truth happiness and love *PLOTINUS Ennead IV.8* Barrie Fleet, 2012-06-06 Plotinus was much exercised by Plato's doctrines of the soul. In this treatise at chapter 1 line 27 he talks of the divine Plato who has said in many places in his works many noble things about the soul and its arrival here so that we can hope for some clarity from him. So what does the philosopher say? It is clear that he does not always speak with sufficient consistency for us to make out his intentions with any ease. The issue in this treatise is one that has puzzled students of Plato from ancient to modern times and is indeed a popular topic for undergraduate essays even today. Why should the philosopher who has ascended through a long and painful process of dialectic to assimilation to the divine ever descend back into the body? Plotinus himself is said by Porphyry to have attained such a state of otherworldly transcendence on at least four occasions during his lifetime so this was a very real and personal issue for him. In this treatise we see him grappling with it. *A Text Worthy of Plotinus* Suzanne Stern-Gillet, Kevin Corrigan, José C. Barakat Jr., 2021-02-08 *A Text Worthy of Plotinus* makes available for the first time information on the collaborative work that went into the completion of the first reliable edition of Plotinus' *Enneads*. Plotini Opera editio maior three volumes Brussels Paris and Leiden 1951 1973 followed by the editio minor three volumes Oxford 1964 1983. Pride of place is given to the correspondence of the editors Paul Henry S J and Hans Rudolf Schwyzler with other prominent scholars of late antiquity amongst whom are E R Dodds B S Page A H Armstrong and J Igal S J. Also included in the volume are related documents consisting in personal memoirs course handouts and extensive biographical notices of the two editors as well as of those other scholars who contributed to fostering the revival of Plotinus in the latter half of the 20th century. Taken together letters and documents let the reader into the problems codicological exegetical and philosophical that are involved in the interpretation of medieval manuscripts and their transcription for modern readers. Additional insights are provided into the nature of collaborative work involving scholars from different countries and traditions. *A Text Worthy of Plotinus* will prove a crucial archive for generations of scholars. Those interested in the philosophy of Plotinus will find it a fount of information on his style manner of exposition and handling of sources. The volume will also appeal to readers interested in broader trends in 20th century scholarship in the fields of Classics History of Ideas Theology and Religion.

Ancient Philosophy of Religion Graham Oppy, N. N. Trakakis, 2014-09-12 The origins of the Western philosophical tradition lie in the ancient Greco-Roman world. This volume provides a unique insight into the life and writings of a diverse group of philosophers in antiquity and presents the latest thinking on their views on God, the gods, religious belief and practice. Beginning with the pre-Socratics, the volume then explores the influential contributions made to the Western philosophy of religion by the three towering figures of Socrates, Plato and Aristotle. The chapters that follow cover the leading philosophers of the major schools of the ancient world: Epicureanism, Stoicism, Neoplatonism and the early Christian Church. *Ancient Philosophy of Religion* will be of interest to scholars and students of Philosophy, Classics and Religion while remaining accessible to any interested in the rich cultural heritage of ancient religious thought.
