**An Extraordinary Woman** Germaine de Staël, 1987-08-18 **An Extraordinary Woman** **Germaine de Staël, George Sand, and the Victorian Woman Artist** Linda M. Lewis, 2003 By examining literary portraits of the woman as artist Linda M Lewis traces the matrilineal inheritance of four Victorian novelists and poets George Eliot Elizabeth Barrett Browning Geraldine Jewsbury and Mrs Humphry Ward She argues that while the male Romantic artist saw himself as god and hero the woman of genius lacked a guiding myth until Germaine de Stael and George Sand created one The protagonists of Stael s Corinne and Sand s Consuelo combine attributes of the goddess Athena the Virgin Mary Virgil s Sibyl and Dante s Beatrice Lewis illustrates how the resulting Corinne Consuelo effect is exhibited in scores of English artist as heroine narratives particularly in the works of these four prominent writers who most consciously and elaborately allude to the French literary matriarchs Exploring a connection between French and English literature and providing fresh insight Germaine de Stael George Sand and the Victorian Woman Artist makes a major contribution to our understanding of nineteenth century feminism Jacket **Stael's Philosophy of the Passions** Tili Boon Cuillé, Karyna Szmurlo, 2013 Sensibility or the capacity to feel played a vital role in philosophical reflection about the natural sciences the social sciences and the arts in eighteenth century France Yet scholars have privileged the Marquis de Sade s vindication of physiological sensibility as the logical conclusion of Enlightenment over Germaine de Staël s exploration of moral sensibility s potential for reform and renewal that paved the way for Romanticism This volume of essays showcases Staël s contribution to the affective revolution in Europe investigating the personal and political circumstances that informed her theory of the passions and the social and aesthetic innovations to which it gave rise Contributors move seamlessly between her political philosophical and fictional works attentive to the relationship between emotion and cognition and aware of the coherence of her thought on an individual national and international scale They first examine the significance Staël attributed to pity happiness melancholy and enthusiasm in *The Influence of the Passions* as she witnessed revolutionary strife and envisioned the new republic They then explore her development of a cosmopolitan aesthetic in such works as *On Literature Corinne or Italy On Germany and The Spirit of Translation* that transcended traditional generic national and linguistic boundaries Finally they turn to her contributions to the visual and musical arts as she deftly negotiated the transition from a Neoclassical to a Romantic aesthetic Staël s *Philosophy of the Passions* concludes that rather than founding a republic based on the rights of man Staël s reflection fostered international communities of women artists models and collectors authors performers and spectators enabling them to participate in the re articulation of sociocultural values in the wake of the French Revolution Contributors Tili Boon Cuillé Catherine Dubeau Nanette Le Coat Christine Dunn Henderson Karen de Bruin M Ione Crummy Jennifer Law Sullivan Lauren Fortner Ravalico C C Wharram Kari Lokke Susan Tenenbaum Mary D Sheriff Heather Belnap Jensen Fabienne Moore Julia Effertz **Germaine de Staël in Germany** Judith E. Martin, 2011-05-12 Germaine de Staël and German

Women Gender and Literary Authority 1800 1850 investigates Staël's significance as an icon of female artistic genius and political engagement for two generations of German women including Caroline A Fischer, Caroline Pichler, Johanna Schopenhauer, Bettina von Arnim, Ida Hahn-Hahn and Luise Mühlbach. These authors drew a significant impetus from Staël's exemplary life and writings, especially her influential novels of political and artistic heroines, *Delphine* (1802) and *Corinne or Italy* (1807), referring to them in order to authorize their own discourses on art and politics and to buttress their identity as writers in a period when female authorship generated intense controversy. Taking references to Staël and her texts as a starting point opens fresh perspectives on German women's novels while at the same time revealing their authors' participation in the broader European women's literary tradition. Whereas several novels from the first decade of the century echo *Delphine* by uniting domestic fiction with political themes, Staël's epoch-making novel of female poetic genius, *Corinne*, left a more lasting literary legacy in a tradition of German female artist novels. *Corinne* exemplified the creative woman's dilemma between fame and love, and subsequent German novelists explore this conflict while several also emulate Staël's myth-making in *Corinne* as a strategy for attributing transcendent genius to their heroines. Reading for subtexts of female self-expression and development brings to light counter-narratives of female creative transcendence often evoked through allusions to mythological figures. Martin suggests a revision of German literary history by uncovering a neglected tradition of artist novels positioned between the German *Künstlerroman* and Staël's newly inaugurated international dialogue on women's role in public culture.

**A History of Women's Writing in France** Sonya Stephens, 2000-05-22 This volume was the first historical introduction to women's writing in France from the sixth century to the present day. Specially commissioned essays by leading scholars provide an introduction in English to the wealth and diversity of French women writers, offering fascinating readings and perspectives. The volume as a whole offers a cohesive history of women's writing which has sometimes been obscured by the canonisation of a small feminine elite. Each chapter focuses on a given period and a range of writers, taking account of prevailing sexual ideologies and women's activities in or their relation to the social, political, economic and cultural surroundings. Complemented by an extensive bibliography of primary and secondary works and a biographical guide to more than one hundred and fifty women writers, it represents an invaluable resource for those wishing to discover or extend their knowledge of French literature written by women.

**Corinne** Madame de Staël, 2008-10-09 *Corinne or Italy* (1807) is both the story of a love affair between Oswald, Lord Nelvil, and a beautiful poetess, and a homage to the landscape, literature and art of Italy. Staël weaves discreet French Revolutionary political allusion and allegory into her romance, whose publication saw her order of exile renewed by Napoleon. This new translation is complemented by notes and an introduction which serve to set an extraordinary work of European Romanticism in its historical and political contexts.

*The Woman of Ideas in French Art, 1830-1848* Janis Bergman-Carton, 1995-01-01 Women in 19th-century French art were represented as victims of a harsh urban working-class life. This book offers the argument that this representation obscured

the model woman of ideas a prominent figure in the narratives of French national and sexual politics     Tracing Women's Romanticism Kari E. Lokke, 2004-09-09 This volume argues that the k nstlerromane of Mary Shelley Bettine von Arnim and George Sand offer feminist understandings of history and transcendence that constitute a critique of Romanticism from within     *Haunted Museum* Jonah Siegel, 2021-04-13 For centuries southern Europe and Italy in particular has offered writers far more than an evocative setting for important works of literature The voyage south has been an integral part of the imagination of inspiration Haunted Museum is a groundbreaking in depth look at fantasies of Italy from the late eighteenth to the early twentieth centuries focusing on a literary tradition Jonah Siegel terms the art romance the fantastic voyage south understood as the register of an ambivalent desire for art and a heightened experience of reality Siegel argues that Italy s allure derives not only from its celebrated promise of unique natural beauty and prized antiquities but from the opportunity it offers writers to place themselves in relation to a web of prior accounts of travel to the native land of genius Beginning with Goethe as the founding figure of the tradition Haunted Museum moves from a rich reframing of literature from the first half of the nineteenth century including new readings of works by Byron de Sta l Barrett Browning and others to an ambitious examination of Henry James s well known engagement with Europe newly understood as a response to this important literary legacy Readings of works by Freud Forster Mann and Proust demonstrate the longevity of the tradition of looking to Italy for the representation of desires as impossible to satisfy as they are to deny     *Gender and Voice in the French Novel, 1730-1782* Aurora Wolfgang, 2017-03-02 Analyzing four best selling novels by both women and men written in the feminine voice this book traces how the creation of women centered salons and the emergence of a feminine poetic style engendered a new type of literature in eighteenth century France The author argues that writing in a female voice allowed writers of both sexes to break with classical notions of literature and style so that they could create a modern sensibility that appealed to a larger reading public and gave them scope to innovate with style and form Wolfgang brings to light how the female voice in literature came to embody the language of sociability but also allowed writers to explore the domain of inter subjectivity while creating new bonds between writers and the reading public Through examination of Marivaux s *La Vie de Marianne* Graffigny s *Lettres d une P ruviennne* Riccoboni s *Lettres de Mistriss Fanni* Butlerd and Laclos s *Les Liaisons dangereuses* she shows that in France this modern feminine sensibility turned the least prestigious of literary genres the novel into the most compelling and innovative literary form of the eighteenth century Emphasizing how the narratives analyzed here refashioned the French literary world through their linguistic innovation and expression of new forms of subjectivity this study claims an important role for feminine voice narratives in shaping the field of eighteenth century literature     A Handbook of Romanticism Studies Joel Faflak, Julia M. Wright, 2016-01-19 The Handbook to Romanticism Studies is an accessible and indispensable resource providing students and scholars with a rich array of historical and up to date critical and theoretical contexts for the study of Romanticism Focuses on British Romanticism while also addressing continental and transatlantic

**The Seduction Narrative in Britain, 1747-1800** Katherine Binhammer, 2009-09-24 Eighteenth century literature displays a fascination with the seduction of a virtuous young heroine most famously illustrated by Samuel Richardson's *Clarissa* and repeated in 1790s radical women's novels in the many memoirs by fictional or real penitent prostitutes and in street print Across fiction ballads essays and miscellanies stories were told of women's mistaken belief in their lovers' vows In

this book Katherine Binhammer surveys seduction narratives from the late eighteenth century within the context of the new ideal of marriage for love and shows how these tales tell varying stories of women's emotional and sexual lives Drawing on new historicism feminism and narrative theory Binhammer argues that the seduction narrative allowed writers to explore different fates for the heroine than the domesticity that became the dominant form in later literature This study will appeal to scholars of eighteenth century literature social and cultural history and women's and gender studies     **The Making of the West, Combined Volume** Lynn Hunt, 2012-01-04 Students of Western civilization need more than facts They need to understand the cross cultural global exchanges that shaped Western history to be able to draw connections between the social cultural political economic and intellectual happenings in a given era and to see the West not as a fixed region but a living evolving construct These needs have long been central to The Making of the West The book's chronological narrative emphasizes the wide variety of peoples and cultures that created Western civilization and places them together in a common context enabling students to witness the unfolding of Western history understand change over time and recognize fundamental relationships Read the preface
