Nisei linguists: Japanese Americans in the Military Intelligence Service

During World War II (Paperbound) James C. McNaughton,2006 This book tells the story of an unusual group of American soldiers in World War II second generation Japanese Americans Nisei who served as interpreters and translators in the Military Intelligence Service Preface

From Ally to Enemy Philip Towle,2021-11-01 This study closely researched by Philip Towle over the past thirty years is principally concerned with the military relations between Britain and Japan during the first half of the twentieth century and the ambivalence misunderstandings and misconceptions that informed their relationship described by the author as an epic tragedy Following the signing of the Anglo Japanese Alliance in 1902 Japan was held up as a model in Britain and Britain in Japan But within a generation the British came to see Japan as the first country to challenge the League of Nations and to begin a new age of imperialism Conversely the Japanese armed forces saw Britain as the greatest obstacle to Japanese ambitions in China and elsewhere In 1936 Lieutenant Commander Tota Ishimaru s book Japan Must Fight Britain was printed in Britain its significance ignored at many levels and five years later the two countries were at war The feelings stirred up by that conflict notes Towle still have resonance today From Ally to Enemy brings together a most important body of research that is long overdue in book form and will be widely welcomed by historians and researchers of the period as well as those seeking more detailed analysis of specific aspects of the pre war Anglo Japanese military relationship

Japanese Prisoners of War Philip Towle,Margaret Kosuge,Yoichi

Kibata,2000-01-01 During the Second World War the Japanese were stereotyped in the European and American imagination as fanatical cruel and almost inhuman This view is unhistorical and simplistic It fails to recognise that the Japanese were acting at a time of supreme national crisis and it fails to take account of their own historical tradition The essays in Japanese Prisoners of War by both Western and Japanese scholars explore the question from a balanced viewpoint looking at it in the light of longer term influences notably the Japanese attempt to establish themselves as an honorary white race The book also addresses the other side of the question looking at the treatment of Japanese prisoners in Allied captivity

Black Yanks in the Pacific Michael Cullen Green,2011-05-02 By the end of World War II many black citizens viewed service in the segregated American armed forces with distaste if not disgust Meanwhile domestic racism and Jim Crow ongoing Asian struggles against European colonialism and prewar calls for Afro Asian solidarity had generated considerable black ambivalence toward American military expansion in the Pacific in particular the impending occupation of Japan However over the following decade black military service enabled tens of thousands of African Americans to interact daily with Asian peoples encounters on a scale impossible prior to 1945 It also encouraged African Americans to share many of the same racialized attitudes toward Asian peoples held by their white counterparts and to identify with their government s foreign policy objectives in Asia In Black Yanks in the Pacific Michael

Cullen Green tells the story of African American engagement with military service in occupied Japan war torn South Korea and an emerging empire of bases anchored in those two nations After World War II African Americans largely embraced the socioeconomic opportunities afforded by service overseas despite the maintenance of military segregation into the early 1950s while strained Afro Asian social relations in Japan and South Korea encouraged a sense of insurmountable difference from Asian peoples By the time the Supreme Court declared de jure segregation unconstitutional in its landmark 1954 Brown v Board of Education decision African American investment in overseas military expansion was largely secured Although they were still subject to discrimination at home many African Americans had come to distrust East Asian peoples and to accept the legitimacy of an expanding military empire abroad
