Impossible Dance Fiona Buckland, 2012-01-01 Impossible Dance is a highly accessible original and engaging account of the complex and often heavily theorized debates around the body identity and community Focusing on gay lesbian and queer club culture in the 1990s New York City this is the first book to bring together vital issues such as dance culture queer community sex culture HIV identity and politics Based on four years of field work the book takes readers on a journey from the streets of New York City into the dance clubs and onto the dance floor Detailed interviews with club goers capture their perspectives on how they stage their self fashioning through dancing Fiona Buckland argues that such dancing embodies and rehearses a powerful political imagination laying claim to the space and to one's body as queer

Fictitious & Symbolic Creatures in Art with Special
Magickal Mermaids and Water Creatures D. J.

Conway, 2019-12-01 Brings these fabled creatures out of the storybooks and into real life Stories of the merfolk especially mermaids exist in nearly every culture that ever sailed the oceans or large rivers Humanlike except for their iridescent scaly tails mermaids and mermen have fascinated humans for thousands of years Because the largest of these beings exist in the oceans most people are not aware that smaller versions of the merfolk live in inland rivers streams marshes and waterfalls Like many other magical beings the merfolk travel easily between this world and the astral planes appearing only to those who truly seek to know them and learn their ancient powers Magickal Mermaids and Water Creatures bring these fabled creatures out of the storybooks and into real life through the studies of D J Conway Within the pages you will learn The secret powers of mermaids and mermen Different water creatures and where you can find them How to entice water folk for friendship and health How to avoid dangerous water folk This book was originally published in 2008 It is republished here with a new cover and a new foreword by Skye Alexander **Superstitions about Animals** Frank F. Gibson, 1904

Metaphor, Nation and the Holocaust Andreas Musolff, 2010-08-13 This book is the first to provide a cognitive analysis of the function of biological medical metaphors in National Socialist racist ideology and their background in historical traditions of Western political theory Its main arguments are that the metaphor of the German nation as a body that needed to be rescued from a deadly poison must be viewed as the conceptual basis rather than a mere propagandistic by product of Nazi genocidal policies culminating in the Holocaust and that this metaphor is closely related to the more general metaphor complex of the nation as a human body person which is deeply ingrained in Western political thought The cognitive approach is crucial to understanding the nature and the origins of this metaphor complex because it goes beyond the rhetorical level by analyzing the ideological and practical implications of the conceptual mapping body state in detail It provides an innovative perspective on the problem of how the Nazis managed to revive a cliché metaphor tradition to the point where it became a decisive factor in European and world history Musolff reveals how such a perspective allows us to explain why the body state metaphor continues to be attractive for use in contemporary political theories *Learning and science.*

Literature. Games and pastimes. Religion. Index Christiaan Snouck Hurgronje, 1906

The Achehnese C Snouck

Hurgronje, 2024-09-16 The Accommodated Animal Laurie Shannon, 2013-01-02 Shakespeare wrote of lions shrews horned toads curs mastiffs and hellhounds But the word animal itself only appears very rarely in his work which was in keeping with sixteenth century usage As Laurie Shannon reveals in The Accommodated Animal the modern human animal divide first came strongly into play in the seventeenth century with Descartes's famous formulation that reason sets humans above other species I think therefore I am Before that moment animals could claim a firmer place alongside humans in a larger vision of belonging or what she terms cosmopolity With Shakespeare as her touchstone Shannon explores the creaturely dispensation

that existed until Descartes She finds that early modern writers used classical natural history and readings of Genesis to credit animals with various kinds of stakeholdership prerogative and entitlement employing the language of politics in a constitutional vision of cosmic membership Using this political idiom to frame cross species relations Shannon argues carried with it the notion that animals possess their own investments in the world a point distinct from the question of whether animals have reason It also enabled a sharp critique of the tyranny of humankind By answering the question of the animal historically *The Accommodated Animal* makes a brilliant contribution to cross disciplinary debates engaging animal studies political theory intellectual history and literary studies
