Hospitality and the Enlightenment (Encountering China) Anni Greve, 2025-08-01 With the change of power in Washington the word Enlightenment has taken on a dramatic topicality that no one could have wished for The wisdom of the eighteenth century could not be more relevant This book demonstrates a relationship between hospitality towards the foreigner and the European Enlightenment a relationship that is relevant to today's landscape Greve begins by unfolding the philosophy of hospitality by reading both Immanuel Kant and Jacques Derrida Next she tunes in on China in global history to discuss the kind of hospitality offered to all foreigners with the Canton system of 1757 the hospitality offered to Sephardic diaspora groups involved in credit relations and Macau a free port city a rehearsal space for friendship and conversation Then the book turns to Copenhagen during the Age of the Enlightenment to look more closely at a burgeoning layer of bourgeoisie involved in financial speculation abroad What significance did the circulation of merchant letters from the Pearl River Delta have for conversations in Copenhagen It also points to the significance of free port cities for the spirit of the Enlightenment Finally the book returns to contemporary China What has the opening of China in the new era after Mao Zedong implied And how do we understand a desire for a New Enlightenment first in the late 1980s in Beijing and then in the 2020s in the free port city of Hong Kong The volume is a valuable resource for students and scholars interested in the Enlightenment diaspora studies Sephardic Jews urban studies philosophy sociology and China in global history Mutual Hierarchy Jeffrey A. Dukeman, 2019-02-22 Social Trinitarians have not been shy about positing community as the chief ontological category for Trinitarian discourse As beneficial as this is social Trinitarians have typically been less helpful in advocating the sort of

human community for the Trinitarian analogy that most people would probably find desirable To use the example of a marriage one has often been forced to choose between a fully egalitarian view where the spouses supposedly have no differences from each other and a hierarchical view where a husband exercises a unilateral and oppressive power over his wife This book advocates a third alternative for the sort of community present in the Trinity Just as genuine teamwork is generally desirable in various human communities the divine persons have a mutual hierarchy relationship with each other Here each divine person has a unique hierarchy over the others and yet each uses this hierarchy to serve the others in a dignified way Recognizing this mutual hierarchy of the divine persons fosters a view of the Trinity that is maximally social in keeping with the name social Trinitarianism In proceeding thus the book attempts to in a unique way show the harmony between systematic theology exegesis and practice *Contemporary Sociological Thinkers and Theories* Sandro Segre, 2016-05-13 This book offers a comprehensive overview of the major theoretical perspectives in contemporary sociology covering schools of thought or intellectual movements within the discipline as well as the work of individual scholars The author provides not only a rigorous exposition of each theory but also an examination of the scholarly reception of the approach in question considering both critical responses and defences in order to reach a balanced evaluation Chapters cover the following theorists and perspectives Alexander Bourdieu Ethnomethodology Exchange Theory Foucault Giddens Goffman Habermas Luhmann Merton Network and Social Capital Theory Parsons Rational Choice Theory Schutz and Phenomenalism Structuralism Symbolic Interactionism An accessible and informative treatment of the central approaches in sociology over the course of the last century this volume marks a significant contribution to sociological theory and constitutes an essential addition to library collections in the areas of the history of sociology and contemporary social theory

**Organizational Design for Knowledge Management** Mona Ben Chouikha, 2016-02-11 Information and communication technologies have increased their share of services in contemporary economic exchanges We are witnessing a transformation of modern economies characterized by a predominant role of information and knowledge in the production of wealth In order to make this intangible resource bear fruit organizations are looking for ways methods procedures processes and technical solutions to efficiently manage knowledge Within a framework of research into synergies and resource interdependence organizations also rely on strategic alliances joint venture mergers or other legal forms of association that have an impact on knowledge management This book explores the range of knowledge management techniques *Apostasie* Avishai Margalit, 2012 English summary Why betrayal It seems today that the idea of betrayal has lost its grip After all infidelity as a breach of sexual monogamy is relegated nowadays in liberal countries to the private sphere of personal relations Apostasy is rendered in liberal societies not as an act of betrayal but rather a basic human right Avishai Margalit's concern with apostasy is not a concern with theology namely with God but with philosophical anthropology namely with human beings He believes that the main challenge to anyone who believes in the project of ethics and in the importance and viability of the notion of

betrayal is to disentangle the notion of betrayal from its feudal underpinnings In his concept of a decent society Margalit succeeds in incorporating into any political pragmatism an indispensable ethical and moral dimension which is constitutionally and consistently orientated to the basic principle of human dignity German description Warum Verrat Heute scheint die Vorstellung von Verrat kein Thema mehr zu sein So bleibt heutzutage in liberalen Staaten etwa Untreue als Verletzung sexueller Monogamie auf die Privatsphäre persönlicher Beziehungen beschränkt Apostasie ist in liberalen Gesellschaften von einem Akt des Verrats zu einem Grundrecht geworden Avishai Margalits Interesse an Apostasie ist kein theologisches sondern ein philosophisch anthropologisches es zielt nicht auf Gott sondern auf Menschen Seiner Meinung nach ist die größte Herausforderung für jeden der an das Projekt der Ethik und an die Wichtigkeit und Brauchbarkeit des Begriffs des Verrats glaubt den Begriff des Verrats von seiner feudalen Untermauerung zu befreien Mit dem Entwurf einer anständigen Gesellschaft gelingt es Margalit jedem politischen Pragmatismus eine unverzichtbare ethisch moralische Dimension einzuzuzeichnen die sich grundlegend und konsequent am Leitbild menschlicher Würde orientiert

Animate Planet Kath Weston, 2017-01-06 In *Animate Planet* Kath Weston shows how new intimacies between humans animals and their surroundings are emerging as people attempt to understand how the high tech ecologically damaged world they have made is remaking them one synthetic chemical radioactive isotope and megastorm at a time Visceral sensations she finds are vital to this process which yields a new animism in which humans and the environment become thoroughly entangled In case studies on food water energy and climate from the United States India and Japan Weston approaches the new animism as both a symptom of our times and an analytic with the potential to open

paths to new and forgotten ways of living      **Imago Trinitatis** Mark S. Medley, 2002-03-07 Imago Trinitatis contributes to the contemporary task of seeking to retrieve the central Christian symbol of the triune God. It interfaces the trinitarian theology of Catherine LaCugna and new anthropological models based on women's interpreted experience of relationality offered by feminist theologians especially the vision of the post-patriarchal self of Catherine Keller in order to delineate a theological conception of the human person as communion. By reinterpreting imago Dei as imago Trinitatis Mark Medley offers a proposal towards claiming that a trinitarian feminist theological anthropology understands human personhood as being formed and transformed in one's personal existence to God's personal existence as persons of communion.
