**The Fiske Guide to Colleges, 1995** Edward B. Fiske, Kathleen Blease, 1994 For more than ten years this guide has been the source of college information that students administrators and parents have trusted most No one book answers a comparable range of questions and offers such depth Printed on recycled paper *The Cumulative Book Index*, 1996 A world list of books in the English language What's Wrong with Sociology? Stephen Cole, 2018-04-17 Since the 1950s sociology has experienced a decline in prestige when compared with the other social sciences In some highly publicized cases some universities have retrenched their sociology departments others are contemplating either retrenchment or downsizing of their departments Although there are some practitioners of the discipline who believe that it has never been in better shape many sociologists have come to believe that there are very serious problems both in the cognitive and social organization of the discipline This book contains sixteen essays by sociologists who believe that their discipline faces very serious problems which must be overcome if the discipline is to survive and prosper The contributors were selected to represent diverse views and thus there is substantial disagreement among them over what the problems are that sociology faces and how they may be remedied In this highly provocative book readers are likely to find some essays they agree with and others they disagree with but all the essays present important problems faced by the discipline which must be addressed Although the authors of the sixteen essays do not agree on what is wrong with the discipline there are some themes which appear frequently In his introduction Cole summarizes and comments on these themes His introduction centers on the question of whether sociology is entirely socially constructed Is what we believe to be true about society constrained by empirical evidence or is it a result of our ideology power authority and other social processes One theme which appears in many of the essays is that sociology has become too ideological and as a result has lost credibility among university administrators politicians and the general public Many of the essays also stress the view that there are very low levels of consensus in sociology and that it is hard to see evidence of progress Others criticize the discipline for not dealing with the really important social issues and see much of the work published as being parochial and trivial Questions are also raised about why the use of causal models has failed to generate solutions to most of the problems the discipline addresses Some authors believe that the discipline adheres to an overly rational model of human behavior and has failed to keep up with some of the advances introduced by post modernist theories This highly readable set of essays should be of interest to all those concerned about the current state of sociology They will also be useful in introducing graduate students to some of the most important issues currently being debated in the field Stephen Cole is currently professor of sociology at the State University of New York at Stony Brook and professor of sociology at the University of Queensland Australia He is the author of *Making Science Between Nature and Society* and with Jonathan R Cole *Social Stratification in Science* **Fiske Guide to Getting into the Right College** Edward B Fiske, Bruce G Hammond, 2010-08-01 GET ACCEPTED TO THE COLLEGE THAT'S RIGHT FOR YOU Everyone has

their own idea of the perfect college and the best place for you to spend your college years may not be the most academically prestigious or have the best sports teams Going well beyond just college rankings the Fiske Guide to Getting into the Right College is the help you need to get started that's been trusted by hundreds of thousands of students parents and guidance counselors SIMPLIFY AND TAKE THE STRESS OUT OF COLLEGE SEARCH Choose the right type of schools for you including considering the strongest majors programs and courses Keep everything organized and filter out the marketing hype Plan and map your college visits and ask the right questions during campus tours Attract and even negotiate the best financial aid package This book is a guide not only to who you are but also to what kinds of schools will be great for you It starts with an easy but in depth assessment of your priorities then takes you step by step through the process of applying to the schools that are the best fit for you MAKE YOUR APPLICATIONS STAND OUT FROM THE CROWD Earn the test scores colleges want to see Write authentic admissions essays Submit an application that shows off your best features Know how admissions officers rank candidates Get off the waiting list and get accepted to your top schools GET ADVICE FROM THE EXPERTS Edward B Fiske served for seventeen years as education editor of the New York Times during which time he realized that college bound students and their families needed better information on which to base their educational choices He writes the 1 bestselling annual Fiske Guide to Colleges to help them Bruce G Hammond has devoted much of his time to counseling for college He served as managing editor of the Fiske Guide to Colleges and is director of college counseling at Dipont Educational Management

**Speaking the Lower Frequencies** Walter R. Jacobs, 2012-02-01 *Speaking the Lower Frequencies* demonstrates how students can be critical consumers of media while retaining the pleasure they derive from it In Walter R Jacobs s classes on media and society students use the instructor s experiences as a model for investigating their own histories By creating new social contexts and meanings the students learn to speak the lower frequencies Jacobs looks at the students reception and critique of pop culture texts like the movie *I Like It Like That* and the television show *The X Files* to provide evidence for the effects of alternative pedagogy on critical literacy He shows that when students are encouraged to be more than just passive receptors of the media they learn to develop active critical voices that they use both inside and outside the classroom Jacobs also explains how students can become more aware and active in attempts to create democratic possibilities for themselves and others
