Five Years After Rio Innovations In Environmental Policy

David William Pearce, Edward Barbier

Five Years After Rio Innovations In Environmental Policy:

Five Years After Rio ,1997-01-01 From Rhetoric to Actio Policies for Sustainable Development Selected Case Studies from the Policy Matrix Five Years After Rio ,1997 **Five Years After Rio** Banco Mundial,1997 **Environmental Policymaking in an Era of Climate Change** Matthew C. Nowlin,2019-05-08 As the world considers how to deal with the impacts of a changing climate it s vital that we understand the ways in which the United States policymaking process addresses environmental issues A mix of existing theory and original analysis Environmental Policymaking in an Era of Climate Change applies recent policy scholarship to questions of environmental governance with a particular focus on climate change The book examines how competing political actors influence policies within and across institutions focusing on both a macro level where formal bodies set the agenda and a meso level where issues are contained within policy subsystems Divided into two sections the book incorporates insights from political science and public policy to provide the reader with a better understanding of how environmental policy decisions are made Part I offers a framework for understanding environmental policymaking exploring the history of environmental policy and discussing the importance of values in environmental policy Part II applies the framework to the issue of climate change focusing on agenda setting and the role of formal institutions in the policymaking process covering topics that include Congress the Executive and Judicial branches and how climate change cuts across policy subsystem boundaries By placing specific climate change case studies in a broader context Environmental Policymaking in an Era of Climate Change will help students enrolled in political science public administration public policy and environmental studies courses as well as all those interested in the impacts of policy on climate change to understand what is and will likely continue to be one of the most pressing policy issues of our time

Blueprint for a Sustainable Economy David William Pearce,Edward Barbier,2000 First Published in 2000 Routledge is an imprint of Taylor Francis an informa company **Voices of the Poor** Deepa Narayan-Parker,1997-01-01 Poverty Social Capital and Survey Methodology What Is Poverty Inflatio Price Trends and Coping Strategies Gender Perspective Development for Whom Constraints on Agricultural Productivity Social Capital Credit and Savings **Policy Instruments for Environmental and Natural Resource Management** Thomas Sterner,2010-09-30 As Thomas Sterner points out the economic toolkit for dealing with environmental problems has become formidable It includes taxes charges permits deposit refund systems labeling and other information disclosure mechanisms Though not all these devices are widely used empirical application has started within some sectors and we are beginning to see the first systematic efforts at an advanced policy design that takes due account of market based incentives Sterner s book encourages more widespread and careful use of economic policy instruments Intended primarily for application in developing and transitional countries the book compares the accumulated experiences of the use of economic policy instruments in the U S and Europe as well as in select rich and poor countries in Asia Africa and Latin America Ambitious in scope the book discusses the design of instruments that can be

employed in a wide range of contexts including transportation industrial pollution water pricing waste fisheries forests and agriculture Policy Instruments for Environmental and Natural Resource Management is deeply rooted in economics but also informed by perspectives drawn from political legal ecological and psychological research Sterner notes that in addition to meeting requirements for efficiency the selection and design of policy instruments must satisfy criteria involving equity and political acceptability He is careful to distinguish between the well designed plans of policymakers and the resulting behavior of society A copublication of Resources for the Future the World Bank and the Swedish International Development Cooperation Agency Sida

Mining in Africa Bonnie Campbell, 2009-06-15 The continent of Africa is rich in minerals needed by Western economies but rather than forming the basis for economic growth the mining industry contributes very little to African development Investigating the impact of the 2003 Extractive Industries Review on a number of African countries the contributors find the root of the problem in the controls imposed on the African countries by the IMF and World Bank They aim to convince academics governments and industry that regulation needs to be reformed to create a mining industry favourable towards social economic and environmental development The book takes a multidisciplinary approach and provides a historical perspective of each country making it ideal for students of development studies and development organizations

Rural Well-being Ismail Serageldin, David R. Steeds, 1997 The Fourth Annual World Bank Conference on Environmentally Sustainable Development was convened in September 1996 with the aim to pursue four key goals 1 poverty reduction 2 widely shared growth 3 household national and global food security and 4 sustainable natural resource management This volume contains the presentations of all the plenary speakers as they are delivered or from written texts In addition it contains a summary of each of the thematic and regional roundtables as well as summaries of many of the associated and concurrent events The volume also reprints the background papers submitted by those who participated in the roundtables Full text statements from the associated event on Ethics Values Spiritually and Rural Well Being are also included

Cameroon Boniface Essama-Nssah, James Jerome Gockowski, 2000-01-01 This country case study part of the Operations Evaluation Department OED A Review of the 1991 World Bank Forest Strategy and Its Implementation evaluates World Bank operations in Cameroon for their consistency with the strategy The strategic aspects of those operations are judged here on their relevance effectiveness efficiency institutional development and sustainability The fundamental objective of the forest policy reform in Cameroon was to establish a transparent equitable and sustainable management system for forest resources The outcome of the reform process was limited for four reasons First the government of Cameroon lacked genuine commitment and the capacity to carry out the reform Second key actors in the reform process particularly foreign logging companies and the parliament chose to oppose it Third partners such as the World Bank failed to devise an implementation strategy compatible with the underlying dynamics of political and socioeconomic changes in Cameroon Finally while Cameroon s forest policy is well codified in documents it is poorly implemented Although the reforms

have led to increased tax revenues and increased the share of GDP attributable to the forest sector the structural underpinnings of the sector have been little affected Government agencies in the sector continue to be weak The international logging companies that dominate the sector continue to have a free hand in the development and use of the forest resources of Cameroon Local communities were left out of the reform process despite the declared objective to include them in forest resource management Overall the interventions of the Bank inside and outside the forest sector in Cameroon were relevant to its strategic objectives but they were neither efficacious nor efficient Because of weak institutional development the achievements are unlikely to be sustained The Bank should focus its future reform efforts in Cameroon on the collection and dissemination of relevant and reliable information working with a larger set of stakeholders and using more Cameroonian expertise to gain local perspective and build capacity The success of such an approach hinges on government commitment and the cooperation of other donor countries including those with timber interests in Cameroon

Subsidies in World Fisheries Matteo Milazzo, 1998-01-01 In the past six years the world's fishery sector has reached a turning point with global fish production reaching a plateau of approximately 100 million tons annually While aquaculture output continued to grow yields from capture fisheries were uneven and showed increasing signs of stagnation because of widespread overfishing and overcapitalization ineffective management deteriorating resource health declining or flat global harvests and inefficient economic and trade policies This paper examines the role of subsidies in fisheries **Rural**

Development Alex F. McCalla, Wendy S. Ayres, 1997-01-01 The Context If Rural Development Is So Important Why Is Not Happening Formulating Country Strategies and Building Consensus Improving the Existing Portfolio Using the International Arena to Generate Greater Commitment Areas of Concentration and Future Directions Vital Signs 1998-1999 Lester R.

Brown, 2014-04-08 First Published in 1998 In this seventh annual edition of VITAL SIGNS the team at the Worldwatch Institute bring together an eclectic selection of disparate trends to offer a unique multifaceted view of our rapidly changing world This vital resource and reference guide traces the scientific social economic and environmental trends that have and continue to shape our world Among the trends covered for the first time in VITAL SIGNS 1998 99 are frontier forests plantation forestry satellite launches minerals exploration small arms proliferation and female education This year's edition points out that global emissions of carbon the leading contributor to global climate change hit another new high while wind power has grown an amazing 26 per cent per year and sales of solar cells jumped a phenomenal 43 per cent in 1997 VITAL SIGNS is the most comprehensive source of environmental and social information available Advancing Sustainable

Development, 1997-01-01 This book is the first systematic analysis of Russia's poverty and living standards since the country's independence Its primary goal is to quantify the nature and extent of changes in the welfare of Russians during the course of transition and beyond Part 1 establishes the economic and methodological framework within which poverty in the Russian Federation is studied Part 2 comprises a series of chapters that analyze poverty profiles and trends ranging across monetary

and non monetary indicators Part 3 addresses selected critical aspects of the system of social support in the impact of public transfers the extent of private interhousehold transfers and public opinion about social problems **Social Assessments for Better Development** Michael M. Cernea,Ay?e Kudat,1997-01-01 This annual report lists and describes the World Bank Group s portfolio of projects designed to improve or protect the environment all of which were under implementation during fiscal year 1996 July 1 1995 to June 30 1996 The first part of the report discusses significant environmental issues for each sector and region and describes the environmental activities of various parts of the World Bank Group Boxes tables and figures supplement the narrative A useful bibliography of World Bank publications on environmental topics closes the section The second part consists of reports on environmentally targeted projects World Bank and International Finance Corporation IFC projects that required a full environmental assessment because of their potential impacts investment operations supporting projects launched by the Global Environment Facility and projects designed to help developing countries comply with the Montreal Protocol a multilateral treaty that controls the production and consumption of ozone depleting substance

Adaptive Governance of Disaster Margot A. Hurlbert,2017-08-07 This book provides a comparative analysis of policy instruments designed to respond to climate change drought and floods in connection with agricultural producers and their communities in four case study areas Alberta and Saskatchewan Canada Coquimbo Chile and Mendoza Argentina Assessed from the standpoint of effectiveness and adaptive governance instruments for improving the livelihood capitals of agricultural producers are identified and recommendations to improve the suite of policy instruments are put forward **Greening**

Industrialization in Asian Transitional Economies A. P. J. Mol,Joost C. L. van Buuren,2003-01-01 Studying transition economies is one of the most challenging tasks faced by those who wish to understand the political social and economic changes that the world has undergone since the end of the Cold War Greening Industrialization in Asian Transitional Economies is a collection of essays which examine environmental performance and the transition to market economies particularly in China and Vietnam A comprehensive assessment of the state of industrial environmental management this informative volume looks at the movement for cleaner production from many perspectives analyzing its historical roots its political influences its implementation and its economic and technological feasibility Readers of these excellent essays will be left with an in depth understanding of both the necessity for environmental improvements in rapidly industrializing economies and the difficulties and challenges which this goal entails An ambitious and important project Greening Industrialization in Asian Transitional Economies provides a wide ranging analysis of a vital topic **The World**

Commission on Protected Areas, 2nd Southeast Asia Regional Forum, Pakse, Lao PDR, 6-11 December 1999:

Papers presented IUCN World Commission on Protected Areas. Southeast Asia Regional Forum,2000 Max Planck

Yearbook of United Nations Law Jochen A. Frowein,Rüdiger Wolfrum,1999-09-07 Contents **Technology, Globalization, and Sustainable Development** Nicholas A Ashford,Ralph P Hall,2018-08-06 Technology Globalization and Sustainable

Development offers a unified transdisciplinary approach for transforming the industrial state in order to promote sustainable development. The authors present a deep analysis of the ways that industrial states both developed and developing are currently unsustainable and how economic and social welfare are related to the environment, to public health and safety, and to earning capacity and meaningful and rewarding employment. The authors offer multipurpose solutions to the sustainability challenge that integrate industrial development, employment, technology, environment, national and international law, trade, finance, and public and worker health and safety. The authors present a compelling wake up call that warns of the collision course set between the current paths of continued growth and inevitable unsustainability in the world today. Offering clear examples and real solutions, this textbook illustrates how the driving forces that are currently promoting unsustainability can be refocused and redesigned to reverse course and improve the state of the world. This book is essential reading for those teaching and studying sustainable development and the critical roles of the economy, employment, and the environment.
