Harper,2006-12-13 The 21st Century brings all new rules Entrepreneurs are challenging conventional wisdom and thinking outside the box One of the first challenges involves challenging the assumption that a business has to be big to be successful While most of the 20th century heralded big businesses it is clear that businesses no longer have to be big to do big business Now it is possible for a handful of people to operate a global business from virtually any place on the planet Today the keyboard has overtaken the boardroom Financial markets alliances and joint ventures have eliminated the need for entrepreneurs to put up substantial capital investments Today s businesses are driven by ideas innovation and execution This book will show entrepreneurs and business leaders will provide CEOs and entrepreneurs with the tools that they will need to become leaders in their market Entrepreneurship in Finance Henri Arslanian,2016-11-15 Thinking of launching your own hedge fund Want to learn more about the different steps involved in setting up and scaling a hedge fund Want to understand what are the global best practices in order to grow your existing hedge fund and attract institutional investors This book is the first hands on publication to set out in concrete and practical terms the various steps and considerations necessary to successfully launch and manage a hedge fund in Asia with a particular focus on Hong Kong and Singapore Whilst most other hedge fund books cover the investment side of the hedge fund business this book specifically provides in depth insights into the crucial and often misunderstood non investment aspects involved in launching a hedge fund business It places particular focus on the legal regulatory fund structuring tax governance capital raising fund terms budgeting talent office space technology operational and service provider selection considerations from the pre launch phase to the expansion and institutionalisation of the business It is written for any individual or team aiming to launch a hedge fund and seeking practical and experienced guidance any existing hedge fund manager looking to grow and attract institutional quality capital and investors any fund manager or other industry participant globally intending to set up a presence in Asia any academic looking to learn more about the practical aspects of the hedge fund industry any student hoping to discover more about the hedge fund industry as a career choice *Resources in Education* ,1998 *The Complete Guide to Running Successful Workshops & Seminars* Kristie Lorette,2014-11-15 A typical workshop doesn t always sound intriguing in fact it s something most people try to avoid attending Still seminars are held each year in many fields and industries and usually none are alike While thousands of executives employees and other professionals dread hours of lectures and preaching that the average conference involve the one you re planning doesn t have to be the norm The Complete Guide to Running Successful

Workshops Seminars is your complete guide to putting together an effective conference that is sure to be a hit from start to finish regardless of your field and audience. In this new book you will learn the ins and outs of planning a workshop from general decisions about how long the event will last to the minute details such as where each person will check in and sit. This complete guide will teach you how to effectively target and communicate with your audience so you can give your attendees the information they were missing. You will learn about the basics of leading a training program such as what characteristics you should portray to show your authority and credibility as well as the general structural elements of a workshop seminar and conference. This comprehensive book will help you define the reason why you are holding a workshop and will teach you to succinctly create an objective for your participants so that you are destined for success. You will even learn how to evaluate and measure your success during and after the event to prove your true effectiveness and determine your program's strengths and weaknesses. Filled with information about how to build a budget, planning, scheduling, and get funding for your workshop, this book addresses the financial aspect of holding an hour, day, or weekend workshop so that you can adequately allocate your money. This comprehensive guide has it all and will teach you everything you need to know to plan, promote, and present a conference.

Library Management Bridgit McCafferty, 2021-05-26. Most professional librarians even recent graduates manage something, whether it be a project, service department, or a whole library. This book explains the different managerial roles at libraries, looking at the levels of managers, what they do, and how they do it. The goal is to explore the unique challenges faced by different types of library managers in order to prepare early and mid-career librarians to step into new roles and to think about how they might progress toward upper management in a library. The approach is practice-driven with a particular focus on the soft skills that are needed to be successful as a manager. *Library Management: A Practical Guide for Librarians* features three parts: project management, middle management, and upper management. These sections cover the different kinds of challenges that face people at each level of their career, exploring how these challenges can help prepare librarians for promotion to the next level. The purpose of these sections is to show how management skills develop over the course of one's career and to explore how leaders change from context to context. Though each section focuses on a particular level of authority, the lessons can be useful for and applied to all of the levels discussed. For example, the same librarian might fill different roles in different contexts. A dean might serve as a library's executive but also manage a university-wide project, or a middle manager might step into the role of dean temporarily or might wonder what the next level of management would require.
