Never before has so much power been so accessible to the web designer. This book is designed to put that power in your hands. Flash MX Studio has been broken into four sections to address the most common needs for the Flash designer. First off, Jamie McDonald provides five chapters on site presentation and the principles of web design. These opening chapters take a look at how to create slick professional level sites involving Flash MX's new drawing and motion capabilities and interactive techniques. The second section concentrates on ActionScript. Flash's resident coding environment is crucial to master and taps into Flash's great strength: intuitive and interactive applications. Keith Peters and Todd Yard have buddied up on this section and examine some of the most advanced ActionScript techniques around. Be warned: this section is not for the faint hearted. Section three takes a look at Flash MX's greatly improved visual audio and audiovisual capabilities. Its three chapters, written by Jez Turner and Alex White, concentrate on building a single site aimed at displaying rich media content. The final section is devoted to expounding a few myths about dynamic content using Flash. Its four chapters talk about general practice before focusing in on specific areas including introductions to PHP and XML together with a look at Macromedia's brand new ColdFusion MX.

Macromedia MX ELearning Jeffrey Bardzell, 2003. With International Data Corp projecting e learning to be an 11.5 billion industry by 2003, the demand for interactive multimedia learning applications is on the rise. And Macromedia's Studio MX design tools, including Flash MX, Dreamweaver MX, and ColdFusion MX, provide the ideal solution. But figuring out how to combine these products to create the perfect active learning applications for your purposes can be tricky, which is why you need *Macromedia MX eLearning Advanced Training from the Source*. Using project based lessons, e learning specialist and veteran author Jeffrey Bardzell takes you through the paces of these solutions, demonstrating how you can use them to create e learning applications for both academic and corporate environments. Moving at your own pace, you'll learn by doing through the tutorials and hands on instructions that have become the hallmark of this popular series. By the time you reach the end of this volume, you will have built four e learning projects: one in Dreamweaver, two in Flash, and one that uses ColdFusion. Dreamweaver and Flash to create a front end for a complete ColdFusion driven Web application. In the process, you'll learn how to create drag and drop interactivity, fill in the blank, dynamic text, hotspots, and a host of other useful e learning features including how to track scores and provide on the fly user feedback by connecting to a database through ColdFusion. Whether you're a corporate or government trainer or an educator grappling with the challenges of distance learning, you'll find what you need to provide the training your people require in *Macromedia MX eLearning Advanced Training from the Source*.
