Fly In The Cathedral:

The Fly in the Cathedral Brian Cathcart, 2004 Three quarters of a century ago no one not even the great Lord Rutherford who discovered it could describe the atomic nucleus No theory was possible until it could be tamed experimentally and no satisfactory experiment seemed possible because it guarded its secrets so fiercely And then just at the point of despair two young researchers at the Cavendish laboratory in Cambridge came along and with paper and pencil calculations hand made apparatus and the occasional lump of plasticine changed everything egged on by Rutherford physics 1932 the atom was split the neutron discovered and nuclear science born *Colonel Cody and the Flying Cathedral* Garry Jenkins, 2015-03-10

Colonel Cody and the Flying Cathedral is the fascinating and bizarre history of Samuel Franklin Cody who in his early years worked the same cattle trails as Buffalo Bill and played the same Dodge City roulette tables as Wyatt Earp But later his life took a startling turn While performing in England Cody became a passionate kite builder and flyer and at the apex of his career fashioned a vast airplane dubbed The Flying Cathedral and with it went on to become the first man to fly in England
