Red Death Over China L. Ron Hubbard, 2012-10-21 It is one of the greatest conflicts and a pivotal turning point in history the Chinese civil war On one side stands Chiang Kai-shek and the Nationalists On the other Mao Zedong and the Communists And their forces are about to meet in a decisive battle the outcome of which is in the hands of one American pilot John Hampton a man who like Bogart in Casablanca couldn't care less He's a mercenary flying for the highest bidder his only loyalty to himself and to cold hard cash He has nothing to believe

in and nothing to lose But just as this is a critical moment in history so too is it about to become a defining moment in Hampton's life What is the extraordinary experience that has the power to penetrate Hampton's armor of cynicism and touch his heart What is it that makes him see that there are things other than money that are worth fighting and maybe even dying for The surprising answers spur him to undertake the ultimate mission in *Red Death Over China* Hubbard experienced China in the 1930s in a way few Westerners did Traveling from the ports of the China Sea to Beijing to the Great Wall and onto the hills of Southern Manchuria he came to know the land and its people soldiers spies outlaws and monks as well as any American could It is that background that shines through in stories like *Red Death Over China* Also includes the flying adventures *The Crate Killer* in which a test pilot uses up his nine lives parachuting nine times from crumbling planes only to discover that his tenth flight presents the biggest challenge of all and *Wings Over Ethiopia* the story of a pilot captured and accused of being a spy by both sides in a war and his only means of escape is through the lens of a camera Highly recommended for aviation action adventure pulp fiction Midwest Book Review

Marked for Death James Hamilton-Paterson, 2016-08-02 A dramatic and fascinating account of aerial combat during World War I revealing the terrible risks taken by the men who fought and died in the world's first war in the air Little more than ten years after the first powered flight aircraft were pressed into service in World War I Nearly forgotten in the war's massive overall death toll some 50 000 aircrew would die in the combatant nations fledgling air forces The romance of aviation had a remarkable grip on the public imagination propaganda focusing on gallant air aces who become national heroes The reality was horribly different *Marked for Death* debunks popular myth to explore the brutal truths of wartime aviation of flimsy planes and unprotected pilots of burning nineteen year olds falling screaming

to their deaths of pilots blinded by the entrails of their observers James Hamilton Paterson also reveals how four years of war produced profound changes both in the aircraft themselves and in military attitudes and strategy By 1918 it was widely accepted that domination of the air above the battlefield was crucial to military success a realization that would change the nature of warfare forever **Hostage to Death** L.
