**Community News** ,1924 From Snake Oil to Medicine R. Alton Lee,2007-03-30 Without Samuel J Crumbine and his Kansas Department of Health diseases festering in water sources food and the common towel would have caused thousands of deaths in the United States Crumbine and his associates paved the way to better treatment of tuberculosis This well written account leads the reader down a path of crucial medical advancements Samuel J Crumbine was a medical educator without peer who used his department of health to disseminate the latest developments he and others throughout the world were achieving in public health He found it necessary to propagandize a skeptical and sometimes hostile public to accept the germ theory the idea that invisible microbes were making them ill and that they should clean up their environment and their food and water sources He had to convince the public to rely on modern medicine not snake oil and other miracle cures for a healthy living R Alton Lee s historical account might offer insight in today s threat of Bird Flu and other recent medical threats for any reader

**The Universalist Leader** ,1923 *Civil Rights Childhood* Katharine Capshaw,2014-12-01 Childhood joy pleasure and creativity are not often associated with the civil rights movement Their ties to the movement may have faded from historical memory but these qualities received considerable photographic attention in that tumultuous era Katharine Capshaw s Civil Rights Childhood reveals how the black child has been and continues to be a social agent that demands change Because children carry a compelling aura of human value and potential images of African American children in the wake of Brown v Board of Education had a powerful effect on the fight for civil rights In the iconography of Emmett Till and the girls murdered in the 1963 Birmingham church bombings Capshaw explores the function of children s photographic books and the image of the

black child in social justice campaigns for school integration and the civil rights movement Drawing on works ranging from documentary photography coffee table and art books and popular historical narratives and photographic picture books for the very young *Civil Rights Childhood* sheds new light on images of the child and family that portrayed liberatory models of blackness but it also considers the role photographs played in the desire for consensus and closure with the rise of multiculturalism Offering rich analysis Capshaw recovers many obscure texts and photographs while at the same time placing major names like Langston Hughes June Jordan and Toni Morrison in dialogue with lesser known writers An important addition to thinking about representation and politics *Civil Rights Childhood* ultimately shows how the photobook and the aspirations of childhood itself encourage cultural transformation
