Fnd Colours:

The Colour Code Klara Goldy, 2014-05-21 This book takes a sassy approach to colour by helping you unlock its potential and allowing it to consciously make changes in your life Colour is a universal and unspoken language which conveys many meanings and captivates our senses Her gift is to give property soul Klara Goldy has brought her passion to life using The Colour Code to explore the realm of colour as a hidden language of the soul so as to create inspired homes and environments This is an exciting exploration for any reader wishing to work with colour in a deeper way She reveals how her best ideas are about creating homes that are nurturing and supportive to the inhabitants Inspiration is right there once we understand how colour affects us This book aims to give you such confidence in exploring your relationship to colour and light *Green Pastures and Piccadilly* William Black, 1877

Key Java John Hunt, Alexander G. McManus, 2013-06-29 Java is such a rapidly evolving language it can be difficult for developers to keep abreast of developments It has moved beyond a language used just for creating Web based applets to one that is being used for developing serious applications Key Java is intended for those who already know the Java language the classes and the tools but who want to get more out of Java They are wanting to know about subjects such as good Java style for reusable components about using Java beans about the JDBC about optimising their code about testing their code appropriately and about using the IFC tools and the new JFC This book explores some of the more significant and exciting developments in Java It covers techniques that will be fundamental to programmers developing significant applications in Java Each of the self contained chapters looks beyond the mechanics of coding applications and explores the concepts that will prove vital to getting the most out of the Java language *The Divine Comedy* Dante Alighieri, 1867

Collours Rem Koolhaas, 2001 The nature of colour should change no longer just a thin layer of change but something that genuinely alters perception this stipulation of Rem Koolhaas is echoed by the world famous architects and designers Alessandro Mendini and Norman Foster In this volume they present between them a total of 90 colours each covering half a page accompanied by comments on the background the significance and the applications of the colours Studies of colours from each office form the basis of this book and were previously only available in extravagant individual editions With this comprehensive and consistent presentation of the varying approaches to colour we have a compendium which shows the wide use of colour in today's technologically advanced architecture with its modern post modern and deconstructive orientation The range of examples of the colours in practice includes load bearing structures facades interior design furnishing and the entire spectrum of product design
