Focus on Theology Peggy O'Leary, Kathleen M. Foley, 1999 Focus on Theology Resource Book      *Common Sense Catechesis* Fr. Robert J. Hater, 2014-03-01 To build for the future we must learn from the past With an engaging and personal style Fr Bob Hater considers both the future and the past in this one of a kind bridge building book about catechesis in America Discover Fr Hater s entirely new concept for catechesis a Common Sense approach It takes into account the historical framework over the course of the 20th century and overlays key concepts to give catechetical leaders and catechists usually volunteers what they need to succeed today Common Sense Catechesis requires two main things of the catechist 1 Knowing the basic teachings to be taught and 2 Devising ways to present them clearly and effectively At the same time Fr Hater acknowledges the elements of each catechetical approach along the way The memorization approach of the early 20th century and the use of the Baltimore Catechism The chaotic approach of the late 60s and 70s and the effects of Vatican II The experiential approach of the 80s and 90s including the Rite of Christian Initiation of Adults The systematic approach from the 90s to today and the influence of the Catechism of the Catholic Church Let Fr Hater s common sense approach bring energy and life to your catechetical ministry ensuring that Christ is at the center of it all Now that makes sense      **American Book Publishing Record** ,2007      *Virtual Theology, Faith and Adult Education* Ros Stuart-Buttle, 2013-07-29 Online learning is a key feature of the contemporary educational landscape and has entered mainstream policy provision and practice But if online education is to reach mature development and evaluation it must be open to critical appraisal This book considers the implementation of online learning within adult theological education This can be an area of challenge or contention especially when established academic practices and cherished values are seen as threatened when handed over to online delivery This opens questions about theology pedagogy and online education Does online teaching and learning bring or demand a new or transformed disruptive pedagogy or does it result in maintenance or replication sustaining of traditional values and existing practices What might the opportunities and benefits be Who stands to gain Who stands to lose And what evidence is there to evaluate the quality of doing theology online This book examines a long standing programme of continuing professional development delivered fully online to adult practitioners working across Christian education and ministry settings It builds upon the author s international experience as an online educator for over a decade Key themes relate adult learning to theological pedagogy authority and online community The concept of interruptive pedagogy is presented as an interpretative model to critically appraise an approach to online education that draws on the best theological tradition yet also looks to the future      **International Handbook of Inter-religious Education** Kath Engebretson, Marian de Souza, Gloria Durka, Liam Gearon, 2010-08-17 This Handbook is based on the conviction of its editors and contributing authors that understanding and acceptance of as well as collaboration between religions has essential educational value The development of this Handbook rests on the further assumption that interreligious education has an

important role in elucidating the global demand for human rights justice and peace Interreligious education reveals that the creeds and holy books of the world's religions teach about spiritual systems that reject violence and the individualistic pursuit of economic and political gain and call their followers to compassion for every human being It also seeks to lead students to an awareness that the followers of religions across the world need to be and to grow in dialogical relationships of respect and understanding An essential aim of interreligious education is the promotion of understanding and engagement between people of different religions and therefore it has great potential to contribute to the common good of the global community Interreligious education has grown from the interfaith movement whose beginning is usually identified with the World Parliament of Religions held in Chicago in 1893 This was the first time in history that leaders of the eastern and western religions had come together for dialogue and to consider working together for global unity

**Toward an Adult Church** Jane E. Regan, 2002 Penance Confirmation Eucharist Children participate in these sacraments and many other Catholic rites thanks to America's long standing model of parish catechesis Once children become adults however what becomes of their faith formation In *Toward an Adult Church: A Vision of Faith Formation* Jane Regan explores the current structure of parish catechesis Basing her ideas on contemporary theory and traditional practice Regan sets forth an intriguing argument the vitality of the Church depends on establishing a new education paradigm one that is focused on adults How can parishes design a framework for adult catechesis Will such programs be accepted by local church communities Where does children's faith formation fit into the new structure Regan answers these questions and offers ideas for developing a balanced approach to religious education one that addresses the ongoing faith life of adults

**Networks for Faith Formation** Steve Emery-Wright, Ed Mackenzie, 2017-05-19 The spiritual formation of young people can often focus on encouraging their personal spiritual practices and perhaps linking them to a local youth group While both are important *Networks for Faith Formation* argues that a far wider set of relationships are needed to help faith grow The aim of *Networks for Faith Formation* is to describe and commend eight key networks relational bonds that nurture and nourish faith The eight networks are bedroom practices personal faith church family friends mentors small groups events and gatherings and mission and service The description of each network draws on biblical studies practical theology and the social sciences and practical ideas for helping young people engage with such networks are included throughout the book In
