## **Focus On Canadian Landscapes:**

Fashioning the Canadian Landscape J.I. Little, 2018-01-01 In his book *Fashioning the Canadian Landscape* J I Little examines how Canada much like the United States came to be identified with its natural landscape Little argues that in contrast to America Canada s image was strongly influenced by the picturesque convention favoured by British travel writers

**The Canadian Fantastic in Focus** Allan Weiss, 2014-11-26 Bringing together papers presented at the Academic Conference on Canadian Science Fiction and Fantasy from 2005 to 2013 this collection of essays includes Veronica Hollinger s keynote address *The Body on the Slab* and Robert Runte s Aurora Award winning paper *Why I Read Canadian Speculative Fiction* along with 15 other contributions on science fiction and fantasy literature television and music by Canadian creators Authors discussed include Charles de Lint Nalo Hopkinson Tanya Huff Esther Rochon Peter Watts and Robert Charles Wilson Essays on the television show *Supernatural* and the Scott Pilgrim comics series are also included

*Landscapes and Landmarks of Canada* Maeve Conrick, Munroe Eagles, Jane Koustas, Caitríona Ní Chasaide, 2017-03-28 The image of the land is an ongoing trope in conceptions of Canada from the national anthem and the flag to the symbols on coins the land and nature remain linked to the Canadian sense of belonging and to the image of the nation abroad Linguistic landscapes reflect the multi faceted identities and cultural richness of the nations Earlier portrayals of the land focused on unspoiled landscape depicted in the paintings of the Group of Seven for example Contemporary notions of identity belonging and citizenship are established contested and legitimized within sites and institutions of public culture heritage and representation that reflect integration with the land transforming landscape into landmarks The Highway of Heroes originating at Canadian Forces Base Trenton in Ontario and Grosse Ile and the Irish Memorial National Historic Site in Quebec are examples of landmarks that transform landscape into a built environment that endeavours to respect the land while using it as a site to commemorate celebrate and promote Canadian identity Similarly in literature and the arts the creation of the built environment and the interaction among those who share it is a recurrent theme This collection includes essays by Canadian and international scholars whose engagement with the theme stems from their disciplinary perspectives as well as from their personal and professional experience rooted at least partially in their own sense of national identity and in their relationship to Canada

**Man's Impact on the Western Canadian Landscape** J.G. Nelson, 1976-01-01 **Landscapes and Landforms of Western Canada** Olav Slaymaker, 2016-12-01 This is the only book to focus on the geomorphological landscapes of Canada West It outlines the little appreciated diversity of Canada s landscapes and the nature of the geomorphological landscape which deserves wider publicity Three of the most important geomorphological facts related to Canada are that 90% of its total area emerged from ice sheet cover relatively recently from a geological perspective permafrost underlies 50% of its landmass and the country enjoys the benefits of having three oceans as its borders the Arctic Pacific and Atlantic oceans Canada West is a land of extreme contrasts from the rugged Cordillera to the wide open spaces of the Prairies from the

humid west coast forests to the semi desert in the interior of British Columbia and from the vast Mackenzie river system of the to small steep cascading streams on Vancouver Island The thickest Canadian permafrost is found in the Yukon and extensive areas of the Cordillera are underlain by sporadic permafrost side by side with the never glaciated plateaus of the Yukon One of the curiosities of Canada West is the presence of volcanic landforms extruded through the ice cover of the late Pleistocene and Holocene epochs which have also left a strong imprint on the landscape The Mackenzie and Fraser deltas provide the contrast of large river deltas debouching respectively into the Arctic and Pacific oceans

*Romantic Revisions in Novels from the Americas* Lauren Rule Maxwell, 2013 Returning to British Romantic poetry allows the novels to extend the Romantic poetics of landscape that traditionally considered the British subject's relation to place By recasting Romantic poetics in the Americas these novels show how negotiations of identity and power are defined by the legacies of British imperialism illustrating that these nations their peoples and their works of art are truly postcolonial While many postcolonial scholars and critics have dismissed the idea that Romantic poetry can be used to critique colonialism Maxwell suggests that on the contrary it has provided contemporary writers across the Americas with a means of charting the literary and cultural legacies of British imperialism in the New World The poems of the British Romantics offer postcolonial writers particularly rich material Maxwell argues because they characterize British influence at the height of the British empire

**Refractions of Canada in European Literature and Culture** Heinz Antor, Gordon Bölling, Annette Kern-Stähler, Klaus Stierstorfer, 2012-05-02 Ever since the first exploratory expeditions in the early modern period North America has epitomized to Europeans a promise and the hope for the fulfilment of great expectations be it of more freedom greater wealth social liberation or religious tolerance While numerous features in this dialogic intercontinental relationship will hold true for North America in its entirety the vast northern territories which we know as Canada today began to emerge early on as a specific iconic location in European mind maps and they definitely acquired a distinctive profile after the formation of the USA As a rich source of cultural exchange and an important partner in political and economic cooperation Canada has come to occupy an important position in the cultural discourses of many European nations It is these refractions and images of Canada which this volume thoroughly explores in European literature and culture The contributions include literature philosophy language life writing and the concept of Heimat homeland as well as the cultural impact of the World Wars While there is an emphasis on literary texts other fields of cultural representation are also included

*Canadian Gothic* Cynthia Sugars, 2014-01-15 This book explores the Gothic tradition in Canadian literature by tracing a distinctive reworking of the British Gothic in Canada It traces the ways the Gothic genre was reinvented for a specifically Canadian context On the one hand Canadian writers expressed anxiety about the applicability of the British Gothic tradition to the colonies on the other they turned to the Gothic for its vitalising rather than unsettling potential After charting this history of Gothic infusion Canadian Gothic turns its attention to the body of Aboriginal and diasporic writings that respond to this discourse of national self invention from a post

colonial perspective These counter narratives unsettle the naturalising force of this invented history rendering the sense of Gothic comfort newly strange The Canadian Gothic tradition has thus been a conflicted one which reimagines the Gothic as a form of cultural sustenance This volume offers an important reconsideration of the Gothic legacy in Canada Landscapes and Landforms of Eastern Canada Olav Slaymaker, Norm Catto, 2020-02-13 This critical book focuses on the geomorphological landscapes of eastern Canada and provides a companion volume to *Landscapes and Landforms of Western Canada* 2017 There are a number of unique characteristics of eastern Canada's landscapes notably its magnificent coastlines the extraordinary variety and extent of wetlands the huge Great Lakes St Lawrence basin the high incidence of meteorite craters the spectacular Niagara Falls urban karst in Montreal and Ottawa youthful glaciated karst in Ontario Newfoundland Quebec and Nova Scotia the ubiquitous permafrost terrain of Nunavut Labrador and northern Quebec and the magnificent arctic fjords and glaciers Looking at coastlines the tidal extremes of the Bay of Fundy are world renowned the structural complexity of the island of Newfoundland is less well known but produces an astounding variety of coastlines in close succession the arctic fjordlands of Baffin and Ellesmere islands and the extravagant raised beaches of Hudson Bay bear comparison with the classic fjords of Norway and the Baltic Sea raised beaches As for wetlands there are distinctive Arctic Subarctic Boreal Eastern Temperate and Atlantic wetlands and their extent is second only to those of Russia In the Hudson and James Bay regions between 75-100% of the terrestrial surface is comprised of wetlands One of North America's largest river basins the Great Lakes St Lawrence basin has its source in Minnesota straddles the USA-Canada border and debouches into Quebec as the St Lawrence River and evolves through its estuary into the Gulf of St Lawrence a journey of almost 5 000 km As far as meteorite craters are concerned 10% of the world's total are located in eastern Canada including some of the largest and most complex landforms They are preserved preferentially in the ancient Shield terrain of Quebec Finally the three million km<sup>2</sup> of permafrost controlled relief in eastern Canada serves as a reminder of the vulnerability of eastern Canada's landscapes to climate change Effects of warming are expressed through thawing of the permafrost disruption of transportation corridors and urban construction problems ever present geomorphic hazards **"Architecture, Design and Craft in Toronto 1900-1940"** Alla Myzelev, 2017-07-05 Toronto the largest and one of the most multicultural cities in Canada boasts an equally interesting and diverse architectural heritage *Architecture Design and Craft in Toronto 1900-1940* tells a story of the significant changes in domestic life in the first 40 years of the twentieth century Adopting a multidisciplinary approach to studies of residential spaces the author examines how questions of modernity and modern living influenced not only architectural designs but also interior furnishings modes of transportation and ways to spend leisure time The book discusses several case studies some of which are known both locally and internationally for example Casa Loma while others such as Guild of All Arts or Sherwood have been virtually unstudied by historians of visual culture The overall goal of the book is to put Toronto on the map of scholars of urban design and architecture and to uncover

previously unknown histories of design craft and domesticity in Toronto This study will be of interest not only to the academic community namely architects designers craftspeople and scholars of these disciplines along with social historians but also the general public interested in local history and or visual culture      **Landscape Ecology** Zev Naveh, Arthur S.

Lieberman, 2013-03-09 This series is dedicated to serving the growing community of scholars and practitioners concerned with the principles and applications of environmental management Each volume is a thorough treatment of a specific topic of importance for proper management practices A fundamental objective of these books is to help the reader discern and implement man's stewardship of our environment and the world's renewable resources For we must strive to understand the relationship between man and nature act to bring harmony to it and nurture an environment that is both stable and productive These objectives have often eluded us because the pursuit of other individual and societal goals has diverted us from a course of living in balance with the environment At times therefore the environmental manager may have to exert restrictive control which is usually best applied to man not nature Attempts to alter or harness nature have often failed or backfired as exemplified by the results of imprudent use of herbicides fertilizers water and other agents Each book in this series will shed light on the fundamental and applied aspects of environmental management It is hoped that each will help solve a practical and serious environmental problem      **Picturing the Land** Marylin Jean McKay, 2011 The vast Canadian

landscape has captured the imagination of visual artists since the first European contact Although artistic engagement with the landscape has a long history some periods have drawn considerable critical attention while others have been left almost unexamined Picturing the Land surveys work from coast to coast from the earliest maps to postwar painting in English and French Canada To provide a comprehensive view of Canadian landscape art Emphasizing the ways in which social economic and political conditions determine representation Marylin McKay moves beyond canonical images and traditional nationalistic interpretations by analyzing Canadian landscape art in relation to different concepts of territory Taking an expansive and inclusive perspective on Canadian landscape art McKay depicts this tradition in all its diversity and draws it into the larger body of Western landscape art broadening the horizon of future study appreciation and criticism Richly illustrated and filled with sophisticated and innovative commentary Picturing the Land provides new and distinct histories of the landscape art of French and English Canada      **Focus on Canadian Landscapes** R. G. Blackador, L. G. Vincent, Canada.

Department of Energy, Mines and Resources, 1976      *Geography in America at the Dawn of the 21st Century* Gary L. Gaile, Cort J. Willmott, 2004-02-05 Geography in America at the Dawn of the 21st Century surveys American geographers current research in their specialty areas and tracks trends and innovations in the many subfields of geography As such it is both a state of the discipline assessment and a topical reference It includes an introduction by the editors and 48 chapters each on a specific specialty The authors of each chapter were chosen by their specialty group of the American Association of Geographers AAG Based on a process of review and revision the chapters in this volume have become truly representative of
