was a baby gray whale following alongside Lynne for a mile or so Lynne had been swimming for more than an hour she needed to get out of the water to rest but she realized that if she did the young calf would follow her onto shore and die from collapsed lungs The baby whale eighteen feet long was migrating on a three month trek to its feeding grounds in the Bering Sea an eight thousand mile journey It would have to be carried on its mother s back for much of that distance and was dependent on its mother s milk for food baby whales drink up to fifty gallons of milk a day If Lynne didn t find the mother whale the baby would suffer from dehydration and starve to death Something so enormous the mother whale was fifty feet long suddenly seemed very small in the vast Pacific Ocean How could Lynne possibly find her This is the story part mystery part magical tale of what happened BOOK JACKET Portugal P.
