Folk Song In England:

Folk Song in England Steve Roud, 2017-08-15 In Victorian times England was famously dubbed the land without music but one of the great musical discoveries of the early twentieth century was that England had a vital heritage of folk song and music which was easily good enough to stand comparison with those of other parts of Britain and overseas Cecil Sharp Ralph Vaughan Williams Percy Grainger and a number of other enthusiasts gathered a huge harvest of songs and tunes which we can study and enjoy at our leisure But after over a century of collection and discussion publication and performance there are still many things we don't know about traditional song Where did the songs come from Who sang them where when and why What part did singing play in the lives of the communities in which the songs thrived More importantly have the pioneer collectors restricted definitions and narrow focus hindered or helped our understanding This is the first book for many years to investigate the wider social history of traditional song in England and draws on a wide range of sources to answer these questions and many more **Folk Song in England** A. L. Lloyd, 1967 [Folk Song in England](#) Albert Lancaster Lloyd, 1967

Folk Music of Britain - and Beyond Frank Howes, 2015-12-22 Originally published in 1969 Until the latter half of the nineteenth century it was thought that England alone among the European countries and unlike Scotland and Ireland where collections of ballads and songs had already been published as early as the eighteenth century had no important native tradition of music The founding of the English Folk Song Society in 1898 however and the pioneering work of such collectors as Lucy Broadwood the Reverend S Baring Gould and later Cecil Sharp uncovered a still flourishing folk culture Since then interest in this subject has grown steadily and the bibliography of publications of actual folk songs and ballads is now huge Frank Howes sets out a general and scholarly introduction first examining in detail the history and origins of folk music and going on to show the nature and vast amount of the material enforcing his arguments with a wealth of examples from around the world His discussion of the differences of national idiom leads on to a comparison of British folk music with that of other European countries and America in which he pays due attention to the Celtic and Norse traditions Separate sections on balladry carols street cries broadsides sea shanties nursery rhymes and instruments illustrate both the variety of folk music and the extent to which it permeates our national heritage **Folk-songs of England** Cecil James Sharp, 1908

Fakesong David Harker, 1985 Folksongs interest many people nowadays because they are meant to be the kinds of songs most of our ancestors sang before industrialisation before the mass media before music and song became commodities and before all the assorted evils associated with advanced capitalist society Folksongs and ballads represent real values something honest and straightforward and beautiful to hang on to and make us feel our roots in the Britain of 1900 or 1800 or even 1700 The only problem with this way of thinking is that it is based on myths What we now know as folksongs and ballads were sought after collected edited and published by individuals who were either members of the rising bourgeoisie or were ideologically sympathetic to bourgeois culture and values The working people who sang their songs and had them

chopped up amended and sometimes re written or invented on their behalf are remarkably absent from the story of folksong Before we can begin to piece together the real history of our ancestors culture we have to penetrate the mediations of people like Cecil Sharp Francis James Child and Albert Lancaster Lloyd and to begin building again on firmer foundations This book sets out to clear the ground Page 4 of cover *England's Folk Revival and the Problem of Identity in Traditional Music* Joseph Williams, 2022-08-12 Establishing an intersection between the fields of traditional music studies English folk music history and the philosophy of Gilles Deleuze and Félix Guattari this book responds to the problematic emphasis on cultural identity in the way traditional music is understood and valued Williams locates the roots of contemporary definitions of traditional music including UNESCO designated intangible cultural heritage in the theory of English folk music developed in 1907 by Cecil Sharp Through a combination of Deleuzian philosophical analysis and historical revision of England's folk revival of the Victorian and Edwardian eras Williams makes a compelling argument that identity is a restrictive ideology that runs counter to the material processes of traditional music's production Williams reimagines Sharp's appropriation of Darwinian evolutionary concepts asking what it would mean today to say that traditional music evolves in light of recent advances in evolutionary theory The book ultimately advances a concept of traditional music that eschews the term's long standing ontological and axiological foundations in the principle of identity For scholars and graduate students in musicology cultural studies and ethnomusicology the book is an ambitious and provocative challenge to entrenched habits of thought in the study of traditional music and the historiography of England's folk revival **The Late Victorian Folksong Revival** E. David Gregory, 2010-04-13 In *The Late Victorian Folksong Revival: The Persistence of English Melody 1878-1903* E. David Gregory provides a reliable and comprehensive history of the birth and early development of the first English folksong revival Continuing where Victorian Songhunters his first book left off Gregory systematically explores what the Late Victorian folksong collectors discovered in the field and what they published for posterity identifying differences between the songs noted from oral tradition and those published in print In doing so he determines the extent to which the collectors distorted what they found when publishing the results of their research in an era when some folksong texts were deemed unsuitable for polite ears The book provides a reliable overall survey of the birth of a movement tracing the genesis and development of the first English folksong revival It discusses the work of more than a dozen song collectors focusing in particular on three key figures the pioneer folklorist in the English west country Reverend Sabine Baring Gould Frank Kidson who greatly increased the known corpus of Yorkshire song and Lucy Broadwood who collected mainly in the counties of Sussex and Surrey and with Kidson and others was instrumental in founding the Folk Song Society in the late 1890s The book includes copious examples of the song tunes and texts collected including transcriptions of nearly 300 traditional ballads broadside ballads folk lyrics occupational songs carols shanties and national songs demonstrating the abundance and high quality of the songs recovered by these early collectors **The Traditional Music of Britain and Ireland** James Porter, 1989 The

British Folk Revival Michael Brocken, 2022-08-26 Almost 20 years ago Michael Brocken created from his doctoral research what became both a seminal and contested volume concerning the social mores surrounding the British Folk Revival up to that point in time *The British Folk Revival 1944-2002* In this long overdue second edition he revisits not only his own research but also that of others from the 1990s and early 21st century He then considers how a discourse of folkloric authenticity emerged in the closing years of the 19th century and how a worrying nationalistic immanence came to surround folk music and dance during the inter war years Brocken also proposes that the media records radio and TV in post WWII folk revivalism can offer us important insights into how self directed learning of the folk guitar emerged Brocken moves on to consider the business structures of the contemporary folk scene and how relationships are formed between contemporary folk business and the digital and social media spheres In his penultimate chapter he discusses the masculinisation of folk traditions and asks important questions about how our folk traditions are carried and are authorised In the final chapter he also considers the rise of an exciting new folk live music built environment
