independent strands of gap thought and experience interacted and interwove more intricately Atoms textiles theories women Jews collage poetry patchwork and music figure prominently in these strands The gap is a ubiquitous phenomenon that crosses the boundaries of neuroscience rabbinic thinking modern literary criticism art popular culture and the structure of matter This book explores many subjects but it is ultimately a work of art *The North Sea* David A.C. Freestone, Ton Ijlstra, 1990 The North Sea one of the most intensively used sea areas in the world may well be one of the most intensively regulated sea areas as well As human activity developed in the North Sea national later international regulations followed these developments The result has been what is commonly called a piecemeal approach The legal regime of the North Sea has developed in an incremental manner Thus one conventional instrument after the other covering different user functions like vessel source pollution fisheries ocean dumping land based pollution was adopted In contrast to more modern approaches these legal instruments have their own framework The result is that the instruments are scattered in many different documents even for the more well informed North Sea watcher it is difficult to obtain a comprehensive overview of the regulatory instruments The North Sea Basic Legal Documents on Regional Environmental Co operation offers a comprehensive view of the instruments dealing with all sources of marine pollution in the North Sea be they ocean dumping land based pollution or vessel source pollution The book contains many legal documents including maps tables It also contains non conventional instruments such as the texts of the declarations of the International North Sea Conferences held between 1984 1990 recommendations decisions of e g the Paris Commission on Land Based Pollution the Oslo Commission on Dumping Furthermore the book contains documentation on relatively new areas of environmental concern in the North Sea region i e nature conservation management of living resources The book supplements *The North Sea Perspectives on Regional Environmental Co operation* also edited by David Freestone Ton Ijlstra which contains 26 essays on legal policy aspects of environmental protection in the North Sea **Marine Ecosystem-Based Management in Practice** Julia M.
