www.kensingtonbooks.com      Gaslighted Christine L. Williams, 2021-10-12 The oil and gas industry is one of the richest and most powerful industries in the world. In recent years, company avowals in support of diversity, much touted programs for women in STEM and most importantly a tight labor market with near parity in women pursuing geoscience credentials might lead us to expect progress for women in this industry's corporate ranks. Yet for all the talk of the great crew change, the industry remains overwhelmingly white and male. Sociologist Christine L. Williams asks where are the women. To answer this question, Williams embarked on a decade-long investigation, one involving one hundred in-depth interviews, a longitudinal survey, and ethnographic research that allowed her to observe the industry in times of boom and bust. She found that when the industry expands, women may be able to walk through the door, but when the industry contracts, the door becomes a revolving one, whirling ever faster as companies retreat to their white male core. These gendered outcomes are obscured by firms' stated commitments to diversity and the language of merit. The result is organizational gaslighting, a radical dissonance between language and practice that Williams exposes for all.      **Annals of the Former World** John McPhee, 2000-06-15 The Pulitzer Prize-winning view of the continent across the fortieth parallel and down through 4.6 billion years. Twenty years ago, when John McPhee began his journeys back and forth across the United States, he planned to describe a cross-section of North America at about the fortieth parallel and, in the process, come to an understanding not only of the science but of the style of the geologists he traveled with. The structure of the book never changed, but its breadth caused him to complete it in stages under the overall title *Annals of the Former World*. Like the terrain it covers, *Annals of the Former World* tells a multilayered tale, and the reader may choose one of many paths through it. As clearly and succinctly written as it is, profoundly informed, this is our finest popular survey of geology and a masterpiece of modern nonfiction. *Annals of the Former World* is the winner of the 1999 Pulitzer Prize for Nonfiction.      On Gold Mountain Lisa See, 2014-08-20 From the bestselling author of *The Island of Sea Women*, here is the true story of the one hundred-year odyssey of the author's Chinese American family, combining years of research with fascinating family anecdotes, imaginative details, and the historical details of immigrant life. Amy Tan, bestselling author of *The Joy Luck Club*. As engagingly readable as any novel. *Los Angeles Times Book Review*. In 1867, Lisa See's great-great grandfather arrived in America, where he prescribed herbal remedies to immigrant laborers who were treated little better than slaves. His son, Fong See, later built a mercantile empire and married a Caucasian woman in spite of laws prohibiting interracial marriage. Lisa herself grew up playing in her family's antiques store in Los Angeles's Chinatown, listening to stories of missionaries and prostitutes, movie stars, and Chinese baseball teams. See's family history encompasses secret marriages, entrepreneurial genius, romance, racism, and much more, as two distinctly different cultures meet in a new world. In this lovingly rendered, vivid tableau of a family and an era, People      **The Behavioral Addictions** Michael S.
